Thank you for purchasing the fi-7160/fi-7260/fi-7180/fi-7280 color image scanner. This manual describes the preparation required to use this product. Follow the procedures in this manual. Make sure to read the attached "Safety Precautions" manual before using the scanner. For details about scanner functions and features, basic operation, daily care, consumable replacement and troubleshooting, refer to the Operator's Guide (PDF). The Operator's Guide can be displayed by selecting [USER'S GUIDE] in the Setup DVD-ROM.

Checking the Components

Make sure that all items shown below are included in the package. If any other packaging is provided, make sure to keep it as well. The components must be handled with care. The box and packaging materials are required for storage and transportation of the scanner. Do not throw them away. If anything is missing or damaged, contact your FUJITSU scanner dealer or an authorized FUJITSU scanner service provider.

Note: The contents may vary depending on the country.
Safety Information

The attached Safety Precautions manual contains important information about the safe and correct use of this product. Make sure that you read and understand it before using the scanner.

Symbols Used in This Manual

The following symbols are used in this manual.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>WARNING</td>
<td>This indication alerts operators to an operation that, if not strictly observed, may result in severe injury or death.</td>
</tr>
<tr>
<td>CAUTION</td>
<td>This indication alerts operators to an operation that, if not strictly observed, may result in safety hazards to personnel or damage to the product.</td>
</tr>
</tbody>
</table>

Removing the Protective Packaging

The scanner is secured with orange protective tape. Peel off the tape before using the scanner.

Installing the Software

Bundled Software

The following software are bundled with the scanner:

- **PaperStream IP (TWAIN) Driver**
  Conforms to the TWAIN standard. Used when you operate the scanner using TWAIN-compliant 32-bit applications.
- **PaperStream IP (TWAIN x64) Driver**
  Conforms to the TWAIN standard. Used when you operate the scanner using TWAIN-compliant 64-bit applications. Can be installed on 64-bit operating systems.
- **PaperStream IP (ISIS) Driver**
  Conforms to the ISIS standard. Used when you operate the scanner using ISIS-compliant applications.

- **2D Barcode for PaperStream [fi-7180/fi-7280]**
  This option can recognize two dimensional codes.
  Can be used with the PaperStream IP (TWAIN) driver, the PaperStream IP (TWAIN x64) driver, the PaperStream IP (ISIS) driver, or PaperStream Capture.
  For fi-7160/fi-7260, the 2D Barcode for PaperStream option is sold separately.
  For details about the installation, refer to readme in the 2D Barcode for PaperStream Setup CD-ROM.

- **Software Operation Panel**
  Configure various settings such as the operation of the scanner and managing the consumables. Installed together with the PaperStream IP (TWAIN) driver, the PaperStream IP (TWAIN x64) driver, or the PaperStream IP (ISIS) driver.

- **Error Recovery Guide**
  Shows the error status and countermeasures when an error occurs. Installed together with the PaperStream IP (TWAIN) driver, the PaperStream IP (TWAIN x64) driver, or the PaperStream IP (ISIS) driver.

- **PaperStream Capture**
  An image scanning application that supports the PaperStream IP (TWAIN) driver and the PaperStream IP (ISIS) driver. By defining scan settings as document profiles, you can customize the settings according to your preference.

- **ScanSnap Manager for fi Series**
  An application that scans images with the driver settings that are used exclusively for ScanSnap Manager for fi Series. PaperStream IP (TWAIN) driver is required to use this application. Enables easy scanning with a single button.

- **Scan to Microsoft SharePoint**
  An application that allows you to upload your files easily from ScanSnap Manager for fi Series to a SharePoint site. Can be used to scan from ScanSnap Manager for fi Series.

- **ABBYY FineReader for ScanSnap™**
  Bundled for use with ScanSnap Manager for fi Series, this application converts scanned images into Microsoft® Office (Word/Excel®/PowerPoint®) files. Can be used to scan from ScanSnap Manager for fi Series.
### System Requirements

The system requirements are as follows.

</tbody>
</table>

---

**ATTENTION**

- If the system requirements above are not satisfied, the scanner may not operate.
- Scanning speed will slow down in the following cases:
  - The CPU or the memory does not meet the required specifications
  - The version of the USB port or the USB hub is USB 1.1

**HINT**

- The screenshots used in this manual are of Windows® 7. The actual windows and operations may differ depending on the operating system.
- Where there is no distinction between the different versions of the operating system shown in the table of system requirements, the general term Windows® is used.

**Installing the Bundled Software**

Install the bundled software from the Setup DVD-ROM in the following procedure.

Note that there are two ways to install the bundled software: select [Installation (Recommended)] to install all the software required to operate the scanner, or [Installation (Custom)] to select and install the software as needed.

**ATTENTION**

- If an old version of the software is installed already, uninstall it first.
- For details about the uninstallation procedures, refer to "A.5 Uninstalling the Software" in the Operator's Guide.
Installation (Recommended)

The following software are installed:

- PaperStream IP (TWAIN) Driver
- PaperStream IP (TWAIN x64) Driver
- Software Operation Panel
- Error Recovery Guide
- PaperStream Capture
- ScanSnap Manager for fi Series
- ABBYY FineReader for ScanSnap™
- User’s Guide
- Scanner Central Admin Agent

1. Turn on the computer and log onto Windows® as a user with Administrator privileges.
2. Insert the Setup DVD-ROM into the DVD drive. The [fi Series Setup] screen appears.

   **HINT**
   If the [fi Series Setup] screen does not appear, double-click "Setup.exe" in the Setup DVD-ROM via Windows Explorer or [Computer].

3. Click the [Installation (Recommended)] button.
4. Follow the instructions on the screen to proceed with the installation.

Installation (Custom)

1. Perform steps 1. to 2. in "Installation (Recommended) (page 4)".
2. Click the [Installation (Custom)] button.
3. Select the check box for the software to install and click the [Next] button.

Installing the Scanner

Install the scanner in the following procedure.

1. Place the scanner at its installation site.

   **ATTENTION**
   Carry the scanner by supporting it from the bottom.

<table>
<thead>
<tr>
<th>fi-7160/fi-7180</th>
<th>. . . Outer dimensions</th>
<th>Installation space</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outer dimensions</td>
<td>300 (11.81)</td>
<td></td>
</tr>
<tr>
<td>Installation space</td>
<td>400 (15.75)</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>fi-7260/fi-7280</th>
<th>. . . Outer dimensions</th>
<th>Installation space</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outer dimensions</td>
<td>400 (15.75)</td>
<td></td>
</tr>
<tr>
<td>Installation space</td>
<td>800 (31.50)</td>
<td></td>
</tr>
</tbody>
</table>
2. Unlock the transport lock switch.
   For fi-7260/fi-7280, there is a carrier unit inside the flatbed which is fixed in place to prevent damage during transportation. Slide the transport lock switch on the front.

3. Attach the ADF paper chute (Feeder).
   Insert the tabs into the slots on the back of the scanner in the direction indicated by the arrow 1, and tilt the ADF paper chute backwards in the direction indicated by the arrow 2 until it locks in place.

   **ATTENTION**
   Insert the ADF paper chute (Feeder) firmly so that there is no space between the scanner.

## Connecting the Cables

Connect each cable in the following procedure.

1. Confirm that the computer is turned off.
2. Connect the USB cable to the USB connector of the scanner and USB port of the computer.

   **ATTENTION**
   - Use the supplied USB cable.
   - If you connect the scanner with USB 3.0/2.0, it is required that the USB port and the hub be compliant with USB 3.0/2.0. The scanning speed slows down when you connect the scanner with USB 1.1.
   - Connect it with the USB mark facing up.

   ![Connecting the Cables Diagram]

   - Only use the supplied AC adapter. Not doing so may cause the scanner to malfunction. Furthermore, do not use the supplied AC adaptor for other products.

   ![CAUTION]

   - Insert the ADF paper chute (Feeder) firmly so that there is no space between the scanner.
3. Connect the AC cable to the AC adapter (hereinafter called the "power cable").

**WARNING**
Only use the supplied power cable. To prevent electrical shock or scanner malfunction, do not perform the following:
- Use a different power cable
- Use the supplied power cable for other devices

4. Connect the power cable to the power connector of the scanner and the power outlet.

**HINT**
When you plug the cable into the outlet, the [Power] button on the scanner's operator panel will flash once. Note that this is an initial diagnosis and not a malfunction.

Test-Scan

Follow the procedure described below to check that documents can be scanned correctly by using PaperStream Capture and the PaperStream IP (TWAIN) driver.

1. Press the [Power] button on the operator panel.

   ![Image](image)

   - The scanner is turned on, and the [Power] button lights in green.
   - During initialization, the following image is displayed on the LCD of the operator panel.

   **fi Series**
   The scanner is ready to scan when [Ready] is displayed.

   **ATTENTION**
   If [Ready] is not displayed on the LCD, refer to "Chapter 8 Troubleshooting" in the Operator's Guide.

2. Select the language to be displayed on the LCD.
   For details, refer to "Chapter 4 How to Use the Operator Panel" in the Operator's Guide.

3. Turn on the computer.
   - The scanner is automatically detected.

   **ATTENTION**
   If the [Found New Hardware] dialog box appears, select [Locate and install driver software (recommended)], and follow the instructions on the screen to install the driver.

4. Load a document in the scanner.
   1. Pull out the chute extensions according to the length of the document.
   2. Pull the stacker out, slide stacker extension 1 and stacker extension 2 toward you according to the length of the document, and lift the stopper up.
   3. Load the document face-down in the ADF paper chute (Feeder).
   4. Adjust the side guides to the width of the document.

5. Start up PaperStream Capture.  
   Select the [Start] menu → [All Programs] → 
   [PaperStream Capture] → [PaperStream Capture]  
   (for Windows Server® 2012 or Windows® 8, right-click the Start screen, 
   select [All apps] on the app bar, and then 
   select [PaperStream Capture] under 
   [PaperStream Capture]).

6. Click the [Scan] button in the Menu Area.

7. Click one of the three types of document 
   profiles that are prepared beforehand.  
   Below is an example of when the document 
   profile [B&W] is clicked.

![Document Scanning Example]

The document is scanned, and the 
scanned image is displayed.

For details about other scanning features, refer to 
"Chapter 5 Various Ways to Scan" in the 
Operator's Guide.
