

Embedded Controllers Part Number Description

MB 86 P 817A PF

Common Package Suffix

P-SH	= Plastic SH-DIP
C-SH	= Ceramic MDIP
PF	= Plastic QFP
CF	= Ceramic MQFP
PFV	= Plastic LQFP
PFM	= Plastic QFP
PMT	= Plastic LQFP
PFS	= Plastic QFP
CR	= Ceramic PGA
PFF	= Plastic LQFP

Please refer datasheet as suffixes change from series to series

Device Series

Three numbers designate the device series while additional letters may be added to reference variations on that series.

ROM Type

Blank	= Mask ROM
F	= Flash ROM
P	= OTP ROM
T	= External ROM
W	= EPROM
V	= Evaluation Device
PV	= Piggy Back Device

Number of Bits

Application Specific Products	
89	= F2MC 8-L (8 bit)
90	= F2MC 16L or 16LX (16 bit)
91	= FR 32-Bit (RISC)
86	= SPARClite (obsolete)

Fujitsu Semiconductor ID

MB	= Micro Block
