 LifeBook S710

Windows®. Life without Walls™. Fujitsu recommends Windows 7.

LifeBook S710

- 14-inch Anti-glare HD back-light LED at approximately 2.2kg*
- Superior security features for enhanced data and hardware protection
- Instant converged communications using built-in 1.3 Mega Pixel camera and dual built-in stereo microphones
- Hot-swappable modular bay device options for ultimate flexibility
- Health and Environment friendliness with RoHS compliance¹⁰

* with weight saver option only

| LifeBook S710 | |
|--------------------------------|---|
| Specifications | |
| Platform | Intel® Core™ i7-620M processor ³ 2.66GHz with Turbo Boost up to 3.333GHz / i5-540M processor ³ 2.53GHz with Turbo Boost up to 3.066GHz / i5-520M processor ³ 2.4GHz with Turbo Boost up to 2.933GHz - Intel® QM57 Express Chipset |
| Operating System | Genuine Windows® 7 Professional 64-bit (or Genuine Windows® 7 Home Premium 64-bit) (or Genuine Windows® 7 Home Basic 64-bit) |
| Display ⁴ | 14-inch Anti-glare HD back-light LED 220nits, 1366 x 768 pixels |
| Modular Bay Device | Dual Layer DVD Super Multi Writer ⁹ |
| Memory | 4GB DDR3 1066MHz Max. Memory Supported ¹⁴ - 8GB DDR3 1066MHz, Dual Channel |
| Hard Disk | 320GB / 500GB |
| Battery | Up to 5.5hrs ⁵ (6-cell Li-ion 5800mAh) |
| Weight | Approx. 2.2kg (w/ weight saver option) |
| Detailed Specifications | |
| Hard Disk Drive | SATA-150 5400rpm, S.M.A.R.T. support, Two Partitions - 50/50 ¹³ |
| Graphics | Intel® HD Graphics |
| High Definition (HD) Audio | RealTek ALC269 HD audio codec with Dual Built-in Stereo Speakers and Dual Built-in Stereo Digital Microphone HD Audio-in: External Mic-in HD Audio-out: Headphone-out |
| Communication | 1.3 Mega Pixel camera, Bluetooth® v2.1+EDR, 56K V.92 ² Global Modem MDC1.5, 1000/100/10Mbps ⁶ Gigabit Ethernet PCI Express® x 1 and Atheros WLAN 802.11BGN(HB97) network connection. Separate ON/OFF switch for wireless network connection |
| User Interface | Spill-resistant Keyboard ⁷ : 84-key, 19mm key pitch, 2.7mm key stroke Intelligent Touch Pad with configurable vertical and horizontal scroll functions Fingerprint Sensor with vertical scroll functions |
| Card Slots | ExpressCard™/34/54, Secured Digital / SDHC |
| Connector Interface | USB 2.0 x 3, VGA (external display), RJ45 (LAN), RJ11 (modem), IEEE1394, HDA-out, Display Port, eSATA, Power Adapter DC-in, Port Replicator Interface |
| Quick Launch Panel | Four Programmable Application Launch Buttons |
| Security ⁸ | LifeBook Lock, BIOS Lock, Hard Disk Lock, Anti-theft Lock Slot, Fingerprint Sensor, Trusted Platform Module option |
| Dimensions | 340mm (W) x 245mm (D) x 34.9mm (H) |
| Bundled Accessories | |
| AC Adapter | Input AC 100-240V, Output DC 19V 80W |
| Bundled Software | Softex Omnipass, CyberLink Power2Go™, CyberLink PowerDirector™, Roxio Easy Media Creator, Adobe Acrobat Reader, Fujitsu UpdateNav®, Fujitsu Power Saving Utility, Fujitsu Hardware Diagnostic Tool, Fujitsu Display Manager, Sun Microsystems Java Runtime, CyberLink YouCam™, Windows Live Essentials (Windows Live Messenger, Windows Photo Gallery, Windows Live Mail, Windows Live Call, Windows Live Writer) Microsoft Office Professional 2007 60-day Convertible Trial ¹¹ |
| Other Software | 1 year Full Licensed Norman Virus Control |
| Optional Accessories | |
| Port Replicator | Connector Interface: USB 2.0 x 4, DVI-D, VGA (external display), Display Port, RJ45 (LAN), PS/2 (keyboard/mouse), Serial, Parallel, eSATA, Audio-in, Audio-out, Power Adapter DC-in |
| Modular Bay Options | Replaceable with - Bay Battery, 6-cell Li-ion 3800mAh, up to 9.3hrs ⁵ battery life (Standard + Bay Batteries) - Dual Layer DVD Super Multi Writer ⁹ - Weight Saver |

The above information shows the general technical specifications of the product and does not represent actual configuration. For specific configurations and their availability, please check with your local distributors.

Disclaimers:

- Results obtained from BAPCo® MobileMark® 2007(Productivity Workload) performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. Built-in bay device or hard drive usage may also have a significant impact on battery life. Note: Battery life is based on Intel® Core™ i5-520M processor.
- Maximum 56Kbps performance varies according to your local service providers' services as well as line condition. V.92 performance is dependent on local service providers' services.
- Please check actual bundling with country local distributor. i7-620M refers to 2.66GHz, 4MB cache, i5-540M refers to 2.53GHz, 3MB cache, i5-520M refers to 2.40GHz, 3MB cache.
- This term does not represent actual data rate of 1000/100/10Mbps and simply indicates compliance with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.
- It is natural for all thin-film transistor (TFT) liquid crystal displays (LCD) to show a small number of missing or discolored dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.
- UpdateNav is a Fujitsu Proprietary application that updates LifeBook drivers by connecting automatically to Fujitsu's server. This will help update your LifeBook with the latest software drivers and utilities to ensure compatibility between hardware and software, maintaining smooth operation anytime, anywhere.
- Fujitsu does not provide the application for Smartcard solution.
- BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password at every first bootup or all bootup sequences. Access to BIOS setup is needed to configure Hard Disk Lock. Hard Disk Lock requires an access key to retrieve data on the hard disk. This is a Data Confidentiality security feature. LifeBook Lock requires a supervisor/user password to bootup the LifeBook when it powers up or resumes last session from suspend/hibernate mode. Anti-theft Lock Slot allows the use of a lock to physically secure the LifeBook. Smartcard slot usage is dependent on customer's solution. Fingerprint sensor uses AuthenTec TruePrint™ Technology and Softex OmniPass to remember customer list of user IDs and passwords. Full security unlock sequence - LifeBook Lock, BIOS Lock, Hard Disk Lock (BIOS Lock), Hard Disk Lock, Fingerprint Windows Logon. NOTE: Loss of password requires the LifeBook to be returned to Japan factory for system refresh. Cost of shipment and lost data will be borne by the customer. Backup your user's profile before changing HDD. Without the user's profile associated with a document at the point of encryption, Softex OmniPass cannot decrypt the encrypted document.
- Supports DVD multi formats such as DVD-RAM, DL DVD+R, DVD+RW, DVD+R, CD-RW, DVD-ROM, CD-R and CD-ROM.
- RoHS (Restriction on Hazardous Substances) compliance means the system and its internal components comply with the EU RoHS directive (2002/95/EC) on the restricted use of six hazardous substances in the manufacture of the system and its internal components.
- Microsoft Office Professional 2007 60-day Convertible Trial needs online activation to begin. 60-day starts from day of activation.
- Spill-resistant keyboard does not imply the system is water-proof. If liquid is spilt onto the keyboard, power off the system immediately and turn the notebook upside down to drain off the liquid.
- This refers to Windows® 7 hard disk drives C:\ and D:\. 50/50 refers to approximate 50% allocation of user accessible hard disk storage to C:\ and D:\ drives respectively. For Windows 7 hard disk drives, 16GB will be reserved for internal recovery usage which is not shown.
- 8GB DDR3 1066MHz maximum memory is supported when Fujitsu recommended 4GB DDR3 1066MHz memory module is made available.
- Fujitsu 3D Shock Sensor of a powered-up unit retracts hard disk read-write head to a secured zone upon detection of excessive vibrations or shocks. This greatly reduces the possibility of damage to the hard disk and its content - example in the event of a sudden drop or impact. The sensor monitors movement from three axes and its sensitivity can be adjusted by user to accommodate different working environments using the Fujitsu 3D Shock Sensor Utility.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Ambient temperature: 5° to 35°C / 41 to 95°F (operating), -15° to 60°C / 5 to 140°F (non-operating). Relative humidity: 20% to 85% RH (operating), 8% to 85% RH (non-operating). Please note that 1GB is equivalent to 1,073,741,824 bytes.
