

Fujitsu Asia Conference

January 13th, 2016
Jakarta

Human Centric Innovation
in Action

Invitation to Fujitsu Asia Conference –Jakarta–

With rapid advances in digitalization, our world is becoming ever more closely connected. Not only making our lives more convenient and prosperous, this trend is also bringing significant changes to business and the management environment.

Nevertheless, there are also many challenges that threaten society's sustainability, such as the issues of food and energy supplies, urbanization, natural disasters, and economic disparities.

Fujitsu is committed to fully utilize the power of ICT to help solve natural disasters, environmental protection, energy conservation and social infrastructure.

To further expand social innovation area to healthcare, transportation & logistics, food & agriculture and education, we want to create with you a prosperous future where everyone can live in peace and comfort.

I am very pleased to announce that Fujitsu Asia Conference will be held at Pullman Jakarta Indonesia on January 13, 2016 with the theme of "Human Centric Innovation in Action". We would like our customers to come away from this event with insight of the innovations for your organizations.

The conference will feature the advanced references in social innovation era of using the advanced digital technology, including IoT, big data, and analytics and also consider about a prosperous future in Asia region with opinion leaders in each market.

I would like to take this opportunity to extend my personal invitation to you to join us at Fujitsu Asia Conference 2015.

I firmly believe that you will experience insights that will help you take your business to new levels.

Sincerely,

Junichi Saito

Corporate Executive Officer
SVP, Head of Asia Region
Fujitsu Limited

shaping tomorrow with you
