

Without a ScanSnap scanner, I'd be filing my paperwork right now.

The ScanSnap S300. The world's smallest, ADF, double-sided color scanner.

With a footprint that's half the size of a sheet of paper, the Fujitsu ScanSnap S300 converts paperwork into PDFs with the touch of a button. Its automatic document feeder (ADF) holds up to 10 pages and lets you scan both sides of everything from business cards to legal-size documents in one pass. And with a choice of an AC adapter or portable USB power, you can manage your paperwork anywhere life takes you.
