

Delivering Fujitsu Solutions

Fujitsu Grants Manager

Benefit from the implementation of a Grants Management solution that will rapidly improve the efficiency of your Grants Management processing, it is easy to implement and maintain and has a clear return on investment. Fujitsu will work with you to determine the most appropriate deployment option for your organisation, based on budget, timeframes and your specific grants processing requirements.

Fujitsu Grants Manager is a total solution for the end-to-end management of your grants process lifecycle.

An online web portal combined with Microsoft Dynamics™ CRM 2011 delivers secure workflow based registration, application, assessment, award and associated management processes. The result is a reduction in time between the application and award, providing a clearer management view of the grant status, results, and outcomes.

Swift ROI

Fujitsu's Grants Manager solution delivers an immediate return on investment (ROI). Deployment is fast; instant value is provided to end users and it is easy to achieve rapid efficiency gains. Costs for on-going maintenance and upgrades are minimal, leading to a low total cost of ownership.

- **Fits your people** – Rich capabilities within familiar Browsers and Microsoft Office experience
- **Fits your business** – Flexible design and process automation with real-time business insight
- **Fits your environment** – Fast to deploy, simple to customise and easy to manage

Key Benefits – Grants Manager

- **Reduced rework** – Validating data as it is entered ensures a greater number of applications can be processed first time
- **Clearer visibility of funding** – Detail and summary reporting on the status of funds and funding is available from the system in real time
- **Auditing and compliance** – All activities, decisions, and modifications to grants data are recorded throughout the grants lifecycle and can easily be accessed for audit and compliance purposes
- **Application status** – Applicants can monitor and review the status of their applications on the portal
- **Security** – Only authorised users have access to the information you want them to see
- **Improved reporting** – Microsoft Dynamics™ CRM 2011 provides powerful easy to use reporting
- **CRM functionality** – As the application is built on the Microsoft Dynamics™ CRM 2011 platform, all standard customer relationship management functionalities are available within the system
- **Application integration** – The application can be easily integrated with other systems such as finance, email and document management
- **Portal integration** – The portal can be implemented with any existing back end grants system
