About Smart Field Service

Smart Field Service is a packaged solution made up of three components **Create / Support / Enable** delivering information and data to workers as well as improving efficiency via knowledge databases.

Offering Components

Create

Fujitsu Amplify Authoring Tool	Enables the creation of intelligent work flows consisting of augmented reality (AR) scenes together with situational video, images and documentation, via an intuitive design interface on a tablet device
IoT Integration	Live data can be streamed from IoT devices and integrated within augmented reality scenarios via the authoring tool

Support

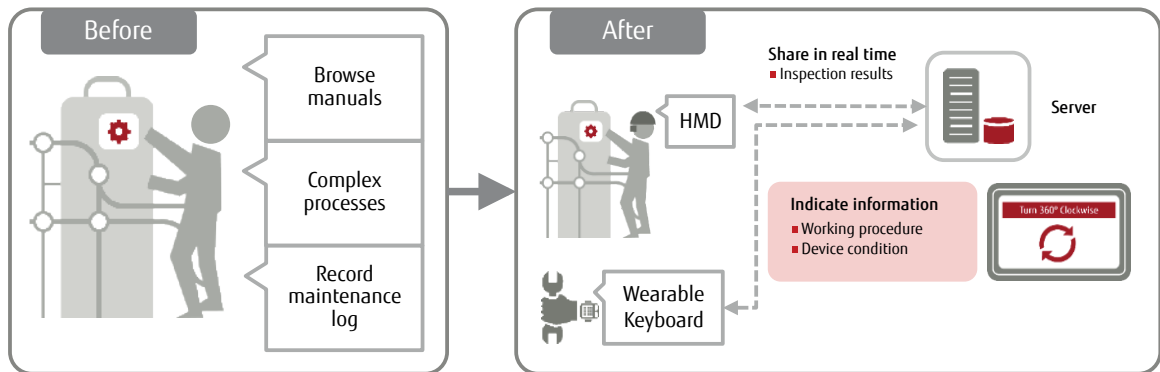

Fujitsu Amplify Remote Support Client	Video Streaming	Stream live video between users/colleagues
	Audio Call	Voice calling between colleagues
	Image/Video Capture Transfer	Send images or videos to the remote support client which can be annotated and returned to the user
Integration		Integrate with your current business applications

Enable

Fujitsu Head Mounted Display (HMD)	Consists of an adjustable non-see-through display positioned in front of either eye, wearable keyboard, integrated camera and voice control/command. The HMD device contains a variety of sensors to detect the users' environment and behaviour. Specifically designed for enterprise comprising of large replaceable batteries and robust, waterproof design. (MIL -810 standard)
Fujitsu Amplify Augmented Reality Client	The client drives the intelligent and supportive work processes, enables access to augmented reality (AR) content as well as situational videos, images and documentation stored in the cloud, facilitates the bidirectional flow of data and enables hands free application

An Industrial Use Case

About Fujitsu

Fujitsu is the leading Japanese information and communication technology (ICT) company, offering a full range of technology products, solutions, and services.

Approximately 159,000 Fujitsu people support customers in more than 100 countries.

We use our experience and the power of ICT to shape the future of society with our customers. Fujitsu Limited (TSE: 6702) reported consolidated revenues of 4.8 trillion yen (US\$40 billion) for the fiscal year ended March 31, 2015.
