FUJITSU SERVER PRIMEQUEST

PRODUCT LAUNCHING

FUJITSU

shaping tomorrow with you

intel inside™
XEON PHI™

Information Technology is very importance to build a dynamic business world and could help a company to develop the business in a fast manner in economic today.

PRIMEQUEST builds a cost effective enterprise open server, based on technology principles proven over generations of mission critical system development, for today's Data Center environments.

FUJITSU launching Server **PRIMEQUEST 2800E2** for Mission Critical unifies the economic and flexibility benefits of industry standard servers with mission-critical uptime features. Based on the latest Intel XEON E7 family x86 processors, PRIMEQUEST offers reliability rivaling that of a mainframe and is the ideal platform for mission-critical systems.

This invitation is free and valid for 2 person .
