

# ETERNUS DX60/DX80 Disk storage system

## Using Optional Products

### Preface

Fujitsu would like to thank you for purchasing our product.

This product is designed to be installed and connected to the ETERNUS DX60/DX80 Disk storage system (hereinafter referred to as "ETERNUS DX60/DX80").

Please carefully review the information outlined in both this manual and the User Guide provided with the ETERNUS DX60/DX80. The information described in this manual is subject to change based on new product releases for the ETERNUS DX60/DX80. The current released documentation is found on the following web-site.

First Edition  
June 2009

### Package Contents

Refer to "ETERNUS DX60/DX80 Disk storage system Package Contents" for details of package contents.

### Using this product

Refer to "ETERNUS DX60/DX80 Disk storage system User Guide" for installation and connection procedures.

### Safety Precautions

This section describes safety precautions. For your safety and that of others, follow the guidelines provided in the following pages concerning the use of the ETERNUS DX60/DX80 and hardware options.

Warning signs are shown throughout this manual in order to prevent injury to the user and/or material damage. These signs are composed of a symbol and a message describing the recommended level of caution. The following explains the symbols, their levels of caution, and their meanings as used in this manual.

This symbol indicates the possibility of serious or fatal injury if the ETERNUS DX60/DX80 is not used properly.

This symbol indicates the possibility of minor or moderate personal injury, as well as damage to the ETERNUS DX60/DX80 and/or to other users and their property, if the ETERNUS DX60/DX80 is not used properly.

The following symbols are used to indicate the type of warnings or cautions being described.

Electrical Shock

 The triangle emphasizes the urgency of the WARNING and CAUTION contents. Inside the triangle and above it are details concerning the symbol (e.g. Electrical Shock).

No Disassembly

 The barred "Do Not..." circle warns against certain actions. The action which should be avoided is both illustrated inside the barred circle and written above it (e.g. No Disassembly).

Unplug

 The black "Must Do..." disk indicates actions that must be taken. The required action is both illustrated inside the black disk and written above it (e.g. Unplug).

**⚠ WARNING**

- Do not connect power cords or other cables during thunderstorms, as lightning can result in fire or electric shock.
- Do not connect or disconnect the power cord plug with wet hands, as this can result in fire or electric shock.
- Do not stress the joint between the plug and power cord, (e.g. by twisting it). Doing so can expose or break the inner wires, and result in fire or electric shock.
- Do not damage, modify, place heavy objects on, pull, excessively bend or twist, or apply heat to the plug or power cord, as this may damage them, and result in fire or electric shock.
- Do not use adapters, etc. to double up plugs on sockets or otherwise overload the electrical outlet. Doing so can result in fire or electric shock.
- Do not use any power cords other than those included or specified for use with the optional product. Do not use the power cord included with the optional product for any other device. Doing so can result in failure, fire, or electric shock.

No Disassembly

- Do not attempt to repair, disassemble or modify the optional product, as this can result in fire or electric shock.

- Use only grounded power sockets. Using a non-grounded power socket can result in fire, electric shock, or device malfunction.
- Be sure to firmly insert each plug fully into its socket. Failure to do so can result in electric shock or fire.
- When installing the optional product, carefully follow the procedures given in the "ETERNUS DX60/DX80 Disk storage system User Guide". Failure to do so can result in damage, electric shock or fire.

Warning

- When the ETERNUS DX60/DX80 cover is opened or other moving parts are operated, keep them out of the reach of children. Children touching the ETERNUS DX60/DX80 may be injured by sharp internal protrusions or may damage the ETERNUS DX60/DX80. The ETERNUS DX60/DX80 should not be left unsupervised until maintenance is complete and the ETERNUS DX60/DX80 is closed again.
- Keep removed covers, caps, screws and other small objects that children might swallow out of their reach. If swallowed, contact a doctor straight away.

**⚠ CAUTION**

Do Not

- Do not place heavy objects on, or bump or jar the optional product, as this can result in damage or injury.
- Do not damage, modify, place heavy objects on, pull, bundle excessively bend or twist, or apply heat to the connector cables, as this can break them, and result in device malfunction.
- Do not store the optional product in direct sunlight, near heating devices or naked flames, or in humid places, as this can damage it, and result in device malfunction.

Do

- Always have two or more people, holding both sides and/or the bottom, when lifting the optional product and installing it in a rack. Also be careful that fingers do not get trapped and pinched. Failure to do so can result in injury.
- Always install units from the bottom when rack-mounting devices. Empty bottom slots lead to a top-heavy, unstable rack, and can result in damage or injury.
- Be sure to firmly insert each cable connector fully into its socket. Failure to do so can result in device malfunction.
- When connecting and disconnecting cables, be sure to hold the connector and not the cord. Pulling the cable can result in damage or device malfunction.
- If the cables or connectors become dusty or dirty they should be cleaned. Failure to do so can result in device malfunction.
