

Basic Policy

To realize the “creation of a safe, pleasant, networked society” as proposed in the FUJITSU Way group vision and values, the Fujitsu Group is working to ensure and improve information security based on the Fujitsu Group Information Security Policy, our global security policy.

Fujitsu Group Information Security Policy

As a company that places ICT as our core business, the Fujitsu Group’s corporate vision is to contribute to the “creation of a safe, pleasant, networked society,” under which we work to ensure information security throughout the group, while ensuring and improving the level of customer information security by providing ICT products and services.

With the publication of the Cybersecurity Management Guidelines by the Ministry of Economy, Trade and Information and the Information-technology Promotion Agency, Japan (IPA) in December 2015, our Risk Management and Compliance Committee, which reports directly to the Board of Directors, reviewed our group-wide global security policy, and in April 2016 formulated the Fujitsu Group Information Security Policy.

Fujitsu Group Information Security Policy (excerpt*)

(Global Security Policy)

I. Purpose

In accordance with the Cybersecurity Management Guidelines formulated by the Ministry of Economy, Trade and Industry, the purpose of the Information Security Policy (hereafter, the “Basic Policy”) is to set forth the measures, frameworks, and other basic matters required to ensure information security within the Fujitsu Group, as well as execute our corporate vision set forth in the FUJITSU Way, by which we have declared, both internally and externally, that the Fujitsu Group aims to ensure information security throughout the group and actively work to ensure and improve the information security of our customers through our products and services as a company that has placed ICT as the core of its business.

II. Basic Principles

- (1) The Fujitsu Group, in all its business dealings, shall appropriately handle information provided by customers and partners as individuals and organizations, thereby protecting the rights and interests of said individuals and organizations.
- (2) The Fujitsu Group, in all its business dealings, shall appropriately handle trade secrets, technical information, and any other information of value, thereby protecting the rights and interests of the Fujitsu Group.
- (3) The Fujitsu Group shall endeavor to conduct research and development and train personnel, as well as provide products and services that contribute to ensuring and improving our customer’s information security in a timely and reliable fashion in order to contribute to the continued growth of our customers and society as a whole.
