Change your colour…everyday

Never have to leave your life behind when you're out and about living it. The Fujitsu M1010 is all you need to stay connected to your Internet world. With an 8.9-inch wide screen, the M1010 features the Intel® Atom™ processor N270 and is loaded with Genuine Windows® XP Home Edition for a full Internet-centric experience. Users can surf the net, listen to music, watch videos, play games and even perform basic word processing - perfect for school, work or play! To top it all, you can flash your ever-changing colourful personality with optional clip-on Colour Lids.

Connect and Communicate

Stay wired to your network of friends with a comprehensive list of communication tools and connectivity features. A built-in 1.3 Mega Pixel camera, two digital array microphones, integrated WLAN and Bluetooth® makes inte racting with others a walk in the park. From instant messaging with friends using the web camera, to making VoIP calls with the built-in digital array microphones optimised for noise reduction or conducting video conferencing in comfort, you can do it all. The user friendly Bluetooth® v2.1 feature makes picture and file transfers from mobile phones extremely easy.

ThinkFree Mobile Office Software

Compatible with Microsoft® Office document format, productivity gets a boost with the ThinkFree Mobile Office Suites. Work on presentations, spreadsheets or word documents anywhere and anytime. You can even work all the way home and continue on your home computer easily with the exchange of common files.
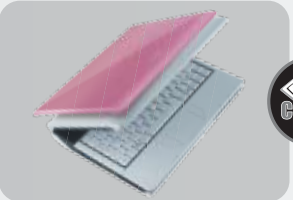

Interface Flexibility

Featuring Integrated LAN, Wireless LAN, SD and MMC card slots, a 34mm PC ExpressCard™ slot for additional ExpressCard™ with 3.5G functionality or for inserting a 34mm-sized laser point presenter, the Fujitsu M1010 lets you accomplish just about anything on the go. Checking emails, browsing the Internet, listening to music online, watching videos, visiting social networking sites and playing games become simply effortless.

Dynamic 8.9-inch Wide screen

Measuring a mere 232mm by 175mm, the Fujitsu M1010 gives you a brilliant display with vibrant colours on an 8.9-inch wide back-light LED screen display that gives you crystal clear images in a small form factor. This means it will take up very little of your precious bag space! And at just a mere 1kg – it will not weigh you down as you transit from one place to another!

Trendy Colour Lid as Optional Accessories

Live your life in full colour as you switch the Colour Lids available in a choice of five charming shades of Red, Pink, Bronze, Blue and Black. Or use the transparent lid for slipping your favourite picture under. Better yet, why settle for any one colour when you can have them all to match your outfits.

Note. Availability of Colour Lid options differs from country to country.

Fujitsu

The above information shows the general technical specifications of the product and does not represent actual configuration that would be sold in your region. For specific configurations and their availability, please check with your local distributors.

Disclaimers:
1. Results obtained from Battery Mark 4.0.1. performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. Built-in bay device or hard drive usage may also have a significant impact on battery life. Note: Battery life is based on Intel® Atom™ N270.
2. This refers to Windows XP® hard disk drives C:\ and D:\ . 50/50 refer to approximate 50% allocation of user accessible hard disk storage to C:\ and D:\ drives respectively. For hard disk drives, several GB will be reserved for internal recovery usage which is not shown.
3. BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password at every first bootup or all bootup sequences.
4. ThinkFree Mobile is an office productivity suite combining Document, Spreasheet and Presentation tools. It is compatible with Microsoft® Office 97/2000/XP/2003/2007.
5. Please check actual bundling with country local distributor.
6. It is natural for all thin-film transistor (TFT) liquid crystal displays (LCD) to show a small number of missing or discoloured dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.
7. Product is RoHS compliant. RoHS (Restriction on Hazardous Substances) compliance means the system and its internal components comply with the EU RoHS directive (2002/95/EC) on the restricted use of six hazardous substances in the manufacture of the system and its internal components.

Product weight is for base system only. Weight varies depending on different configurations.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Ambient temperature: 5° to 35°C / 41 to 95°F (operating), -15° to 60°C / 5 to 140°F (packaged). Relative humidity: 20% to 85% RH (operating), 8% to 85% RH (packaged). Please note that GB = billion bytes. 1GB is equivalent to 1,073,741,824 bytes.
