ScanSnap S1100i

Bring simple "One Touch" scanning to new places!
Discover new levels of productivity!

Speedy "One Touch" scanning

The S1100i delivers a 7.5 seconds/page (approximately 8 ppm) scanning speed for color A4 documents at resolutions up to 300 dpi.*

* The time for scanning speed was measured from the point a page first enters to the point it fully exits the scanner.

One of the smallest mobile A4 scanners in the world *1

The ScanSnap S1100i document scanner pushes the limits of size for extreme portability while delivering smooth A4 size document scanning*2. All you need is your laptop and one USB cable to scan and share your documents anywhere, anytime.

*1 This statement was true based on comparisons of A4 document feed type scanners.
*2 The S1100i measures approximately 1/4 the size and less than 1/4 the weight when compared to the ScanSnap S1300i.

Scans plastic cards and other various document types*

In addition to standard paper types, the S1100i can scan plastic cards like the ones used for membership IDs.

* Card type ISO 7810, ID-1 format = 86 x 54 mm (supports embossed cards)

Continuous Document Feeding (CDF Function)

Even though the S1100i is one of the world's smallest document-feed scanners, you can smoothly scan multiple page documents with remarkable speed. The Continuous Document Feeding function allows you to insert pages one after another without any extra button pressing by detecting when a sheet enters and exits the S1100i.

Scanning a two-sided document using the CDF Function

Features for quick digitization

Dual scan - scanning 2 small sized documents at the same time

You can scan 2 small sized documents such as business card and receipt at the same time. Simply insert documents continuously to the paper feeding entry to greatly reduce your scanning time and lead to increased efficiency.

Automatically stitch a two-page spread

Even documents larger than A4 size can be scanned without any extra effort. Just fold the large documents in half and the S1100i will automatically stitch the diagram or chart that is spread across two pages after scanning.

Two selectable paper paths

Switch S1100i's output guide to either the folded position for the straight path or the open position for the U-turn path to best suit the document you want to scan.

Straight path

Most suitable for scanning post cards, photos, business cards, plastic cards*, ScanSnap Carrier Sheet (Option), and common office paper.

* This applies to standard ISO 7810 ID-1 card types.

U-turn path

Most suitable for scanning common office paper and you do not need extra space for the document output.

Scans to a greater range of mobile devices

Like all scanners of the ScanSnap Series, the S1100i supports wireless scanning to an iOS or Android mobile device for convenient mobile viewing on ScanSnap Connect Application.

* To use the latest ScanSnap functions, download and apply the most recent software update.
* ScanSnap Connect Application is available as a free download from the official application distribution service of the device (e.g., Google Play and Apple App Store). The Wi-Fi of the ScanSnap installed computer must be turned on to use this feature.

Quick Menu saves time

Even first-time ScanSnap user can master the functions by navigating through the Quick Menu. ScanSnap's Quick Menu automatically pops up after scanning to enable you to link the data to an application, quickly and easily. You do not have to remember any complicated procedures; just simply click the icon on screen.

Quick Menu: Favorites (Windows*)

It can be easily customized to display just your favorites.

Quick Menu: Recommended (Windows*)

Icons of the recommended application is displayed in priority.

Automated features for near effortless scanning

The S1100i features a powerful set of automated image processing functions including Auto deskew, Auto orientation, and Auto color detection. These functions make pre-scan work like sorting pages and changing scan settings unnecessary, so you can scan your documents with minimal effort.

Easily links documents to clouds

You can scan nearly effortlessly to Evernote, Google Drive, Salesforce, SugarSync and Dropbox, and then conveniently browse the data from computers, tablets or smartphones - anywhere, anytime.

ScanSnap Folder [Windows*]

Scan to virtually any application or web service that can open, insert or attach a PDF or JPEG file from your Windows computer. In this way, you do not have to save the data in the computer beforehand.

Making ScanSnap Connect Application more convenient

With ScanSnap Sync, whichever device you are on, you can use scanned data from either ScanSnap Organizer or the mobile app ScanSnap Connect Application. ScanSnap Sync automatically synchronizes scanned data between the two. This gives you more flexibility for data management regardless of your location.

* ScanSnap Sync is realized by utilizing a third party cloud service such as Google Drive, OneDrive and Dropbox. For the latest support information of cloud services, please visit the ScanSnap website.

Efficiently organizes business card data

Business card organizer software

CardMinder [Windows® / Mac OS]

- Scan your collection of business cards into easy to navigate digital business card holders.
- Import the data from your scanned business cards into Excel, Outlook, Address book (Contacts: OS X v10.8 or later) and other database programs for fast referencing and application.

Generates Microsoft® Word, Excel®, PowerPoint® files

Top-class OCR engine

ABBYY FineReader for ScanSnap [Windows® / Mac OS]

Smoothly scan and convert paper documents into Word, Excel® and PowerPoint® documents.

* Only Microsoft® Word and Excel® are available for Mac OS.
* Generated images and text may vary from the original.

Receipt software with multi-currency support

A few simple steps to digitize and manage the information on your receipts

ScanSnap Receipt allows you to easily scan and extract information from your receipts, and export the data for other accounting software. The sophisticated features within ScanSnap Receipt automatically support various languages and currencies.

* Please visit the ScanSnap website for details on which languages and currencies are supported.

ScanSnap S1100i Case (Option)

A convenient carrying case intended for the S1100i is available. (See disclaimer under "Options" in the next page)
