

SAP Solutions Duet Enterprise

Duet Enterprise is a first-of-its-kind software solution from SAP and Microsoft that empowers information workers to easily and quickly participate in SAP business processes and share SAP business data via the familiar Microsoft SharePoint environment.

Duet Enterprise, a jointly developed software solution from SAP and Microsoft, provides employees with information quickly and accurately, empowering them to make critical business decisions. To continue to stay competitive, it is crucial that all the members in your organisation have easy access to relevant data. This will enable them to carry out their tasks efficiently, ultimately contributing to the company's success.

Duet Enterprise enables employees in your organisation to seamlessly access SAP data from within their familiar Microsoft SharePoint 2010 environment. If the goal of your business processes is to predict accurate sales forecasts, get up-to-date information on budget availability/utilisation, report current financial status, or simply reducing the burden of the human resources department, Duet Enterprise can help by combining the strength of SAP and the user-friendly interface of Microsoft.

Duet Enterprise enables organisations to:

Improve decision-making

- Brings together the worlds of business productivity applications and enterprise applications
- Provides employees and managers with simple and timely access to relevant, contextual business information

Enable participation

- Empowers information workers to perform more SAP activities themselves
- Enables information workers to more easily follow business policies and processes

Increase effectiveness

- Increases individual productivity
- Improves team collaboration
- Accelerates business processes

Improve insight

- Facilitates access to trustworthy business information for all employees
- Drives business insight from relevant, up-to-date information

Save time and money

- Increases ROI of enterprise software implementations by reducing employee training costs and accelerating user adoption.

Duet Enterprise can enable features such as:

- Time Management
- Budget Monitoring
- Team Management
- Leave Management
- Travel Management
- Reports and Analytics
- Sales Management
- Purchasing Management
- Demand Planning
- Recruitment Management
- Workflow Approvals

Duet Enterprise provides the following capabilities:

- Contextual data integrations for Microsoft Office
- Offline access and data synchronization between Microsoft Office and SAP applications
- Reliable security for data transfer
- Integration of approval processes in Microsoft Outlook (offline, routing, contextual data)
- SAP alert notifications delivered through Microsoft Outlook inbox
- SAP controlled authorisation for data access

Why Fujitsu?

At Fujitsu, we understand the importance of making business information readily available and this is precisely what Duet Enterprise is built for, providing the mechanism for information workers to share SAP business data via the familiar Microsoft environment.

Fujitsu can help assess whether your organisation is ready for a Duet Enterprise implementation by helping you to analyse your existing systems to enable the required features and determine accessibility requirements.

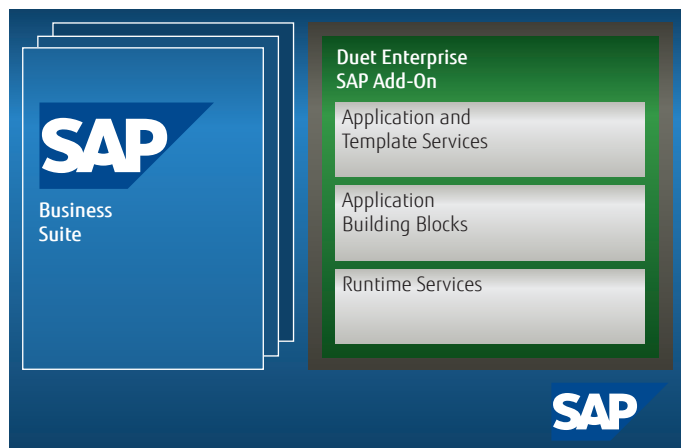

Fujitsu can develop a roadmap for a Duet Enterprise implementation.

Fujitsu can also assemble an implementation team, and design a rollout and maintenance strategy.

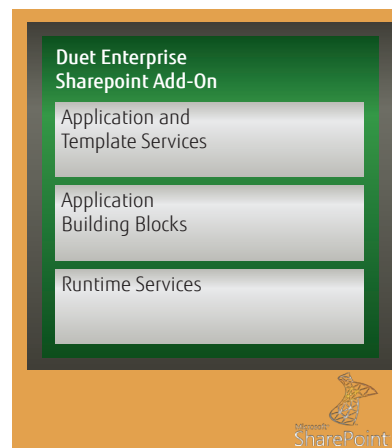

Fujitsu's expertise with SAP and Microsoft technologies will ensure your organisations Duet Enterprise implementation will reap the benefits of Duet Enterprise quickly.
