

THE POSSIBILITIES ARE INFINITE

## Environmental Policy FME

### Philosophy

Fujitsu Microelectronics Europe GmbH recognizes that environmental protection is a business issue of vital importance.

The principles for ecological action are specified in the company's Environmental Policy, based on Fujitsu Group's Environmental Policy.

### Principles

- We strive to reduce the environmental impact of our products throughout the product lifecycle.
- We are committed to conserving energy and natural resources, and practice a 3R approach (reduce, reuse, recycle) to create best-in-class eco-friendly products.
- We seek to reduce risks to human health and the environment from the use of harmful chemical substances or waste.
- We disclose environment-related information on our business activities, products and services, and we utilize the resulting feedback to critique ourselves in order to further improve our environmental programs.
- We encourage our employees to work to improve the environment, bearing in mind the impact of their business activities and their civic responsibilities.
- Our Company is committed to keep existing environmental laws and regulations as well as conditions in connection with agreements and this we also expect from our third party Partners.
- By providing relevant information we want to ensure the confidence of the public, our neighbourhood, our customers and suppliers by informing them about our Environmental Policy.
- The environmental awareness of employees of all levels shall be fostered by corresponding training measures.
- Our target is to continuously improve the environmental protection of our locations.
- All necessary steps will be taken to avoid emergency cases by ensuring all employees' attentiveness.
- We are pursuing activities to realize a sustainable management that fulfills our corporate social responsibilities and satisfies the expectations of all our stakeholders.
