The offering

Fujitsu PROGRESSION service offering / tool suite (to .NET) offers the best solution to support migration from older systems such as IBM Mainframe®, AS/400®, iSeries, Unisys and HP3000 to Microsoft .NET. Our expertise in legacy system Modernization protects your organization's valuable systems so that our clients stay competitive with cutting edge technology.

Fujitsu rely on our listening skills, ingenuity, and attention to detail to craft your unique solution. The foundation of Fujitsu services is a combination of our experts and solutions to assist you from the initial diagnosis via Proof of Concept (PoC), to fully understanding your needs, to development and delivery, and full support of the total solution.

Fujitsu PROGRESSION offers solution s to revitalize and protect your organization's valuable systems
- Fujitsu offers a Legacy Code to Microsoft .NET (VB, C#) modernization solution that can help you stay ahead of the competition. Databases can be converted to Microsoft SQL Server® 2008 tables.
- Automated conversion executed via our proven tool set.
- This is not a black box solution – we deliver the source code.
- Based on the successful Fujitsu legacy modernization.
- Solution implemented at Washington State Department of Licensing.

Key benefits delivered by the Fujitsu PROGRESSION™ solution includes:

Business logic is unchanged:
You can maximize your investment in your existing applications. No additional Fujitsu software licensing fees or upkeep

Users do not require retraining:
The look-and feel and functionality are consistent with the legacy implementation.

No more hassle with terminal emulation and client-side components:
Migrated applications become web-based.

Now you can embrace change:
.NET enables you to quickly and easily enhance migrated applications; you can leverage a powerful development environment, Visual Studio® 2008, along with a trusted data management system, SQL Server® 2008.
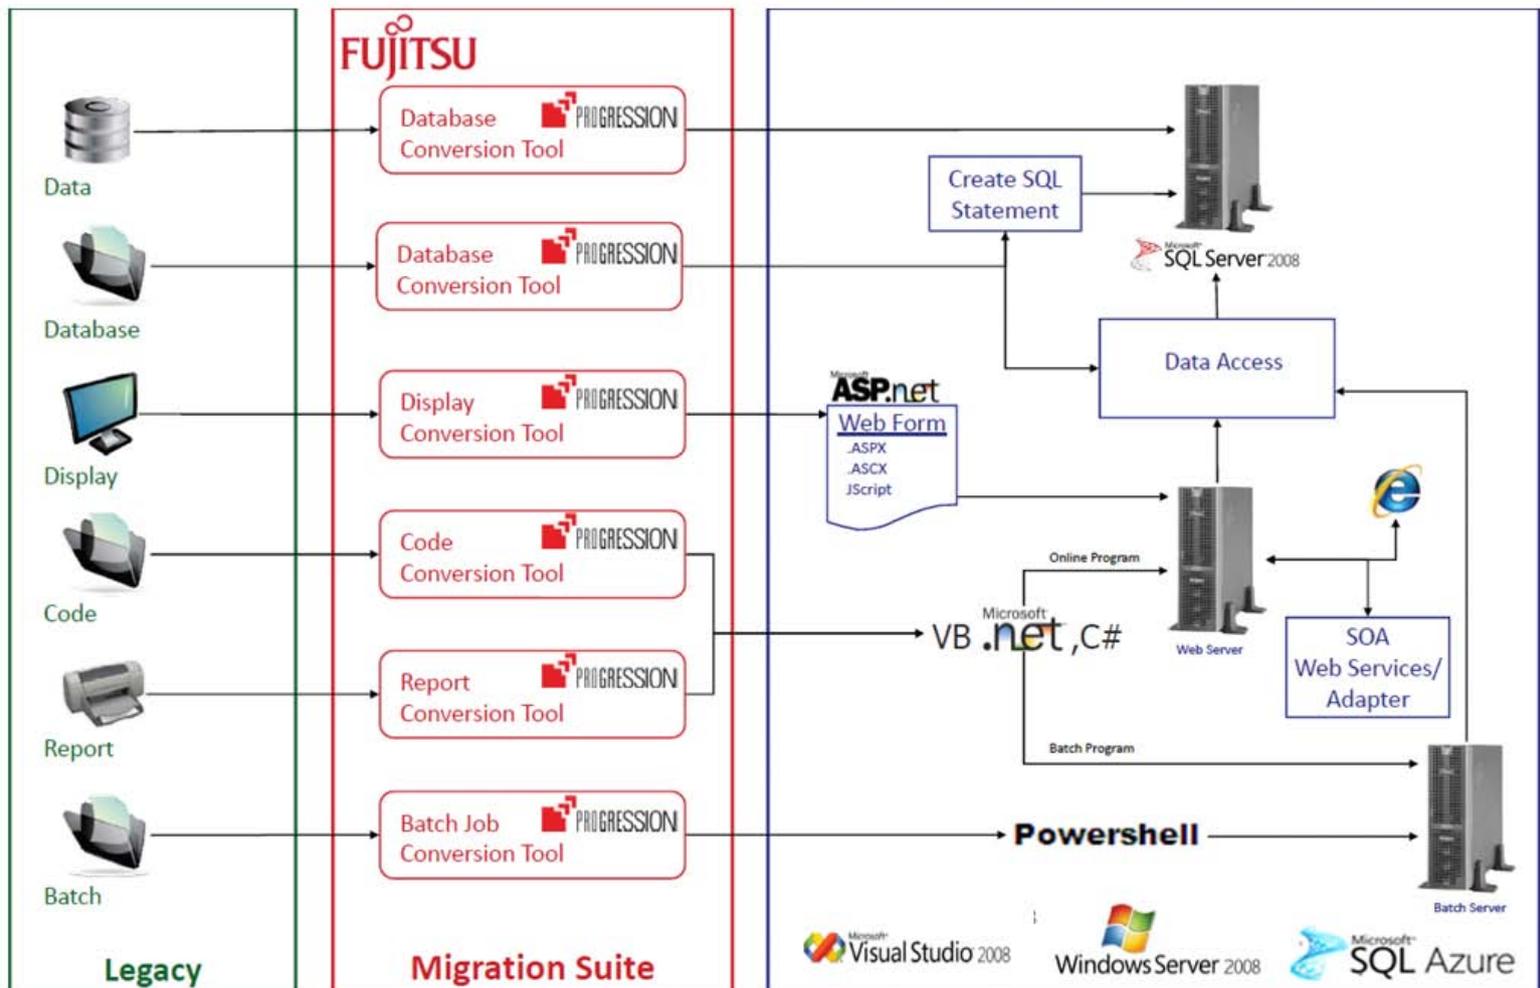

Please Tell Me More?
Fujitsu would be pleased to talk to you further about how we can work together to help you leverage the investments your organization has made in legacy applications.
If you would like to talk to us in person, please send an email to the Legacy Modernization team in your local area. Email addresses are on the final page of this brochure.
Or visit our website and take an online survey.
