

WINDOWS 8 DOWNGRADE TO WINDOWS 7 GUIDE

NOTE:

- Always backup your important data before performing the downgrade.
- Fujitsu may not provide any Recovery Media. User should create the Windows 8 Recovery Disk(s), and Bootable Disk(s) using **MyRecovery** utility.
- Before performing the Windows 8 downgrade to Windows 7, please remove any connected USB hard disk, flash drive or memory card.
- Please ensure the system is plugged to a power source before performing the Windows 8 downgrade to Windows 7.
- 1. Power up the system
- 2. Press F12* to access boot menu. * (F11 for some models)
- 3. Press Tab key to access Application Menu. Then select <BIOS Setup>.

14. Select **<Custom (advanced)**> to install the Winodws 7 OS.

🚱 🔊 Install Wi	ndows
Which typ	be of installation do you want?
	Upgrade Upgrade to a newer version of Windows and keep your files, settings, and programs. The option to upgrade is only available when an existing version of Windows is running. We recommend backing up your files before you proceed.
	<u>C</u> ustom (advanced) Install a new copy of Windows. This option does not keep your files, settings, and programs. The option to make changes to disks and partitions is available when you start your computer using the installation disc. We recommend backing up your files before you proceed.
