

Quick, reliable and secure data disposal.

Mag EraSURE™

Professional Value

Erase data from magnetically recorded media.

- ▶ Purge magnetically recorded data from hard disk drives and other magnetic media
- ▶ Erases hard disk drives with perpendicular recording media up to 5000 Oe and longitudinal recording up to 5300 Oe¹
- ▶ Durable permanent magnet technology for long product life
- ▶ Desktop size is convenient for use in the office or field
- ▶ Secure data disposal for financial, medical and legal markets

FUJITSU

THE POSSIBILITIES ARE INFINITE

Mag EraSURE

Professional Value

The Fujitsu Mag EraSURE™ Professional Value commercial degausser is an ideal solution for industries requiring fast and secure erasing of hard disk drives, removable disks and backup tapes that contain confidential or highly sensitive information. The Mag EraSURE family of products leverages leading-edge technology, using a rare earth permanent magnet to degauss all magnetically recorded data.

The Fujitsu Mag EraSURE erases media by passing it through a large magnetic field. Once exposed to the permanent magnet in the device, data becomes unrecoverable by commercial means¹. In addition to purging recorded information on the unit, including servo and calibration data, the degausser also destroys the read/write heads.

Featuring one-touch operation, the Fujitsu Mag EraSURE is extremely user friendly. Simply insert the drive into the degausser, push the button, and the device handles the rest. Also, with its convenient desktop size, Mag EraSURE is perfectly suited for operation in the field or office. The device is an essential tool for a wide variety of industries, particularly in the security, financial, legal, medical and data center markets, where large amounts of highly confidential information is collected.

The Fujitsu Mag EraSURE Professional Value degausser provides a quick, convenient and secure method to ensure purging of sensitive data. With over thirty years of experience in hard disk drive manufacturing, Fujitsu has the knowledge and expertise to provide a reliable, secure and high-performance commercial degausser.

About Fujitsu Computer Products of America, Inc.

Fujitsu Computer Products of America, Inc. is a subsidiary of Fujitsu Limited, a leading provider of customer-focused IT and communications solutions for the global marketplace. FCPA provides innovative solutions for the U.S. marketplace. Current product and service offerings include: high performance hard disk drives, Magneto-Optical drives, scanners and scanner maintenance service, palm vein recognition technology, 10Gb Ethernet switches and degaussers.

¹ Data is unrecoverable by commercial data recovery services.

Specifications — Mag EraSURE Professional Value

Model		ME-P2V
Media		HDD: 1.0", 1.8", 2.5", 3.5" (up to 1.6" height)
		Tape: SDLT, DLT, LTO, DAT, TRANVAN, AIT, QIC, 8mm
		Floppy disks and other removable magnetic disks
Operation time (two passes)		60 seconds
Magnet field strength		1.3 Tesla max
Product life		10 years
Surface field strength	Top	80 gauss or less
	Bottom	220 gauss or less
Rated power		120 V – 60 Hz, 1A or less
Shipping		Commercial shipping and handling
Temperature	Operating	-10°C to 40°C
	Non-operating	-40°C to 65°C
Humidity	Operating	10% to 85% (non-condensing)
	Non-operating	5% to 95% (non-condensing)
Dimensions		340mm x 605mm x 215mm
Weight (main body)		Approx. 60 lbs.
Part number		ZB100-0555-00001
