Instantly creates digitized data for later reference

The S300 automatically converts scanned data into searchable PDF files that let you quickly and easily find the scanned data that you are looking for with keyword searches.

At 1.4kg, It's the World's Smallest A4 Duplex ADF* Scanner
Loaded with all of the functions that a portable scanner needs.
*Automatic Document Feeder

The world's smallest* compact scanner

*This statement was true for A4 ADF scanners as of October 2007

At half the size of other ScanSnap scanners, the S300 is designed to be the smallest Fujitsu ADF scanner. The S300 is compact enough to carry around and you will never have to worry about finding a spot to place it.

Able to run on USB bus power

Just hook the S300 up to a personal computer USB connector* to easily use it when an AC power source is not available.
*USB2.0/USB1.1

Connector type: USB Mini-Btype
*When using the USB bus power cable, the personal computer must have two USB ports : one for power feeding, the other for USB cable connection.

Holds up to 10 A4 sheets at a time

The S300 is able to scan up to 8 double sided color pages (16 images) per minute.
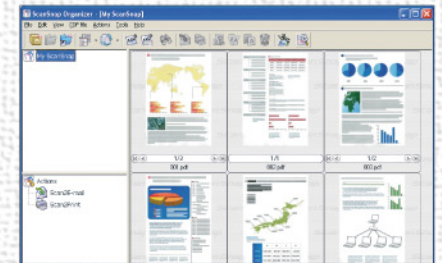

Scans anything from thick business cards and postcards to A4 documents

▶Auto document size recognition
In addition to automatically recognizing document size, the S300 automatically deskews images, removes blank page images and shows images in their proper orientation. It is also able to scan business cards and postcards that are a little thicker than normal. (Up to 209.4g/m²)
