Pricing Overview: FUJITSU Cloud Service K5 for Type 1 and Type 2 Cloud Services is priced on a consumption basis applying the units of measure and rates identified in this price list, as updated from time to time.

These Cloud Services are invoiced monthly in arrears, except where otherwise stated in the Customer Agreement. For Customers, this means that each invoice will cover the charges payable for consumption during the month immediately preceding the month of invoice.   Invoices are payable within thirty days of the date of invoice, unless otherwise specified in the Customer Agreement.

Rates exclude any applicable sales taxes (which are also payable by the Customer) and apply in the event of any usage during a measurement period. If, for example, a Customer uses a Virtual Server for any part of any hour, then the Customer is charged for usage at the Virtual Server type's applicable hourly rate. Rates for monthly units of measure apply for each month that the relevant component is selected, irrespective of the quantity of use during the measurement period. New units of consumption must be purchased for each measurement period.

Terminating or discontinuing use or activation of any of the components comprising the Cloud Services during a measurement period will not relieve a Customer from its obligation to pay the whole unit price for each component.

Over 5,120 TB / month	0.052	0.017	0.017	0.052	0.066	0.066	0.097

Notes

1. Unit price depends on the region where edge servers are located, and the nearest region from each end user is automatically selected.

2. Billing period is from beginning to end of the month when the service is used (UTC). It is charged to K5 user in the second month after the service is used.

3. Help desk charge for CDN will be calculated based on the usage of CDN in the previous month.

4. 1TB = 1024GB

Data Transfer (Per 10,000 Hit Counts per Region)	Japan	North America (includes Mexico)	EMEA	APAC (less Japan, India, Australia, New Zealand)	India	Australia & New Zealand	South America

HTTPS	0.00829	0.00678	0.00829	0.00829	0.00829	0.00867	0.01582

Notes

1. Unit price depends on the region where edge servers are located, and the nearest region from each end user is automatically selected.

2. Billing period is from beginning to end of the month when the service is used (UTC). It is charged to K5 user in the second month after the service is used.

3. Help desk charge for CDN will be calculated based on the usage of CDN in the previous month.

Monitoring

Type	Unit of Measure	Rate
Alarm	Month	0.070
Custom Meter	Month	0.350

Security

Type	Unit of Measure	Rate
Trend Micro Deep Security as a Service	Licence / Month	93.750

PaaS

CF - CloudFoundry

Type	Unit of Measure	Rate
CF - build packs (allocated memory size x run time as GB hours)	Hour	0.040
CF - PostgreSQL Small (1vcpu; 4GB Ram; 20GB Disk)	Hour	0.211
CF - L1 (10GB log/service)	Hour	0.169
CF - M1 (50GB log/service)	Hour	0.688
CF - custom meter (maximum simultaneous use per month)	Month	0.750

Notes
1. Build packs are each metered and charged per hour or part thereof.
2. Build pack charges start to incur from the creation of the build pack / application and end when the application is stopped.
3. Database (PostgreSQL Small) usage is also metered and charged per hour or part thereof.
4. Database charges start to incur from the creation of the application enabling the relational database and end when this service is deleted.

PF

Type	Unit of Measure	Rate
PF mini 2 tier (1 App 1 DB)	Month	612.500
PF mini 3 tier (1 Web 1 App 1 DB)	Month	812.500
PF Small 2 tier (2 App 1 DB)	Month	2125.000
PF Small 3 tier (2 Web 2 App 1 DB)	Month	2562.500

API Management

Type	Unit of Measure	Rate
APIM Pro - The limit of API Calls is 25M for each 3 month period	Month	1575.000
APIM Pro Overage - The additional set of 2.5M calls per 3 month	Month	875.000
APIM Standard - The limit of API Calls is 3M for each 1 month period	Month	525.000
APIM Standard - The limit of API Calls is 10M for each 1 month period	Month	1575.000
APIM Standard - The limit of API Calls is 20M for each 1 month period	Month	2940.000
APIM Standard Overage - The additional set of 1M calls per 1 month	Month	350.000

Notes
1. Where a limit applies, a flat rate is charged permitting calls up to the prescribed limit.
2. Charges apply for calls in excess of that limit during the measurement period at the applicable 'Overage' rates.
3. [Charges start to incur within 3 days from the date of the Customer's application for APIM.]

SF

Type	Unit of Measure	Rate
SF	Month	437.500

IoT Platform

Type	Unit of Measure	Rate

Notes
Please contact your local Fujitsu sales representative for the pricing details before applying for service.

Private Network Connection

Type	Unit of Measure	Rate
K5 Inter Connection - 100M (Reasonable-effort)	Month	0.000
K5 Inter Connection - 100M (Bandwidth-reserved)	Month	125.000
Direct Port Connection - 1G (Reasonable-effort)	Month	343.750
Direct Port Connection - 10G (Reasonable-effort)	Month	750.000

Help Desk

Type	Minimum Monthly Charge	Percentage of Total Spend Charge
Light	37.50	10%
Basic	187.50	10%

Notes
1. Help Desk is charged per contract.
2. Help Desk is charged by higher one of either the Minimum Monthly Charge or Percentage of Total Spend Charge.
3. Total Spend Charge means Total K5 service spend including all IaaS, PaaS and other K5 service.

This price list is correct at time of publishing but subject to change.
A Customer is charged at the most recently published rates applying at the time charges are incurred or as otherwise prescribed by the Customer Agreement.

Version 8.1.4
