Because results matter

The smart document capture solution

Fujitsu Image Scanners
fi-7180, fi-7280, fi-7160 and fi-7260

- Efficient. Smoothly scan batches of documents quickly and accurately into your business processes
- Reliable. Innovative paper feeding and protection mechanisms ensure seamless processing
- Intelligent. Minimise user interaction through automated hardware and software based image enhancement tools
- Intuitive. PaperStream Capture and PaperStream IP for high performance batch scanning and image enhancement

shaping tomorrow with you
Minimal effort with the utmost intelligence, efficiency and reliability

The fast, compact and intuitive fi-7180, fi-7280, fi-7160 and fi-7260 desktop scanners from Fujitsu come well equipped to seamlessly process your documents into the digital world.

- Increase productivity/collaboration/customer satisfaction
- Meet legal and regulatory obligations and disaster recovery objectives
- Save space and money
- Address sustainability management

These are the first desktop scanners in the World equipped with iSOP (Intelligent Sonic Paper Protection), which detects changes in the acoustic noise generated by paper and enhances the paper feeding process. Additionally they feature innovatively developed hardware and software to help augment your daily routines and boost your organisation’s efficiency.

Flexible, out of the box document capture solution

The fi-7180, fi-7280, fi-7160 and fi-7260 are designed to support document capture routines either for knowledge workers or for small workgroups. Easy to set up, use and maintain these robust scanners are built on years of solid reputation and come bundled with a user friendly and intuitive scanner driver PaperStream IP along with batch scanning automation and enhancement software PaperStream Capture.

Hassle free monitoring and administering

Integrated within the operating panel an LCD shows useful information such as current scanner settings, operating status and a paper counter.

Management from single location

Scanner Central Admin software enable Fujitsu scanners to be managed and maintained from a single location to minimise scanner downtime anywhere on the global system.
Independent pick rollers ensure a skewed document will not affect the alignment of following sheets.

---

**Intuitive feeding functions offer enhanced operation and continuous uninterrupted scanning**

Built on class leading and proven feeding capabilities from predecessor models ensures that the scanning of mixed batches at the desktop is a breeze and helps minimise the pre-processing time required. In addition the fi-7180, fi-7280, fi-7160 and fi-7260 scanners now come with a unique paper protection function that is based on acoustic sensors; iSOP (Intelligent Sonic Paper Protection), which reduces the risk of having documents damaged by sensing the audible noise of paper movements and stopping the feeding of sheets when an irregular noise is encountered. Should you be scanning mixed batches of differing thicknesses of documents then the "skew reducer" reduces the physical skew that documents encounter through the paper path ensuring that each document is captured with the utmost precision and simplicity.

All four scanner models additionally make use of an ultrasonic sensor that accurately detects multifeed errors where two or more sheets are fed through the scanner at once plus the Intelligent Multifeed Function allows document scan parameters to be applied which enables the sensors to be set up to help identify and subsequently ignore attachments such as sticky notes or items with a photo attached that would otherwise cause disruptions to the scanning process.

---

**Integrated flatbed for even greater scanning potential**

The fi-7280 and fi-7260 models feature an ultra fast built-in flatbed module that enables the scanning of diverse documents types such as those that may be bound, stapled or delicate.

---

**Optional extras**

**Post Imprinter for fi-7180 and fi-7160**

The optional imprinter unit prints identification markers like dates, alphanumeric codes and symbols on the reverse side of the original document.

(For details, please consult the provided part number PA03670-D201)

**Black Document Pad for fi-7280 and fi-7260**

This enables the fi-7280 and fi-7260 to apply automatic cropping to a scanned document on the flatbed.

(For details, please consult the provided part number PA03670-D801)

**Carrier sheets**

Carrier sheets allow you to scan documents, larger than A4 or photos and clippings that are at risk of being damaged when processed through an ADF.

(For details, please consult the provided part number PA03360-0013)
## Specifications

### Fujitsu best-in-class scanner driver and document capturing software

**PaperStream IP**
- **Scanner driver for high-quality image enhancement**
- TWAIN and ISIS compliant scanner driver
- Industry leading integrated image enhancement capabilities
- Pre-defined and custom scanning profiles for routine tasks
- Supports the user when needed with visual guidance through “Assisted Scan”
- Auto cropping, auto deskew, auto colour detecting, auto blank page detection and deletion

**PaperStream Capture**
- **Efficient, high-quality front-end capture solution**
- One-stop batch scanning application that simplifies and accelerates the routine task of document capture through its ‘One Click Capture’ concept
- High-speed, high volume scanning with real-time image display, bar code detection and indexing
- PaperStream IP is an integral part of PaperStream Capture and ensures high-quality images
- Scan-verify-index-release in a single, streamlined routine that every user can easily perform
- Supports ad hoc scanning requirements for exception handling through “Assisted Scan” and, where required, instantly changing settings

### Operating environment
- **Temperature:** 5 to 35°C
- **Relative humidity:** 20 to 80% (Non-condensing)

### Output resolution
- Colour / Greyscale / Mono
- 50 to 600 dpi (adjust by 1 dpi increments), 1200 dpi (driver)

### Included software / drivers
- PaperStream IP Driver (TWAIN & ISIS™), PaperStream Capture, ScanSnap Manager for fi Series, Scan to Microsoft SharePoint (web download only), Scanner Central Admin tools
- Dither, Moire removal, Image emphasis, Colour cleanup, Dropout colour (None, Specified, Colour saturation), Blank page skip, i-DTC, Advanced-DTC, Simplified-DTC, Error diffusion, Blank page detection and deletion

### Environmental compliance
- ENERGY STAR®, RoHS®2, Ecodesign®2
- Supports ad hoc scanning requirements for exception handling through “Assisted Scan” and, where required, instantly changing settings

### Optional Service Plans
- 1 Year Standard Warranty - Advance Exchange - Next Business Day
- Please contact us for more information.

### Standard Warranty (included in the price of the product)
- 1 Year Standard Warranty - Advance Exchange - Next Business Day
- Service Description

### Order by Part Number
- FI-7160
- FI-7260
- FI-7180
- FI-7280

### Model
- [See http://emea.fujitsu.com/fiscannerfaqs/ for further information](http://emea.fujitsu.com/fiscannerfaqs/)

### Power requirements
- AC 100 to 240 V, ±10%

### Power consumption
- Operating / Sleep: 38W or less / 1.8W or less
- Standby: 41W or less / 1.8W or less
- Sleep: 42W or less / 1.8W or less
- Off: 43W or less / 1.8W or less

### Dimensions
- (W x D x H base unit) / Weight (mm) / kg: 163 x 220 x 70 / 3.8
- 173 x 297 x 190 / 6.5
- 184 x 362 x 26 / 8.0
- 190 x 476 x 34 / 10.2

### Included software / drivers
- PaperStream IP Driver (TWAIN & ISIS™), Software Operation Panel, Error Recovery Guide, PaperStream Capture, ScanSnap Manager for 9 Series, Scan to Microsoft SharePoint (web download only), Scanner Central Admin tools

### Environmental compliance
- ENERGY STAR®, RoHS®2, Ecodesign®2

### Standard Warranty (included in the price of the product)
- 1 Year Standard Warranty - Advance Exchange - Next Business Day
