

# TeamPoS® 3000 XE

Value and reliability in a streamlined POS system

When it comes to retail systems, sometimes less is more. That's the thinking behind the *TeamPoS 3000 XE*. It offers the power and reliability you need from a POS system in a *streamlined solution* that provides all the features you need — and none that you don't. As part of the TeamPoS 3000 family of Point of Service products, the TeamPoS 3000 XE provides proven *performance* and *reliability* for any retail environment.

### Performance and flexibility

Built on an industry standard platform, the TeamPoS 3000 XE leverages Intel components and standard operating system, software applications and peripherals. The touch-screen option makes operation quick and efficient, even for the new employee.

### The right feature/price balance

Provides a low-priced, lifecycle-managed solution in an attractive package that rivals higher-priced units. Performance you'll need tomorrow at a price you can afford today.

### Versatility for the retail environment

Can be arranged in a stacked or dispersed configuration to suit the needs of any retail environment. Controller is compatible with an extensive choice of peripheral options.

### Investment protection

Engineered to withstand the demands of retail environments today and well into the future. And with Fujitsu's commitment to lifecycle solutions, you can depend on long-term service and support to back your POS investment for years to come.

### Environmental compliance

Meets RoHS and WEEE compliance standards that protect the environment and your investment, and ensure a long, useful life.
