6 months to complete the migration

"We made major transformations in a very short window of time with great results."

IT Service Delivery Manager, Aerospace Company

Improved performance through cloud migration

Challenge

This aerospace company was considering migrating critical IT infrastructure to the cloud and needed expert guidance.
It engaged Fujitsu to undertake a data-driven assessment and then full migration.

Solution

Fujitsu migrated 121 virtual machines, 102 Oracle databases, and eight SAP® HANA databases to Azure East public cloud and Azure GOV cloud.

Outcomes

- Improved agility and performance

- Significantly reduced the running costs and total cost of ownership

- Seamless scaling up and down of the environment

- Easier to use and maintain.
