We make every activity green

Fujitsu considers the environment throughout the product life cycle by promoting efforts from resource and energy saving to recycling.

THE POSSIBILITIES ARE INFINITE **FUJITSU**

TeamPoS3000XT

An elegant and compact all-in-one design

CF6667-1M

Along with reliable performance and versatile functions, Fujitsu's new TeamPoS3000XT boasts compact dimensions and customer-pleasing looks designed to enhance any retail setting.

ERGONOMIC TOUCH PANEL

The high-resolution display, touch panel and new tiltable screen afford unprecedented visibility and ease of operation, for staff and customers, under any lighting conditions.

LONG-TERM & HIGH PERFORMANCE

Powerful architecture incorporates the Intel® Celeron® M processor, as well as a stable platform based on Intel's roadmap for long-term support.

EXTRA RELIABILITY

To safeguard data, ECC memory is provided as standard. A backup battery (optional) is available to safeguard operations from power interruptions.

FOR SAFETY AND SECURITY

To prevent inadvertent misoperation, the power switch is secured by a sliding cover. The connector area can also be locked to prevent unauthorized access to the interface panel.

ADDED ENVIRONMENTAL CONSIDERATIONS

In addition to reduced power consumption, the anti-static design affords additional protection. Measures have also been considered to prevent invasion by insects that might lead to short circuiting.

CLUTTER-FREE CONNECTIONS

TeamPoS3000XT is kept clean and orderly by concealing the wiring connections and air vents from the customer's view.

STYLISH, MODERN APPEARANCE

All-in-one form factor with small footprint and elegant rounded shape makes it the ideal space-saving solution for a diverse range of retail environments. It can also function as an information terminal at public facilities.

Choice of two display sizes

To meet the needs of varied user environments, 12.1" or 15" LCD displays are available.

15" LCD display (XGA)

12.1" LCD display (SVGA)

Customer display
