SCANSNAP S11001

Bring simple "One Touch" scanning to new places!

Discover new levels of productivity!

Speedy "One Touch" scanning

The S1100i delivers a snappy 7.5 seconds/page (approximately 8 ppm) scanning speed for color A4 documents at resolutions up to 300 dpi.*

*The time for scanning speed was measured from the point a page first enters to the point it fully exits the scanner

One of the smallest mobile A4 scanners in the world *1

The ScanSnap S1100i document scanner pushes the limits of size for extreme portability while delivering smooth A4 size document scanning*2. All you need is your laptop and one USB cable to scan and share your documents anywhere, anytime.

- *1 This statement was true based on comparisons of A4 document feed type scanners. *2 The S1100i measures approximately 1/4 the size and less than 1/4 the weight
- *2 The S1100i measures approximately 1/4 the size and less than 1/4 the weigh when compared to the ScanSnap S1300i.

Scans plastic cards and other various document types*

In addition to standard paper types, the S1100i can scan plastic cards like the ones used for membership IDs.

* Card type ISO 7810, ID-1 format = 86 x 54 mm (supports embossed cards)

Dual scan - scanning 2 small sized documents at the same time

With this new feature, you can scan 2 small sized documents such as business card and receipt at the same time. Simply insert documents continuously to the paper feeding entry to greatly reduce your scanning time and lead to increased efficiency.

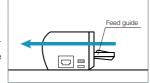

Two selectable paper paths

Switch S1100i's paper output guide to either the folded position for the straight path or the open position for the U-turn path to best suit the document you want to scan.

Straight path

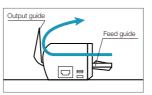

Most suitable for scanning post cards, photos, business cards, plastic cards*, ScanSnap Carrier Sheet (Option), and common office paper.

* This applies to standard ISO 7810 ID-1 card types.

U-turn path

Most suitable for scanning common office paper and you do not need extra space for the document output.

Continuous Document Feeding (CDF Function)

Even though the S1100i is one of the world's smallest document-feed scanners, you can smoothly scan multiple page documents with remarkable speed. The Continuous Document Feeding function allows you to insert pages one after another without any extra button pressing by detecting when a sheet enters and exits the S1100i.

Scanning a two-sided document using the CDF Function

1 Set a page of your document face-up into the S1100i and push the Scan button to start the scanning.

2 The S1100i proceeds to scan the front side of that page.

3 The page exits from the top of the scanner which has its paper path set to the U-turn position.

4 Simply reinsert the same page(which exits face-down) without pressing the Scan button to smoothly scan the other side.

5 After you finish scanning your document, press the Scan button again to end the scanning and convert the data to a PDF image file.

Scans to a greater range of mobile devices

Like all scanners of the ScanSnap series, the S1100i supports wireless scanning to an iOS or Android mobile device or tablet for convenient mobile viewing the mobile app ScanSnap Connect Application

To use the latest ScanSnap functions, download and apply the most recent software update.
 ScanSnap Connect Application is available as a free download from the official application distribution service of the device (e.g., Google Play and Apple App Store). The Wi-Fi of the ScanSnap installed computer must be turned on to use this feature.

Fast and flexible application of scanned data with Quick Menu

After scanning is complete, the Quick Menu appears. Navigate through the Quick Menu's easy to use interface to smoothly send your digitized document to an application of your choice.

Automated features for near effortless scanning

The S1100i features a powerful set of automated image processing functions including Auto deskew, Auto orientation, and Auto color detection. These functions make pre-scan work like sorting pages and changing scan settings unnecessary, so you can scan your documents with minimal effort.

Easily links documents to clouds

You can scan nearly effortlessly to Evernote, Google Docs, Salesforce, Sugar Sync and Dropbox, and then conveniently browse the data from computers, tablets or smartphones - anywhere, anytime.

• Introducing ScanSnap Folder [Windows®]

ScanSnap folder is created in the Windows OS, so you can scan directly to the ScanSnap folder when you select ScanSnap folder in the file attachment selection dialog. In this way, you do not have to save the data in the computer beforehand and the operation is smooth and effective.
