

High Speed and High Performance 24 Wire Dot Matrix Printer

DL7600

High Speed Printing
High Copy Ability
Straight Paper Path Route(Flat Bed)
Various Paper Path & Several Paper Loading available
APTC and HCPP Function
Various Interface available

Evolving towards perfection

Model Nam			
Printing Technology			DL7600 Pi directional with logical cooking in toxt and graphics made
Print Head			Bi-directional with logical seeking in text and graphics mode
			24 wire, Impact Dot Matrix
Printing columns (10cpi) Speed High Draft Quality			136 column
Speed			864cps (12cpi), 720cps (10cpi)
	Draft Qua		648cps (12cpi), 540cps (10cpi)
	Report Q		432cps (12cpi), 360cps (10cpi)
Letter Quality		ıality	216cps (12cpi), 180cps (10cpi)
Resolution			360 x 360 dpi (Maximum Graphics Resolution, Under ESC/P Emulation only)
Copy Ability			Original + 7carbonless copies (At High Copy Mode: Original + 8 carbonless copies)
Max. paper thickness			0.65mm (0.256")
Paper Continuous Form			Push tractor - Front in, Rear out; Rear in, Front out
feeding	Cut Sheet		Front in, Front out ; Front in, Rear out ; Rear in, Front out ; Rear in, Rear out
Line Feed Speed			50ms per 1/6" line
Form Feed	•		12" per second continuous feed
	-	h function	Manual/Auto
Continuous Form/Cut Sheet switch function Paper thickness adjust function			
	1		Manual/Auto
Paper	Cut Sheet	Width	55~420mm (2.2 ~ 16.5 inch)
		Length	70~297mm (2.76~11.69 inch), 70~420mm (2.76~16.5 inch) for Large Cut Sheet Table
	Continuous Form	Width	102~420mm (4.0~16.5 inches)
		Length	Over 102mm (Over 4.0 inches), Over 127mm(Over 5.0 inches) for Rear Tractor
Interface	Parallel		IEEE1284 Nibble Mode
	USB		USB Ver.1.1 (TYPE B)
	Serial		RS232C 25pin
	LAN(Optional card needed)		'
Family 1-2	LAN(Optional card needed)		10BASE-T, 100 Base-TX , TCP/IP Protocol,
Emulation			Fujitsu DPL24C PLUS, Epson ESC/P2, IBM®XL24E,
Printer Drive			Microsoft Windows Driver Available

♦High Speed - 864cps at HDQ

High Speed Printing, 864cps is achievable.(12cpi, High Draft Quality)

♦ High Copy Capability - 9-sheet Copies Available

Print the original and up to 8 further sheets at the same time in High Copy Mode.

◆Straight Paper Path Route (Flat Bed) - More Accurate Line Feed

The Straight Paper Path Route enables paper to be fed more smoothly. As the paper does not need to be bent, there will be no discrepancy between the top and bottom sheets of multiple copies and therefore LF Accuracy is improved.

◆Various Paper Paths - Suitable for any printer setting circumstances lable. Utilizing multiple paper paths enables the user to effectively optimize the environment best suited to paper in and out settings, including the ability to select table size.

Continuous Paper With Tractor

A sheet of paper with Cut Sheet Table and Rear Stacker

A stack of sheets with Cut Sheet Feeder and Rear Stacker (Cut Sheet Table necessary)

◆Several paper loading inputs are available at the same time with options Depending on the print usage, a maximum of 4 paper feeds can be set at the same time. Additionally a Tractor and Cut Sheet Feeder (CSF) can be set on the front and/or the back of the unit so that either option can then be comfortably used in either position.

One Cut Sheet Table + One CSF (Back) + Rear Stacker Two Tractors (Front&Back)

One Cut Sheet Table + Two CSFs (Front & Back) + Rear Stacker + One Tractor (Back)

Cut Sheet Table (Large)

Cut Sheet Table (Small)
