

Our Basic Approach to Working with External Groups

Fujitsu is committed to contributing widely to the achievement of a sustainable society, not only through our own internal activities but also through active engagement with a wide range of external groups and organizations, including industry groups, government authorities, international and educational bodies, and NPOs and NGOs.

Some of Our Principal Affiliations (in Japan)

- Network for Sustainability Communication (NSC)
- Nippon Environment Club
- Japan Environmental Management Association for Industry
- Communications and Information Network Industry Association of Japan
- Japan Electronics and Information Technology Industries Association
- CJC (Clean Japan Center)
- Nippon Keidanren
- Japan International Forestry Promotion and Cooperation Center (JIFPRO)
- Environmental Partnership Organizing Club (EPOC, Nagoya)
- Japan for Sustainability (JFS)

Main Independent Awards in Fiscal 2006

Award	Date	Sponsor	Recipient
2005 Niigata Prefecture Eco-Friendly Business Site	June 2006	Niigata Prefecture Environmental Protection Federation	Shinko Electric Industries Co., Ltd., Arai Plant
2006 Iwate Prefecture Environmental Protection Liaison Council Chairman's Award	June 2006	Iwate Prefecture Environmental Protection Liaison Council	Fujitsu Limited, Iwate Plant
Cool Business for a Sunny Country Prize	September 2006	Okayama Prefecture	Fujitsu Limited, Okayama Office
Third Annual Eco-Products Awards, Eco-Services Division Eco-Products Awards Committee's Chairman's Award for Excellence (Outstanding Product Award)	December 2006	Eco Products Award Promotion Council	Fujitsu Limited, "Logistics Solutions"
Third Annual Life Cycle Assessment Society of Japan Encouragement Award	December 2006	Life Cycle Assessment Society of Japan	Fujitsu Limited, "Popularization and Promotion of Quantitative Evaluation of Environmental Contributions in the Software & Services Field"
Eco-Efficiency Award 2006 Japan Environmental Efficiency Forum Chairman's Award (Product Activities Division)	December 2006	Japan Environmental Efficiency Forum	Fujitsu Limited, "Management Reform Based on Environmental Efficiency Factors in the Fujitsu Group"
Energy Management Superlative Factory or Site Award (Resources and Energy Agency Director-General's Award)	January 2007	The Energy Conservation Center, Japan	Fujitsu Limited, Aizu Wakamatsu Plant
Energy Management Superlative Factory or Site Award (Resources and Energy Agency Director-General's Award)	January 2007	The Energy Conservation Center, Japan	Fujitsu VLSI Limited

"Logistics Solution" Wins the Eco-Products Awards Committee's Chairman's Award for Excellence in the Eco-Services Division (Outstanding Product Award)

In consideration of Japan's Revised Energy Conservation Law, which came into effect in April 2006 and to support our customers' efforts to reduce CO₂ emissions, we strengthened and expanded our logistics solution offerings. This award recognizes the solutions' contribution to reducing overall environmental burden achieved through IT-enabled measures including: improvements in transportation and distribution operations from optimization of distribution routes, improvements in fuel consumption due to the introduction of in-vehicle terminals, reductions in the number of vehicles due to transport planning, and automated documentation using a CO₂ emissions calculation system.

- 1935 • Park-style design adopted for new Kawasaki Plant at the suggestion of Fujitsu's founder, Manjiro Yoshimura.
- 1972 • Environmental control sections established at each plant.
- 1987 • Ozone Layer Protection Committee established.
- 1989 • Environmental Committee established.
- 1990 • Environmental management evaluation system implemented.
- 1991 • Environmental Engineering Promotion Center established.
- 1992 • Fujitsu's Commitment to the Environment formulated.
 - Use of CFCs and carbon tetrachloride for cleaning eliminated.
 - Energy Saving Committee established.
- 1993 • Product Recycling Committee established.
 - Waste Control Committee established.
 - Fujitsu Environmental Protection Program (Stage I) formulated.
 - Product Environmental Assessment Guidelines formulated.
 - Domestic Affiliated Companies' Environmental Protection Council established.
 - Environmental Information Service (FJ-CUG) inaugurated.
- 1994 • First issue of Eco-Plaza environmental bulletin published.
 - Use of 1,1,1-trichloroethane eliminated.
 - 1st Fujitsu Group Environmental Technology Exhibition held.
 - Fujitsu Environmental Emblem designed.
 - Overseas Environmental Information Network begins operation.
- 1995 • Environmental Management System Committee established.
 - Recycling system established and implemented.
 - Fujitsu Group Worldwide Environmental Protection Council established.
- 1996 • Fujitsu Environmental Protection Program (Stage II) formulated.
 - Environmental Engineering Center homepage placed on intranet.
 - Chemical Emissions Reduction Committee established.
 - First Environmental Report published.
- 1997 • Environmental homepage established on Fujitsu website.
 - All domestic manufacturing sites certified ISO14001 compliant.
- 1998 • Reforestation activities conducted in Thailand.
 - Green Product program launched.
- 1999 • Environmental accounting introduced.
 - Reforestation activities conducted in Vietnam.
- 2000 • Four development and service sites in Japan certified ISO14001 compliant.
 - Corporate Environmental Affairs Unit established.
 - Desktop PC awarded Eco-mark for first time.
- 2001 • Fujitsu Environmental Protection Program (Stage III) formulated.
 - Calendar using paper from sustainable forest published.
 - Reforestation activities conducted in Malaysia.
- 2002 • A world's first: Tin-zinc-aluminum lead-free solder developed.
 - A world's first: Biodegradable plastic parts with lower environmental burden employed in notebook computers.
 - Fujitsu Group Environmental Policy established.
 - A world's first: Magnesium alloy recycled in-house applied in notebook computers.
- 2003 • Support for reforestation activities employing Rhythm Forest reforestation network game initiated.
 - Zero waste emission achieved by all 13 plants in Japan.
- 2004 • ISO14001 integrated certification acquired by all Fujitsu Limited sites, among largest systems in Japan.
 - 100% Green Product ratio achieved for all newly developed products.
 - Fujitsu Group Environmental Protection Program (Stage IV) formulated.
- 2005 • ISO14001 certification acquired by all Group companies in Japan.
 - Supply of Super Green Products begins.
- 2006 • ISO14001 globally integrated certification acquired, including overseas Group companies. Establishes global environmental management framework for the Group as a whole.
- 2007 • Fujitsu Group Environmental Protection Program (Stage V) formulated.
