Disclosed Information on the Internet at the Time of Notice of the 121st Annual Shareholders' Meeting

FUJITSU LIMITED

Note:

This English version of *Disclosed Information on the Internet at the Time of Notice of the 121st Annual Shareholders' Meeting* is a translation for reference only. The style of this English version differs slightly from the original Japanese version.

1. Fujitsu Group Principal Offices and Plants (As of March 31, 2021)

(1) Fujitsu Limited

Registered office	1-1, Kamikodanaka 4-chome, Nakahara-ku, Kawasaki-shi, Kanagawa
Headquarters	5-2, Higashi-Shimbashi 1-chome, Minato-ku, Tokyo
Domestic business offices	Hokkaido Regional Sales Division (Sapporo-shi), Tohoku Regional Sales Division (Sendai-shi), Fukushima Regional Sales Division (Fukushima-shi, Fukushima), Kanagawa Regional Sales Division (Yokohama-shi), Kanto Regional Sales Division (Saitama-shi), Chiba Regional Sales Division (Chiba-shi), Niigata Regional Sales Division (Niigata-shi), Nagano Regional Sales Division (Nagano-shi, Nagano), Hokuriku Regional Sales Division (Kanazawa-shi, Ishikawa), Tokai Regional Sales Division (Nagoya-shi), Shizuoka Regional Sales Division (Shizuoka-shi), Kansai Sales Division (Osaka-shi), Kobe Regional Sales Division (Kobe-shi), Kyoto Regional Sales Division (Kyoto-shi), Sanin Regional Sales Division (Matsue-shi, Shimane), Chugoku Regional Sales Division (Hiroshima-shi), Shikoku Regional Sales Division (Takamatsu-shi, Kagawa), Kyushu Regional Sales Division (Fukuoka-shi)
Software / Services	Sapporo Systems Laboratory (Sapporo-shi), Aomori Systems Laboratory (Aomori-shi, Aomori), Ichigaya Office (Chiyoda-ku, Tokyo), Shinagawa Office (Minato-ku, Tokyo), Fujitsu Solution Square (Ohta-ku, Tokyo), Musashi Kosugi Office (Kawasaki-shi), Fujitsu Shin-Kawasaki Technology Square (Kawasaki-shi), Makuhari Systems Laboratory (Chiba-shi), Kansai Systems Laboratory (Osaka-shi), Kouchi Fujitsu Technoport (Nangoku-shi, Kouchi), Kyushu R&D Center (Fukuoka-shi), Oita Systems Laboratory (Oita-shi, Oita), Kumamoto Systems Laboratory (Kamimashiki-gun, Kumamoto)
R&D / Plants	Kawasaki Research & Manufacturing Facilities (Kawasaki-shi), Oyama Plant (Oyama-shi, Tochigi), Nasu Plant (Otawara-shi, Tochigi), Nagano Plant (Nagano-shi, Nagano), Numazu Plant (Numazu-shi, Shizuoka), Akashi Research & Manufacturing Facilities (Akashi-shi, Hyogo)

(2) Subsidiaries

Japan	FUJITSU FRONTECH LIMITED (Inagi-shi, Tokyo), FUJITSU TELECOM NETWORKS LIMITED (Oyama-shi, Tochigi), FUJITSU IT PRODUCTS LIMITED (Kahoku-shi, Ishikawa), FUJITSU ADVANCED ENGINEERING LIMITED (Shinjuku-ku, Tokyo), FUJITSU KYUSHU SYSTEMS LIMITED (Fukuoka-shi), Ridgelinez Limited (Chiyoda-ku, Tokyo), FUJITSU SOCIAL SCIENCE LABORATORY LIMITED (Kawasaki-shi), FUJITSU BROAD SOLUTION & CONSULTING Inc. (Minato-ku, Tokyo), Fujitsu Japan Limited (Minato-ku, Tokyo), FUJITSU FSAS INC. (Kawasaki-shi), FUJITSU NETWORK SOLUTIONS LIMITED (Yokohama-shi), PFU Limited (Kahoku-shi, Ishikawa), Fujitsu Isotec Limited (Date-shi, Fukushima), TRANSTRON Inc. (Yokohama-shi), FUJITSU PERSONAL SYSTEM LIMITED (Minato-ku, Tokyo), SHINKO ELECTRIC INDUSTRIES CO., LTD. (Nagano-shi, Nagano), FDK CORPORATION (Minato-ku, Tokyo), FUJITSU LABORATORIES LTD. (Kawasaki-shi)
Outside of Japan	Fujitsu Network Communications, Inc. (U.S.), Fujitsu Services Holdings PLC (U.K.), Fujitsu America, Inc. (U.S.), Fujitsu Australia Limited (Australia), Fujitsu Technology Solutions (Holding) B.V. (Netherlands), FUJITSU ASIA PTE, LTD. (Singapore)

(3) Data Centers

Data centers	Hokkaido Data Center (Hokkaido), Tohoku Data Center (Miyagi), Tatebayashi Data Center (Gunma), Tokyo No. 1 Data Center (Tokyo), Tokyo Data Center (Kanagawa), Yokohama Data Center (Kanagawa), Yokohama Kohoku Data Center (Kanagawa), Nagano Data Center (Nagano), Chubu Data Center (Aichi), Osaka Senri Data Center (Osaka), Akashi Data Center (Hyogo), Chushikoku Data Center (Hiroshima), Shikoku Data Center (Kouchi), Kyushu Data Center (Fukuoka), global data centers (around the world)

2. Employees (As of March 31, 2021)

(1) Employees of the Fujitsu Group

Segment	*Number of employees*
Technology Solutions	117,401
Ubiquitous Solutions	766
Device Solutions	8,204
Total	126,371 (-2,700 from end of fiscal 2019)

(2) Employees of Fujitsu Limited

Segment	*Number of employees*
Technology Solutions	31,544
Ubiquitous Solutions	482
Total	32,026 (-542 from end of fiscal 2019)

Average age	43.8	*Average years of employment*	19.6

Note: The Company revised its business segments in July 2020, so no comparison was made with the end of fiscal 2019 in the number of employees for each segment.

3. Concurrent Positions of External Directors and Auditors and Their Activities (As of March 31, 2021)

Section	*Name*	*Companies at which concurrent positions are held and the positions held*
		Major activities, outline of duties performed in relation to roles expected of external directors
External Director	Jun Yokota	Independent Member of the Board, KANEKA CORPORATION
		Attended 100% of the Board of Directors Meetings held during fiscal 2020. As the Company expected that he would provide oversight and advice from a global perspective based on his in-depth knowledge of politics and economics, he appropriately fulfilled his role as an External Director of the Company by providing oversight and advice to the Board of Directors of the Company from a fair and objective global perspective based on his experience to date. He also played a leading role in enhancing deliberations as the Chairperson of the Executive Nomination Committee and participated in active discussions as a member of the Compensation Committee.
	Chiaki Mukai	Specially Appointed Vice President of Tokyo University of Science Outside Director, Kao Corporation
		Attended 100% of the Board of Directors Meetings held during fiscal 2020. As the Company expected that she would provide oversight and advice from a fair and objective global perspective based on broad knowledge of science and technology, she appropriately fulfilled her role as an External Director of the Company by providing oversight and advice to the Board of Directors of the Company concerning business execution from diverse perspectives. She also played a leading role in enhancing deliberations as the Chairperson of the Compensation Committee and participated in active discussions as a member of the Executive Nomination Committee.
	Atsushi Abe	Managing Partner, Senior Advisor, Sangyo Sosei Advisory Inc. Director, ON Semiconductor Corporation
		Attended 100% of the Board of Directors Meetings held during fiscal 2020. As the Company expected that, in addition to providing oversight and advice from a shareholder and investor perspective, he would contribute to timely and decisive management decision-making, he contributed to timely and decisive management decision-making by managing proceedings objectively from his perspective as an investor gained through his experience to date and dialogues with institutional investors and leading discussion as the Chairman of the Board of Directors, in addition to actively contributing comments at the Board of Directors of the Company from a shareholder and investor perspective.

Section	*Name*	*Companies at which concurrent positions are held and the positions held*
External Audit & Supervisory Board Member	Koji Hatsukawa	Certified Public Accountant External Director (Audit & Supervisory Committee member), Takeda Pharmaceutical Company Limited Audit & Supervisory Board Member, The Norinchukin Bank
		Attended 92.9% (13 out of 14) of the Board of Directors Meetings and 87.5% (7 out of 8) of the Audit & Supervisory Board Meetings held during fiscal 2020, and contributed comments from the standpoint of an expert in matters relating to finance and accounting based on his wealth of experience in auditing global companies as a Certified Public Accountant.
	Hideo Makuta	Advisor, Nagashima Ohno & Tsunematsu Outside Director, Maeda Corporation
		Attended 100% of both the Board of directors Meetings and the Audit & Supervisory Board Meetings held after taking office, and contributed comments based upon his professional perspective as a lawyer.

Notes:

1. Director Atsushi Abe serves as Managing Partner of Sangyo Sosei Advisory Inc. The Company has no business relationship or competitive relationship with Sangyo Sosei Advisory Inc.
2. Director Scott Callon serves as Chief Executive Officer of Ichigo Asset Management, Ltd. and Director and Chairman of the Board of Directors, Representative Statutory Executive Officer of Ichigo Inc. The Company has no business relationship or competitive relationship with either Ichigo Asset Management, Ltd. or Ichigo Inc.
3. Director Scott Callon serves as Chairman of Representative Executive Officer, Director and CEO, and Chairman of the Board of Directors of Japan Display Inc. The Company do engage in transactions with Japan Display Inc.
4. The Company has business relationships with KANEKA CORPORATION, Academic Corporation Tokyo University of Science, Kao Corporation, Takeda Pharmaceutical Company Limited, The Norinchukin Bank, and Maeda Corporation.
5. During fiscal 2020, the Company convened the Board of Directors Meetings 14 times (of which two were extraordinary meetings of the Board of Directors) and the Audit & Supervisory Board Meetings eight times.

4. System to Ensure the Properness of Fujitsu Group Operations

(1) Policy on the Internal Control System

1. Objective

To continuously increase the corporate value of the Fujitsu Group, it is necessary to pursue management efficiency and control risks arising from business activities. Recognizing this, the Directors who are entrusted with the management of the Company by the shareholders, present to the shareholders, who have entrusted authority in them, the policy regarding a) how to practice and promote the Fujitsu Way, the principles that underlie the Fujitsu Group's conduct, and b) what systems and rules are used to pursue management efficiency and control the risks arising from the Company's business activities in the application of their management approach, as described below.

2. Systems to Ensure that Directors Carry Out Their Responsibilities Efficiently

(1) Business Execution Decision-Making and Business Execution Structure

a. The Company has Corporate Executive Officers (hereafter, the Representative Directors and Corporate Executive Officers are referred to collectively as "Senior Management") who share business execution authority with the Representative Director and CEO, and the Corporate Executive Officers carry out decision-making and business execution in accordance with their responsibilities.

b. The Company has a Chief Financial Officer who is responsible for managing finance and accounting for the Fujitsu Group.

c. The Company has a Management Council made up of Representative Directors and Corporate Executive Officers to assist the Representative Director and CEO in decision-making.

d. The Representative Director and CEO puts in place systems and procedures (Management Council rules, systems for approvals, etc.) needed for decision-making by Senior Management and employees entrusted by Senior Management with authority.

e. The Representative Director and CEO reports financial and business results at each regularly-scheduled meeting of the Board of Directors, makes periodic reports to the Board of Directors on the operational status of the "Policy on the Internal Control System," and receives confirmation that operations are being undertaken correctly.

(2) System to Promote More Efficient Operations

a. The Company has an organization that uses reforms to the Fujitsu Group's business processes to promote higher productivity, lower costs, and expenditure controls, and it pursues more efficient management.

3. Rules and Other Systems Relating to Managing the Risk of Losses

(1) System for Managing the Risk of Losses in General

a. The Company aims to maintain the business continuity of the Fujitsu Group, increase its corporate value, and sustainably expand its business activities. In order to deal with risks that pose a threat to achieving these goals, the Company has a Risk Management & Compliance Committee, which oversees risk management for the entire Fujitsu Group. The Company also assigns certain departments to be responsible for specific kinds of risks, and has appropriate systems in place for risk management.

b. The Risk Management & Compliance Committee constantly assesses and verifies risks that might cause losses to the Fujitsu Group. When risks are identified in business operations, it works to control the risk, such as by formulating preventative measures, and attempts to minimize the loss that might result.

c. To minimize losses from any risks that arise, the Risk Management & Compliance Committee, through the systems described in paragraph "a" above, periodically analyzes any risks that have arisen, reports on them to the Board of Directors and any other relevant person or organization, and takes action to prevent a recurrence of such risks.

(2) Systems for Managing the Specific Risks of Losses

In addition to the Risk Management & Compliance Committee, the Company has risk management systems that include the following to deal with specific risks of losses it identifies in its business operations.

a. Risk Management System for Defects in Products and Services

- The Company has a quality-assurance system designed to analyze defects in Fujitsu Group products and services and prevent them from recurring. In particular, it has an organization that continuously works to improve quality, contracts, and rules to ensure that social infrastructure systems run reliably.

b. Management System for Contracted Development Projects

- To prevent the emergence of unprofitable projects among its contracted development projects, such as systems integration projects, the Company has a specialized organization that monitors risks relating to project negotiations and project execution.
- This specialized organization creates a monitoring process for contract amounts, contract terms, quality, expenses, deadlines and other relevant items, and monitors projects under consistent conditions.
- Based on the results of this monitoring, the specialized organization issues corrective recommendations to relevant projects.

c. Security System

- The Company has an organization to deal with cyber-terrorism, unauthorized use, and data breaches in the services it provides.

(3) Responses to Management Risks

a. System to Manage Financial Risks

- Financial risks are under the purview of the Chief Financial Officer.

b. Systems to Manage Other Forms of Management Risk

- Other forms of management risks, including market trends and price competition, are handled by each department according to a division of responsibilities established by the Representative Director and CEO.

4. Systems to Ensure that Business Execution of Directors and Employees Complies with Laws, Regulations and Articles of Incorporation

(1) Compliance System

a. Senior Management adheres to the Code of Conduct in the Fujitsu Way as a basic philosophy for compliance issues, including compliance with laws, regulations and the articles of incorporation, and proactively promotes the Group’s overall compliance based upon its ethics as Senior Management.

b. The Risk Management & Compliance Committee has purview over compliance matters for the Fujitsu Group, which it executes as follows.

- It ensures scrupulous adherence to the Code of Conduct in the Fujitsu Way among all Fujitsu Group employees through ongoing educational efforts.
- It clarifies the laws and regulations that relate to the Fujitsu Group’s business activities and establishes internal rules, education, and oversight systems to ensure compliance with them to promote compliance throughout the Group.
- When Senior Management or employee recognizes a serious compliance violation or when a situation may appear to present one relating to the performance of the responsibilities of Senior Management or an employee, the Risk Management & Compliance Committee makes such person immediately report such fact to the Committee via the normal chain of command.
- To ensure that compliance problems can be discovered quickly and handled appropriately through an alternative communications channel apart from the normal chain of command, it establishes and operates an internal reporting system that safeguards the reporter.
- The Risk Management & Compliance Committee immediately reports serious compliance violations or situations that may appear to present one to the Board of

Directors and any other relevant person or organization

(2) System to Ensure Proper Financial Reporting

a. The Company has, apart from the organization that prepares financial reports, an organization under the Chief Financial Officer responsible for establishing, operating, and evaluating internal control over Fujitsu Group financial reporting, to ensure the effectiveness and reliability of financial reports.

b. These organizations create rules for establishing, operating, and evaluating internal control over the unified accounting policies shared throughout the Fujitsu Group and financial reporting.

c. The organization responsible for establishing, operating, and evaluating internal control over financial reporting periodically reports to the Board of Directors and any other relevant person or organization the results of evaluations on the effectiveness of the internal control.

(3) System for Information Disclosure

The Company has a system to ensure timely and fair disclosure of company information.

(4) Internal Auditing System

a. The Company has an organization that conducts internal audits of business execution (the “Internal Auditing Organization”), and ensures its independence.

b. The Internal Auditing Organization establishes internal auditing rules and conducts audits based on those rules.

c. The Internal Auditing Organization liaises with internal auditing organizations in other Group companies to internally audit the Fujitsu Group as a whole.

d. The results of internal audits are periodically reported to the Board of Directors, Audit & Supervisory Board and other relevant person or organization of the Company and of other relevant Group companies.

5. System for Storing and Managing Information in Accordance with the Execution of Directors’ Responsibilities

a. Senior Management assigns people with the responsibility for storing and managing documents, and, in accordance with internal rules, appropriately stores and manages the following documents (including electronic records) related to the execution of Senior Management’ responsibilities, along with other important information.

- Minutes of Annual Shareholders’ Meetings and related materials.
- Minutes of Board of Directors Meetings and related materials
- Other minutes and related materials involved in important decision-making meetings.
- Approval documents and related materials involving Senior Management decisions.
- Other important documents that relate to the performance of Senior Management’s responsibilities.

b. To verify the status of business execution, the Directors and Audit & Supervisory Board Members have access at any time to the documents in paragraph “a” above, and people with the responsibility for storing and managing documents establish systems to enable Directors and Audit & Supervisory Board Members to access the documents at any time in response to requests for the documents by Directors or Audit & Supervisory Board Members.

6. System to Ensure the Properness of Fujitsu Group Operations

a. In addition to creating and instituting the above systems and rules for the Fujitsu Group, the Company establishes systems for receiving reports from the Senior Management of Group companies on matters relating to their business execution. Moreover, the Company guides, supports, and supervises the establishment of efficient, legal, and appropriate business execution systems of Group companies.

b. The Company institutes standard rules regarding the delegation of authority from the Representative Director and CEO to Group companies, such as the scope of decision-making authority and the decision-making process relating to important matters at Group companies.

c. The Representative Director and CEO determines what each Group company's divisional area of responsibility is, and the Corporate Executive Officer who is responsible for the business execution for each divisional area, verifies the implementation and compliance with paragraphs "a" and "b" above through each Group company's president, CEO, etc.

d. The Senior Management of the Company and other Group companies share information on Fujitsu Group management strategies and on issues relating to the achievement of Group goals through periodical meetings or other sufficient measures, and cooperate on Group business management.

7. System to Ensure the Properness of Audits by the Audit & Supervisory Board Members

(1) Ensuring the Independence of Audit & Supervisory Board Members

a. The Company has an Auditing Support Division with employees assigned to assist Audit & Supervisory Board Members in carrying out their duties. Appropriate employees with the ability and expertise required by the Audit & Supervisory Board Members are assigned to the Division.

b. In order to ensure the independence of the employees in the Auditing Support Division and to ensure that they will implement the instructions of Audit & Supervisory Board Members, Senior Management shall receive the consent of Audit & Supervisory Board Members on matters relating to the appointment, transfer and compensation of employees in the Auditing Support Division.

c. In principle, Senior Management does not assign employees in the Auditing Support Division to other divisions or duties.

In instances, however, where a need arises to give dual assignments to employees with specialized knowledge in response to requests from Audit & Supervisory Board Members, care is given to ensuring their independence in accordance with paragraph "b" above.

(2) Reporting System

a. Senior Management of Fujitsu and Group companies provides the Audit & Supervisory Board Members with the opportunity to attend important meetings.

b. In cases where risks arise that could affect management or financial results, or when there is an awareness of major compliance violations or the possibility of major compliance violations in connection with the execution of business activities, Senior Management of Fujitsu and Group companies immediately report them to the Audit & Supervisory Board Members.

c. Senior Management of Fujitsu and Group companies periodically report to the Audit & Supervisory Board Members on the status of business execution.

d. Senior management of Fujitsu and Group companies shall not subject senior management or employees to adverse treatment for the reason that reports were submitted in accordance with paragraphs "b" or "c" above.

(3) Ensuring the Effectiveness of Audits by the Audit & Supervisory Board Members

a. Senior Management of Fujitsu and Group companies periodically exchange information with the Audit & Supervisory Board Members.

b. With respect to expenses incurred by Audit & Supervisory Board Members in the execution of their duties in accordance with Article 388 of the Companies Act, Senior Management shall determine the methods for processing the requests stipulated in Article 388.

c. The Internal Auditing Organization periodically reports audit results to the Audit & Supervisory Board Members.

(2) Overview of the Status of Operation of the System to Ensure the Properness of Fujitsu Group Operations

1. Systems to Ensure that Directors Carry Out Their Responsibilities Efficiently

The Company has Corporate Executive Officers who share business execution authority with the Representative Director and CEO, and the Corporate Executive Officers carry out decision-making and business execution in accordance with their responsibilities.

The Management Council meets twice a month, in principle, and assists the Representative Director and CEO in decision-making. The Management Council consists of the minimum number of members, which include the CEO. By operating the Management Council as a body that enables timely discussion of and decision-making on any matters concerning business execution, the efficiency and the speed of management and the effectiveness of the meetings of the Management Council are enhanced. In addition, the Council is striving to further increase the speed of management by integrating the rules determining the scope of delegation of duties from Representative Directors to other executives and employees and other matters, and the rules on various approvals to make the approval standards accompany extensive delegation of duties.

2. Risk Management System and Compliance System

The Company positions the risk management system and the compliance system at the heart of the “Policy on the Internal Control System” and has established the Risk Management & Compliance Committee (the “Committee”), which supervises these systems globally and reports to the Board of Directors.

The Committee is chaired by the Representative Director and CEO and consists of Executive Directors. The Committee meets periodically and determines policies for preventing risks in business operations from arising and for countermeasures for losses caused by risks that have arisen.

Regarding risks in business operations, including compliance violations and information security issues, the Committee has established and operates a system that covers not only the Company but the Fujitsu Group and ensures reporting to the Committee in a timely manner when such risks arise. It also operates the internal reporting system.

Under the Committee, the Company has appointed a Chief Information Security Officer (CISO) in accordance with the Fujitsu Group Information Security Policy (Global Security Policy). Further, under the CISO, regional CISOs have been appointed to formulate and implement information security measures.

In the course of operating the systems described above, besides the case of risk occurrence, the Committee periodically reports the progress and results of its activities to the Board of Directors and is supervised.

Moreover, the Global Business Standards, which provide guidance on how individual executives and employees should apply the Fujitsu Way Code of Conduct in their actions and are available in 20 languages, are applied uniformly across the Fujitsu Group. In addition to establishment and operation of compliance-related rules applicable to the entire Fujitsu Group, the Company has established the Global Compliance Program and is implementing various education programs and awareness raising activities to maintain and improve the structure for legal compliance across the Fujitsu Group.

Regarding the internal reporting system, the Fujitsu Group has established points of contact inside and outside the Company, operated as the Compliance Line/Fujitsu Alert, to receive reports from all Group executives and employees and offer consultations. Group companies also have established and are operating their own points of contact for reporting and consultation. These systems enable early detection of unlawful action and remediation, and help strengthen fair management ensuring compliance with laws and regulations.

3. Risk Management System for Defects in Products and Services

The Company has, as a risk management system for defects in products and services, created company-wide quality management rules and assigned a Quality Management Representative, who is responsible for building and operating the quality management system, at each organization. In addition to this, in fiscal 2020, in response to the fact that a serious problem occurred in the social system, we reexamined our customer system and established an organization under the direct control of the CEO, in addition to the quality assurance process for each business division, in order to strengthen the company-wide quality assurance system. The Company is also working to introduce cross-sectional systems and make improvements to monitor the effectiveness of each process and share the knowledge and know-how among the divisions.

4. System to Ensure Proper Financial Reporting

Under the direction of the Committee, the organization responsible for internal control and internal audits has established the system, and in accordance with the rules established by the Company based on the principles of the “Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting” published by the Business Accounting Council, internal control over financial reporting throughout the Fujitsu Group is assessed. The activity status and assessment results are reported to the Chief Financial Officer and the Committee.

5. System to Ensure the Properness of Fujitsu Group Operations

The systems described above cover the Fujitsu Group.

Especially for risk management and compliance systems, Regional Risk Management & Compliance Committees have been established for individual Regions, which are geographical executive divisions of the Fujitsu Group worldwide. These regional committees are positioned under the Committee to function so that the entire Fujitsu Group is covered.

In addition, as a part of a system to ensure the properness of Fujitsu Group operations, the Company has established the Rules for Delegation of Authority that determine authority for decision-making on important matters of Fujitsu Group companies (excluding certain subsidiaries), the decision-making process and the reporting obligations. The Company has its Group companies comply with the Rules. In this way, the Company has put in place systems for decision-making on and reporting of important matters of the Group.

The status of operation of the internal control system centering on the above is periodically reported to the Board of Directors.

Notes to Consolidated Financial Statements

[Notes to Significant Items Concerning Preparation of Consolidated Financial Statements and Changes in Scope of Consolidation or Application of Equity Method]

1. The Company prepares its consolidated financial statements in accordance with the Regulation on Corporate Accounting (Ministry of Justice Order No. 13 of February 7, 2006, and Amendment of Ministry of Justice Order No. 1 of January 29, 2021). The consolidated financial statements are prepared in conformity with the International Financial Reporting Standards (IFRS) as per Article 120, paragraph (1) of the Regulation on Corporate Accounting. Following the latter part of the paragraph, some disclosure items required under IFRS are omitted in these notes.

2. Scope of consolidation

   This consolidated financial report is prepared with consolidation of 364 major subsidiaries. The scope of consolidation for this fiscal year has been changed in that 8 companies were added and 35 companies were subtracted. Major additions and subtractions are described below. Names of the major subsidiaries are omitted in this note because they are noted in "1. Business Overview (4) The Fujitsu Group" of the Business Report.

   Newly consolidated subsidiaries as a result of acquisition or formation: .... 8 companies
   Subtracted due to liquidation or sale: .... 31 companies
   Subtracted due to merger: .... 4 companies

3. Application of the equity method

(1) The number and names of major associates to which the equity method is applied

   Investments in associates are accounted for using the equity method and the number of companies to which the method applies is 20.
   Major associates are Fujitsu Client Computing Ltd., Fujitsu General Ltd., Fujitsu Leasing Co., Ltd., and Socionext Inc. The scope of application of the equity method for this fiscal year has been changed in that 5 companies were subtracted.

(2) The Company does not treat JECC Corporation as an associate although the Company holds more than 20% of the outstanding shares of JECC Corporation. This is because JECC Corporation is a special corporation operated under the joint investments of 6 companies, including Japanese computer manufacturers, to develop the information processing industry in Japan.

4. Significant accounting policies

(1) Valuation standards and methods for assets

(a) Financial assets

(i) Non-derivative financial assets

Financial assets are classified as either financial assets measured at amortized cost or as financial assets measured at fair value through either profit or loss or other comprehensive income. They are classified upon initial recognition. Financial assets are measured at fair value plus transaction costs unless these are classified as financial assets measured at fair value through profit or loss.

Financial assets measured at amortized cost

Financial assets are classified as financial assets measured at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The financial assets are subsequently measured at amortized cost using the effective interest method less any impairment losses, and amortization charge for each period is recognized as financial income in profit or loss.

Financial assets measured at fair value

Financial assets are classified as financial assets measured at fair value unless these are measured at amortized cost. Equity instruments measured at fair value are individually designated as being measured either through profit or loss or through other comprehensive income, except for those that are held for sale, which are measured through profit or loss, and this designation must be applied continuously.

The financial assets are subsequently measured at fair value at the end of the reporting period, and the gain or loss is recognized in profit or loss or in other comprehensive income according to their classification. When a financial asset measured at fair value through other comprehensive income is derecognized, the cumulative gain or loss previously recognized through other comprehensive income is reclassified to retained earnings.

(ii) Derivative financial assets

Derivatives are initially and subsequently measured at fair value. When a derivative is not designated as a hedging instrument, any changes in the fair value of the derivative are recognized in profit or loss. For cash flow hedges, the effective portion of changes in fair value of a derivative is recognized in other comprehensive income, whereas any ineffective portion of the changes is recognized in profit or loss.

(b) Non-financial assets

(i) Inventories

Inventories are measured at cost. However, should the net realizable value ("NRV") at the reporting date fall below the cost, inventories are measured at the NRV, with the difference in value between the cost and the NRV, in principle, booked as cost of sales.

The cost of inventories comprises costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The cost of inventories of items that are interchangeable is determined by the moving average cost method or the periodic average method, whereas the cost of inventories of items that are not interchangeable is determined by the specific identification method.

NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated direct selling expenses. Inventories that are slow moving and inventories held for long-term maintenance contracts are measured at the NRV that reflects future demand and market trends.

(ii) Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

(iii) Goodwill

Goodwill acquired in a business combination is measured at cost less accumulated impairment losses.

(iv) Intangible assets

Intangible assets are measured at cost less accumulated amortization and impairment losses.

(v) Impairment

If there is an indication of impairment for non-financial assets other than inventories, the asset's recoverable amount is estimated and the asset is tested for impairment. Goodwill and intangible assets with indefinite useful lives are tested for impairment both annually and when there is an indication of impairment. An impairment loss is recognized if the recoverable amount of an asset or cash-generating unit is less than its carrying amount.

(2) Depreciation method for assets

(a) Property, plant and equipment (excluding right-of-use assets)

The depreciable amount (cost less residual value) for items of property, plant and equipment is allocated on a systematic basis over its useful life. The Group in principle adopts the straight-line method of depreciation reflecting the pattern of consumption (matching of costs with revenue) of the future economic benefits from the asset.

Depreciation of an asset begins when it is available for use and ceases at the earlier of the date that the asset is either classified as held for sale or is derecognized.

The estimated useful lives for significant categories of property, plant and equipment are as follows:

- Buildings and structures.......................... 7 to 50 years
- Machinery and equipment......................... 3 to 7 years
- Tools, fixtures and fittings....................... 2 to 10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if necessary.

(b) Intangible assets (excluding right-of-use assets)

Software held for sale is amortized based on the expected sales volumes and allocated equally based on the remaining useful life. Software for internal use and other intangible assets with finite useful lives are amortized over their respective useful lives using, in principle, the straight-line method to reflect the pattern of consumption of the expected future benefits from the assets.

The estimated useful lives are as follows:

- Software held for sale .... 3 years
- Software for internal use .... within 5 years

Amortization methods, useful lives and residual values are reviewed and adjusted if necessary.

(c) Right-of-use assets

Right-of-use assets included in property, plant and equipment and in intangible assets, which represent the right of a lessee to use the underlying asset for the lease term, are depreciated on a straight-line basis from the commencement date to the earlier of the end of useful life of the right-of-use asset or the end of the lease term.

(3) Recognition criteria for provisions

A provision is recognized if, as result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Provisions are discounted to present value using a pre-tax rate that reflects the time value of money and risks specific to the liability.

(4) Retirement benefit plan

Defined benefit plan

The Group's net defined benefit liability (asset) is measured at the present value of defined benefit obligation less the fair value of plan assets. The defined benefit liability in respect of each defined benefit plan is calculated separately by estimating the amount of future benefits employees have earned in return for services rendered to date and discounted to present value. The calculation is performed in each reporting period by qualified actuaries using the projected unit credit method. The discount rate used is the yield at the reporting date on high-quality corporate bonds that have maturity dates approximate to the terms of the Group's obligations that are denominated in the currency in which the benefits are expected to be paid.

Remeasurements of the net defined benefit liability (asset) are recognized, after adjusting for tax effects, under other comprehensive income and immediately reflected in retained earnings.

Defined contribution plan

Contributions to defined contribution plans are recognized as employee costs in profit or loss in the period when the service is provided by the employee.

The risk-sharing corporate pension plan is classified as a defined contribution plan because the Group substantively has no further obligation for additional contributions.

(5) Revenue

Supply of services is usually a performance obligation satisfied over time. If the progress toward complete satisfaction of the performance obligation can be reasonably measured, revenue from a service is recognized by measuring the progress. If the progress cannot be reasonably measured, revenue from a service is recognized only to the extent of the costs incurred until such time that the outcome of the performance obligation can be reasonably measured. Revenue under service contracts in which the Company undertakes an obligation to provide deliverables, such as turnkey contracts (systems integration etc.), is in principle recognized by the method of measuring the progress based on the costs incurred to date as a percentage of the total estimated project costs. This is because, in such service contracts, costs are incurred by the Group during the performance of the contracts, and as tasks progress, services tailored for the customer will be near completion, a state where the services are available for the customer. Regarding ongoing service contracts (outsourcing service, maintenance service, etc.), services requested by the customer are provided over the contractual period. To promptly respond to customers' requests, the Group is required to always stand ready, and thus, such services are provided over a period including standby time. For this reason, revenue is recognized by measuring the progress based on the period ratio of services already provided over the whole service period.

Supply of standalone hardware products is a performance obligation satisfied at a point in time because it is usually not a performance obligation satisfied over time. In such case, at the point when the control of the asset is transferred to the customer, the amount of the transaction price allocated in proportion to the performance obligation is recognized as revenue. Revenue on hardware requiring significant services including installation, such as servers and network products, is in principle recognized upon the customer's acceptance. Revenue on standard hardware, such as personal computers and electronic devices, is recognized in principle upon delivery, where the control of the hardware is transferred to the customer.

For software, the licenses of which constitute the principal licenses of the Group, usually, after supply of a license, the Group is not obliged to undertake any activities to change the form or the functionality of the intellectual property or activities to maintain the value of the intellectual property over the license period, and therefore, revenue is recognized at a point in time as a right to use the intellectual property.

Contracts with multiple deliverables represent one contract that consists of several kinds of goods or services, such as supply of hardware and related services or supply of software sales and support services. Goods or services promised to a customer are identified as distinct performance obligation if the customer can benefit from the goods or service either on its own or together with other resources that are readily available to the customer; and the Group’s promise to transfer the goods or service to the customer is separately identifiable from other promises in the contract.

(6) Other significant principles for the preparation of consolidated financial statements

(a) Consumption taxes

The tax exclusion method is applied in the preparation of consolidated financial statements.

(b) Application of the consolidated tax return system

The consolidated tax return system is applied in the preparation of consolidated financial statements.

[Notes to Accounting Estimates]

Items recorded in the consolidated financial statements with accounting estimates for this fiscal year and, that can have a significant effect on the consolidated financial statements for the next fiscal year are as follows.

1. Revenue Recognition

Contract assets amounting to 101,941 million yen are recorded on the consolidated statement of financial position. Contract assets are included within other current assets.

Revenue and costs under service contracts in which the Company undertakes an obligation to provide deliverables, such as turnkey contracts, are recognized by reference to the stage of completion when the outcome of the contract can be reliably estimated. Contract assets are primarily unbilled trade receivables related to revenue and are transferred to trade receivables when the customer accept the deliverables.

The Group, in principle, calculates the progress toward completion with cost incurred to date as a percentage of total estimated project costs Revenue and costs can be revised due to reasons such as additional cost incurred, because revenue and cost depend on the estimates of total project revenue and costs as well as the measurement of the progress.

2. Property, plant and equipment

Property, plant and equipment amounting to 569,593 million yen are recorded on the consolidated statement of financial position.

Depreciation of property, plant and equipment is calculated primarily using the straight-line method, based on the estimated useful life that reflects the period in which the asset’s future economic benefits are expected to be consumed. An impairment loss could be recognized if there is a decrease in the expected future cash flows from the asset as a result of underutilization of production facilities or a decrease in the capacity utilization rate associated with rapid changes in the business environment as well as business realignment.

3. Goodwill

Goodwill amounting to 41,239 million yen is recorded on the consolidated statement of financial position. Goodwill is tested for impairment both annually and when there is an indication of impairment. An impairment loss is recognized if the recoverable amount of cash-generating unit (CGU) to which goodwill is allocated is less than its carrying amount.

The recoverable amounts of a CGU are, in most cases, measured at value in use. The value in use of a CGU is calculated using the assumptions such as future cash flows calculated based on the business plans, the inflation rate, long-term average growth rate, and discount rate based on the weighted average cost of capital. These assumptions represent management's best estimates and judgment. Impairment losses could be recognized when the assumptions are revised as a result of a change in the business environment or other changes in the circumstances.

4. Intangible assets

Intangible assets amounting to 120,459 million yen are recorded on the consolidated statement of financial position. Computer Software held for sale is amortized by a method based on projected sales volume over the estimated useful life. Software for internal use is amortized on a straight-line basis, in principle, to reflect the pattern in which asset's future economic benefits are expected to be consumed by the Group. Impairment losses could be recognized if actual sales volumes fail to meet initial projected volumes due to changes in the business environment, and there is a risk that amortization expenses for the reporting period may increase if the actual useful life is less than the original estimate.

5. Financial assets measured at fair value

Other investments amounting to 176,891 million yen are recorded on the consolidated statement of financial position. A financial asset measured at fair value is measured at fair value based on the market price or other inputs at the reporting date. Changes in the fair value are recognized as an increase or a decrease in profit or loss or in other comprehensive income. When a quoted price in an active market is not available, the fair value is estimated based on discounted future cash flow or other appropriate valuation method, and unobservable inputs are used. Unobservable inputs could be affected by changes in uncertain economic conditions in the future. When they require revision, profit or loss or other comprehensive income could increase or decrease.

6. Deferred tax assets

   Deferred tax assets amounting to 76,661 million yen are recorded on the consolidated statement of financial position. Based on the taxable profit calculated using future business plans, a deferred tax asset is recognized for carryforwards of unused tax losses, unused tax credits, and deductible temporary differences to the extent, that it is probable that they can be utilized. If no sufficient taxable profit is considered to be available to allow the benefit of part or all of that deferred tax asset due to changes in business environment, the amount of deferred tax assets may be reduced and additional expenses may incur.

7. Provisions

   Provisions for restructuring amounting to 19,580 million yen are recorded on the consolidated statement of financial position. A provision is recognized for the estimated costs of restructuring such as personnel rationalization and disposal of business. The costs are estimated based on the announced plan and could fluctuate when the plan is reviewed as a result of a rapid change in the business environment.

   Provisions for contract losses amounting to 20,193 million yen are recorded on the consolidated statement of financial position. The Group records provisions for losses on service contracts in which the Company undertakes an obligation to provide deliverables, such as turnkey contracts, if it is probable that the total estimated project costs exceed the total estimated project revenues and the amount of losses can be reliably measured. The Group may revise the originally estimated total project costs due to additional costs incurred, etc.

8. Defined benefit plan

   Retirement benefit assets amounting to 110,797 million yen and retirement benefit liabilities amounting to 149,994 million yen are recorded on the consolidated statement of financial position. Retirement benefit asset is included within other non-current assets.

   The Group has both defined benefit and defined contribution retirement benefit plans. Net defined benefit liability could be worsened if the fair value of plan assets decreases as a result of a deterioration of returns on plan assets or if a defined benefit liability increases as a result of changes in assumptions (such as discount rate, turnover ratio, and mortality ratio) for determining the defined benefit liability, which could lead to a reduction in equity. If changes are made to retirement benefit plans, there could be a significant impact on profit or loss.

(Additional Information)

Although it is unclear when the COVID-19 pandemic will end, the Company assumes that global economic activities will recover gradually from FY2021 onwards. At the present moment, the Company believes that COVID-19 is unlikely to have a significant impact on Group's business performance.

[Notes to the Consolidated Statement of Financial Position]

1. Assets pledged as collateral and liabilities associated with collateral (Million yen)

   (1) Assets pledged as collateral

   Balance of pledged assets 581

(Pledged assets)	Cash and cash equivalents	65
	Intangible assets	516

   (2) Liabilities associated with collateral

   Balance of secured debt 1,975

(Secured debts)	Other payables	14
	Provisions	1,961

2. Bad debt allowance presented net with the associated assets

   (1) Trade receivables 3,781

   (2) Other non-current assets 1,136

3. Accumulated depreciation of property, plant and equipment 1,348,958
   (including accumulated impairment losses)

4. Liabilities for guarantee contracts

   Balance of liabilities for guarantee contracts 46

(Guaranteed debts)	Housing loans of employees	46

[Notes to the Consolidated Statement of Profit or Loss]

1. Other income

   Income amounting to 25,447 million yen is recorded mainly as a result that the Company transferred its shares in the new company, which succeed the mobile phone retail store business of Fujitsu Personal System Limited, to T-Gaia Corporation.

[Notes to the Consolidated Statement of Changes in Equity]

1. Number of shares issued at the end of this fiscal year

   Common stock .... 207,001,821 shares

2. Dividends distributed from retained earnings during this fiscal year

Resolution	Type of stock	Total amount of dividends (Million yen)	Dividend per share (Yen)	Record date	Effective date
Board of Directors Meeting on May 28, 2020	Common stock	20,024	100	March 31, 2020	June 1, 2020

Board of Directors Meeting on October 27, 2020	Common stock	20,028	100	September 30, 2020	November 25, 2020

3. Dividends to be distributed from retained earnings after the end of this fiscal year

Resolution	Type of stock	Total amount of dividends (Million yen)	Dividend resource	Dividend per share (Yen)	Record date	Effective date
Board of Directors Meeting on May 27, 2021	Common stock	19,899	Retained earnings	100	March 31, 2021	June 7, 2021

[Notes to Financial Instruments]

1. Policies on Financial Instruments

The Group carries out its financial activities in accordance with the "Fujitsu Group Treasury Policy" and primarily obtains funds through bank borrowing and the issuance of corporate bonds based on funding requirements of its business activities. After the adequate liquidity for its business activities has been ensured, the Group invests temporary excess funds in financial assets with low risk. The Group utilizes derivative transactions only for hedging purposes and not for speculative or dealing purposes.

"Trade receivables" and contract assets are exposed to customer credit risk. Additionally, some trade receivables are denominated in foreign currencies in conjunction with the export of products and exposed to exchange rate fluctuation risk. Other financial assets are comprised primarily of the certificates of deposit held for fund management and the shares issued by customers or other parties for the purpose of maintaining and strengthening the business relationship. Shares are exposed to market price fluctuation risk and financial risk of the Company invested. The Group also loans to business partners, etc.

"Trade payables" and other payables are generally payable within one year. Some trade payables are denominated in foreign currencies in conjunction with the import of components and exposed to exchange rate fluctuation risk. Corporate bonds and borrowings are mainly for the purpose of obtaining working capital and preparing capital expenditures. Because some of these have floating interest rates, they are exposed to interest rate fluctuation risk.

(a) Credit risk

The Group strives to mitigate collection risk in accordance with credit management standards and procedures in selling goods and providing services. For trade receivables and contract assets, a unit independent from the sales units assesses the credit standing of customers, and for trade receivables, it manages collection dates and the balance outstanding for each customer to ensure smooth collection. Regarding the loan receivable, the Group periodically assesses debtor's financial condition and reviews the terms of the loan if needed.

The counterparties to derivative transactions are selected upon assessment of their credit risk.

The amounts of the largest credit risks as of the reporting date are indicated in the carrying amount of the financial assets that are exposed to credit risk.

(b) Liquidity Risk

The Group prepares a cash flow projection and monitors its funding requirements. The Group also strives to diversify its sources of financing in order to reduce liquidity risk.

(c) Market risk

The Group utilizes exchange forward contracts in respect to trade receivables and trade payables denominated in foreign currencies to mitigate exchange rate fluctuation risk monitored by each currency, currency swap contracts to mitigate the foreign currency exchange rate fluctuation risk of cash flow denominated in foreign currency, and interest swap contracts in respect to corporate bonds and borrowings to mitigate interest rate fluctuation risk.

For the shares issued by customers or other parties, the Group regularly monitors the fair value and the financial condition of the issuer and continuously reviews the investment, taking into account its relationship with the counterparty.

The Group enters into derivative transactions based on the Group policy. Following the policies approved by the Chief Financial Officer (CFO), the finance division undertakes particular transactions, records them and confirms the balance of transactions with counterparties. In addition, the finance division reports on the content of transactions undertaken and changes in the transaction balance to the CFO and the head of the accounting division.

2. Fair value of financial instruments

The carrying amount and fair value of financial instruments as of March 31, 2021 are as follows:

(Million yen)

	Carrying amount	Fair value
Assets		
Financial assets measured at amortized cost	3,045	3,039
Financial assets measured at fair value through profit or loss	31,182	31,182
Financial assets measured at fair value through other comprehensive income	151,849	151,849
Total	186,076	186,070
Liabilities		
Financial liabilities measured at fair value through profit or loss	1,401	1,401
Financial liabilities measured at amortized cost	37,881	37,994
Total	39,282	39,395

Notes:

1. Derivatives are presented net.
2. Measurement of fair value of financial instruments:
   A quoted price in an active market is used in the measurement of fair value of a financial instrument if the price is available. The discounted cash flow method or other appropriate method is used for the measurement of a financial instrument of which quoted price in an active market is not available.
3. “Lease liabilities” is not included in the “Fair value of financial instruments.”
4. The disclosure for the current portion of financial assets and liabilities measured at amortized cost is omitted in this note because the carrying amount is a reasonable approximation of its fair value.

[Notes to Per Share Data]

Equity attributable to owners of the parent per share.......................7,287.15 yen

Basic earnings per share..1,013.78 yen

[Notes to Significant Events after the Reporting Period]

Purchase of the Company's own shares

At the Board of Directors' Meeting held on April 28, 2021, the Company resolved matters related to purchase of treasury shares pursuant to the provisions of Article 459, Paragraph (1) of the Companies Act.

(1) Reason for purchase of treasury shares

To enhance shareholder returns and promote capital efficiency by comprehensively considering the future business environment and other factors based on improved financial conditions for this fiscal year and the next fiscal year, such as increased profits and cash flows

(2) Details of matters concerning the Purchase

• Type of shares to be repurchased:	Common stock of the Company
• Total number of shares to be purchased:	Up to 4,000,000 shares (Ratio to the total number of issued shares (excluding treasury shares): 2.01%)
• Aggregate purchase value:	Up to 50,000 million yen
• Purchase period:	From May 6, 2021 to March 31, 2022
• Purchase method:	Purchase by means of market trades on the Tokyo Stock Exchange (including purchases by means of market trade based on a discretionary investment contract with securities firms and through share repurchases outside of trading hours (ToSTNeT-3))

Notes to Unconsolidated Financial Statements

[Notes to Significant Accounting Policies]

1. The Company prepares for financial statements in accordance with the Regulation on Corporate Accounting (Ministry of Justice Order No. 13 of February 7, 2006 and Amendment of Ministry of Justice Order No. 1 of January 29, 2021).

2. Valuation standards and methods of assets

(1) Marketable securities

Shares in subsidiaries and affiliates .... Moving average cost method

Available-for-sale securities

- With market value ....Market value method based on the market price on the closing date

Treatment of the difference between the acquisition cost and the market value ....Booked directly to net assets

Calculation of costs of securities sold .... Moving average cost method

- Without market value ....Moving average cost method

(2) Derivatives

Derivatives .... Market value method

(3) Inventories

Inventories held for sale in normal operating cycle

- Finished goods ....Moving average cost method
- Work in process..................................Cost method determined by the specific identification method or the periodic average method
- Raw materials.....................................Moving average cost method

Costs of inventories with lower profitability are written down.

3. Depreciation and amortization of fixed assets

(1) Tangible fixed assets except for leased assets

Depreciation of tangible fixed assets except for leased assets is calculated by the straight-line method.

The useful lives, reflected by the likely period over which the value of asset can be realized under actual business conditions, are estimated as stated below:

- Buildings and structures........................7-50 years
- Machinery ....3-7 years
- Equipment ....2-10 years

(2) Intangible fixed assets except for leased assets

Software

- For sale .... Method based on projected sales volume over the estimated life of the product (3 years)
- For internal use .... Straight-line method based on the estimated useful life of the software (within 5 years)

Others .... Straight-line method

(3) Leased assets

Depreciation and amortization of finance leases that do not transfer ownership of the leased property to the lessee are calculated by the straight-line method over the lease period deemed as useful lives.

4. Accounting policies for provisions

(1) Allowance for doubtful accounts

To prepare for loss on doubtful accounts such as trade receivables and loans, an estimated irrecoverable amount is provided on the basis of the actual loan loss ratio for unspecified receivables and on the basis of individual collectability for specified receivables such as loans with default possibility.

(2) Provision for construction contract losses

The estimated amount of future losses relating to customized software and construction contracts whose profitability potentially has deteriorated is provided at the end of this fiscal year.

(3) Provision for product warranties

To prepare for the disbursement of expenses for the free repair and exchange of products during the warranty period based on contracts, the estimated repair and exchange expenses based on the historical data are recorded when the product is sold.

(4) Provision for loss on business of subsidiaries and affiliates

To prepare for possible losses relating to business of subsidiaries and affiliates, an estimated amount of loss is provided, taking into account the financial conditions of individual subsidiaries and affiliates.

(5) Provision for bonuses to board members

To prepare for bonuses to board members, an estimated amount is provided.

(6) Provision for restructuring charges

To prepare for restructuring charges on disposal of business, the expected losses are provided.

(7) Defined benefit liability

To prepare for disbursement of employees' retirement benefits under the defined benefit plan, an amount based on the defined benefit obligation and plan assets at the end of this fiscal year is recognized.

Method of attributing benefit to periods of service

Benefit is attributed to periods of service under the plan's benefit formula.

Method of attributing actuarial gains and losses and past service cost

- Method of attributing past service cost

…………Straight-line method (10 years)

- Method of attributing actuarial gains and losses

…………An amount on a straight-line basis (over the expected average remaining service period of employees) is recognized from the year after the actuarial loss has arisen.

(8) Provision for loss on repurchase of computers

To prepare for compensation for losses when computers sold with a repurchase agreement are repurchased, an amount for the losses expected to be incurred at the time of the repurchase is provided based on the historical data.

(9) Provision for share-based payments

To prepare for share-based payment to board members and Corporate Executive Officers, an estimated amount is provided.

(10) Provision for environmental measures

To prepare for environmental measures such as disposal of PCB (polychlorobiphenyl) embedded products and purification of soil, the expected losses are provided.

5. Revenues and expenses recognition

Revenue recognition of sales of customized software and others

For contracts in progress as of the end of this fiscal year for which the outcome can be estimated reliably, the percentage-of-completion method has been applied, and for all others the completed-contract method has been applied. When applying the percentage-of-completion method, the degree of completion at the end of this fiscal year was determined by the estimation based on actual costs and total contract costs.

6. Other significant items concerning the preparation of unconsolidated financial statements
   (1) Hedge accounting
   Deferred hedge accounting is adopted.
   (2) Defined benefit liability
   Accounting of unrecognized actuarial gains and losses and past service costs under the defined benefit plan for the unconsolidated financial statements is different from that for the consolidated financial statements.
   (3) Consumption taxes
   The tax exclusion method is applied.
   (4) Application of the consolidated tax return system
   The consolidated tax return system is applied.
   (5) Application of tax effect accounting associated with transition from the consolidated tax return system to the group tax sharing system
   The "Act for Partial Amendment of the Income Tax Act, etc." (Act No. 8 of 2020) was enacted in March 2020, which includes the establishment of the group tax sharing system and the revision to the unconsolidated tax return system in line with the transition to the group tax sharing system. The amounts of deferred tax assets and deferred tax liabilities of the Company are based on the provisions of the tax law before the amendment in accordance with the treatment specified in Clause 3 of the "Practical Solution on the Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System" (PITF No. 39, March 31, 2020).

[Notes on Changes in the Method of Presentation]

1. "Reversal of provision for loss on business of subsidiaries and associates" under "Other income," which was presented separately for the previous fiscal year, is included in "Other finance income" for this fiscal year, because its quantitative materiality decreased.
2. Effective from this fiscal year, the Company has adopted the "Accounting Standard for Disclosure of Accounting Estimates" (ASBJ Statement No. 31, March 31, 2020). Accordingly, notes to accounting estimates are presented.

[Notes to Accounting Estimates]

Items recorded in the unconsolidated financial statements with accounting estimates for this fiscal year and, that can significantly affect the unconsolidated financial statements for the next fiscal year are as follows.

1. Revenue Recognition

   Accounts receivables amounting to 81,034 million yen that are recognized using percentage-of-completion method are recorded on the unconsolidated balance sheet and are included in "Accounts receivable, trade."

   Please refer to "Notes to Accounting Estimates 1. Revenue Recognition" in "Notes to Consolidated Financial Statements."

2. Property, plant and equipment

   Property, plant and equipment amounting to 191,092 million yen are recorded on the unconsolidated balance sheet.

   Please refer to "Notes to Accounting Estimates 2. Property, plant and equipment" in "Notes to Consolidated Financial Statements."

3. Intangible assets

   Intangible assets amounting to 67,227 million yen are recorded on the unconsolidated balance sheet.

   Please refer to "Notes to Accounting Estimates 4. Intangible assets" in "Notes to Consolidated Financial Statements."

4. Deferred tax assets

   Deferred tax assets amounting to 22,578 million yen are recorded on the unconsolidated balance sheet.

   Please refer to "Notes to Accounting Estimates 6. Deferred tax assets" in "Notes to Consolidated Financial Statements."

5. Provisions

   Provisions for construction contract losses amounting to 16,001 million yen are recorded on the unconsolidated balance sheet.

   Please refer to "Notes to Accounting Estimates 7. Provisions" in "Notes to Consolidated Financial Statements."

   Provisions for loss on business of subsidiaries and associates amounting to 115,208 million yen are recorded on the unconsolidated balance sheet. The Company recognizes an estimated amount of loss as provision, taking into account the financial conditions of individual subsidiaries and associates. Expected losses can be revised for reasons such as changes in the financial conditions of individual subsidiaries and associates and future revisions of business plans.

6. Defined benefit plan

Prepaid pension costs amounting to 23,979 million yen are recorded on the unconsolidated balance sheet.

The Company has both defined benefit and defined contribution retirement benefit plans. Additional costs may incur if the fair value of plan assets decreases as a result of a deterioration of returns on plan assets or if a defined benefit obligation increases as a result of changes in assumptions (such as discount rate, turnover ratio, and mortality ratio) for determining the defined benefit obligation.

(Additional Information)

Although it is unclear when the COVID-19 pandemic will end, the Company assumes that global economic activities will recover gradually from FY2021 onwards. At the present moment, the Company believes that COVID-19 is unlikely to have a significant impact on Company's business performance.

[Notes to the Unconsolidated Balance Sheet]

1. Accumulated depreciation of tangible fixed assets (Million yen)

Buildings	218,697
Structures	15,129
Machinery	15,414
Vehicles and delivery equipment	42
Equipment	169,131
Total	418,415

2. Contingent liabilities for guarantee contracts

Balance of contingent liabilities for guarantee contracts		58
(Main guaranteed debt)	Housing loans of employees	42

3. Monetary claims and obligations to subsidiaries and affiliates (excluding those separately disclosed)

Short-term monetary claims	380,291
Long-term monetary claims	628
Short-term monetary obligations	281,995
Long-term monetary obligations	2,106

[Notes to the Unconsolidated Income Statements]

1. Transactions with subsidiaries and affiliates

Business transactions (Million yen)

Sales 525,996
Purchases.. 966,983
Transactions other than business transactions 55,332

2. Gain on sales of subsidiaries' and affiliates' stocks

The gain is recognized mainly as a result that the Company transferred its shares in the new company, which succeed the mobile phone retail store business of Fujitsu Personal System Limited, to T-Gaia Corporation.

[Notes to the Unconsolidated Statements of Changes in Net Assets]

1. Number of treasury stock at the end of this fiscal year

Common stock ....8,002,339 shares

[Notes to the Unconsolidated Tax Effect Accounting]

Deferred tax assets are recognized primarily due to valuation loss on subsidiaries' and affiliates' stock, provision for loss on business of subsidiaries and associates, and accrued bonuses. Deferred tax liabilities are recognized primarily due to unrealized gains on securities. Valuation allowance is deducted from deferred tax assets pertaining to loss on valuation of shares of subsidiaries' and affiliates' stock and other items for which scheduling of the timing of the reversal is impossible.

[Notes to Transactions with Related Parties]

Subsidiaries and Affiliates

[Notes to Significant Events after the Reporting Period]

1. Business combination
   (1) Overview of the business combination
      (a) Names of the entities and description of the business involved in the business combination
         (i) Names of the entities involved in the business combination
         The Company and the Company's consolidated subsidiaries, Fujitsu Laboratories Ltd. ("Laboratories"), Fujitsu Broad Solution & Consulting Inc., Fujitsu Social Science Laboratory Limited, Fujitsu Software Technologies Limited, Fujitsu Advanced Engineering Limited, Fujitsu Public Solutions Limited, Fujitsu Applications Limited, Fujitsu Systems Web Technology Limited, Fujitsu Kyushu Systems Limited, Fujitsu Hokuriku Systems Limited, Fujitsu Systems Applications & Support Limited, and Okinawa Fujitsu Systems Engineering Limited (hereafter "11 SI group companies in Japan")
         (ii) Description of the business
         Laboratories: Research and development of information systems, communication systems, and electronic devices
         11 SI group companies in Japan: System integration, and design, development, sale, maintenance, support of software
      (b) Date of the business combination
      April 1, 2021
      (c) Legal form of the business combination
      Absorption-type merger with the Company being the surviving company and Laboratories and 11 SI group companies in Japan being the absorbed companies
      (d) Name of the entity after combination
      Fujitsu Limited
      (e) Overview of the business combination including its purpose
         (i) Laboratories
         To accelerate the transformation from an IT company into a DX company by driving innovation through the research and development of advanced technologies, Laboratories will be fully integrated into the Company. The move offers the Company the potential to further strengthen its technological strategic planning function by consolidating research and analysis functions

scattered throughout the company. By cementing the alignment with the management team, the Company will promote further research and development with rapid decision-making and judgments in line with its overall direction and strategy.

(ii) 11 SI group companies in Japan

To strengthen issue resolution capabilities in Japan, the Company has started new initiatives centered on Fujitsu Japan Limited in its domestic business. At the same time, the Company has been working on transformation of global delivery functions (design, development, deployment, operation, and maintenance of solution services) to contribute to greater stability for customer businesses. In order to further accelerate those efforts, 11 SI group companies in Japan have been absorbed and merged into the Company. In relation with the above, 4 SI group companies in Japan have been integrated into Fujitsu Japan Limited.

(2) Overview of the accounting treatment implemented

This merger was treated as a business combination of entities under common control in accordance with the “Accounting Standard for Business Combinations” and the “Implementation Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures.” Associated with this merger, a gain on extinguishment of tie-in shares amounting to approximately 36.0 billion yen is expected to be recognized.

2. Business divestiture

(1) Overview the business divestiture

(a) Name of the succeeding company and description of the business involved in the business divestiture

(i) Name

Fujitsu Japan Limited (“Fujitsu Japan”)

(ii) Description of the business

The solution business and service and product related business for second-tier, medium-sized and small companies in the private sector, local governments, medical and educational institutions, local agriculture, forestry and fisheries organizations, and local media

(b) Date of the business divestiture

April 1, 2021

(c) Main reason for the business divestiture

Under this new company formation, Fujitsu Japan aims to contribute to the attainment of Society 5.0, an ultra-smart and sustainable society, while delivering business continuity and measures to resolve urgent issues confronting society amidst the emergence of the challenges of the “New Normal” in the wake of the COVID-19 pandemic. Through consolidating the business into Fujitsu Japan and gathering the business divisions responsible for customers from all over the country within Fujitsu Japan, Fujitsu aims to accelerate the advancement of ICT for its domestic customers, the resolution of various local social issues, and the creation of new business.

(d) Overview of the divestiture including legal form

Absorption-type demerger with the Company being the split company and Fujitsu Japan being the succeeding company

(2) Overview the accounting treatment implemented

This divestiture was treated as a business divestiture of entities under common control in accordance with the “Accounting Standard for Business Combinations” and “Accounting Standard for Business Divestitures,” and the “Implementation Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures.”

(3) Approximate amount of sales of the business to be split included in the unconsolidated income statements for this fiscal year

Sales: approximately 210.0 billion yen

3. Purchase of treasury shares

Notes are omitted as the same information is provided in “Notes to Significant Events after the Reporting Period” in “Notes to Consolidated Financial Statements.”
