

Note on using the PRIMERGY Startup Disc

Thank you for purchasing our product.

We inform you that we changed some matters after the PRIMERGY Startup Disc was released. Please read the revised note below when using the PRIMERGY Startup Disc.

We apologize for any inconveniences this may cause.

September 2008
FUJITSU LIMITED

Support for Windows Server 2008

For PRIMERGY BX620 S4 Server Blade, our support for Windows Server 2008 will become available at the end of September 2008, although we have stated the operation using Windows Server 2008 in the manual. For this reason, the "PRIMERGY Startup Disc for Windows Server 2008" in the Startup Disc cannot be used until then.

For the latest product information, please refer to the Fujitsu PRIMERGY website (<http://primergy.fujitsu.com>).
