

Corporate Data

Fujitsu Limited was established in 1935 as a manufacturer of communications equipment. Subsequently, the company succeeded in developing Japan's first computer. Since then, Fujitsu has been providing customers with comprehensive solutions comprising highly reliable, high-performance products and services based on powerful technologies. We aim to grow with our customers as their trusted business partner.

- **Corporate Name** : **Fujitsu Limited**
- **Registered at** : **4-1-1 Kamikodanaka, Nakahara-ku, Kawasaki-shi, Kanagawa 211-8588, Japan**
- **Corporate Headquarters** : **Shiodome City Center, 1-5-2 Higashi-Shimbashi, Minato-ku, Tokyo 105-7123**
- **President** : **Kuniaki Nozoe**
- **Established** : **June 20, 1935**
- **Stock Exchange Listings** : **Tokyo, Osaka, Nagoya, Frankfurt, London, Swiss**
- **Capital** : **324.6 billion yen (as of May, 2008)**
- **Revenue** : **5,330.8 billion yen (FY 2007 ended March 31, 2008)**
- **Revenue by Business Segment** :

	Yen (billions)
Technology Solutions	3,272.2
Ubiquitous Product Solutions	1,188.9
Device Solutions	796.7
Other Operations	526.8
Elimination	(453.9)

- **Number of Consolidated Subsidiaries** : **430 (136 in Japan; 294 outside Japan)***
 - **Number of Employees** : **167,374 (99,954 in Japan; 67,420 outside Japan)***
- *as of March, 2008

■ **Segment Classification** :

Segment	Sub-segment	Main Products / Services
Technology Solutions	System Platforms	
	System Products	Servers (mainframes, UNIX servers, IA servers), peripheral equipment used in information systems (disk arrays, etc), software, etc. *Business-use PCs are included in Ubiquitous Product Solutions
	Network Products	Mobile systems (3G base station systems, etc), optical transmission systems, etc.
	Services	
	Solutions / SI	System construction (systems integration services), system installation and operational support, consulting, custom terminal installation (ATMs, POS systems, etc.)
	Infrastructure Services	One-stop information system operational management (outsourcing services), network environments and networking-related services for information systems (network services, Internet services), information system and network maintenance and monitoring services
	Others	Information system installation, network construction, etc.
Ubiquitous Product Solutions	PCs / Mobile Phones	Personal computers, mobile phones
	Hard Disk Drives	Storage devices (compact magnetic drives, magneto-optical drives)
	Others	Optical modules
Device Solutions	LSI Devices	Logic LSI devices (system LSI, ASIC, microcontrollers, FRAM-embedded logic), memory LSI (FRAM, FCRAM)
	Electronic Components, Others	Semiconductor packages, SAW filters, relays, connectors, etc.
Other Operations		Audio and navigation equipment, electronic equipment for automobile control, printed circuit boards, magnesium molds, etc.
