Removing barriers to digital transformation

Fujitsu RunMyProcess is a unique cloud platform that enables hundreds of leading companies in over 45 countries to remove the technology barriers to digital transformation. Our innovative platform empowers our customers to rapidly create, deploy and distribute highly customised enterprise and mobile business applications designed to meet their specific needs - unifying user experiences, connecting silos of information, reducing time to value and enabling digital scale.

DISCOVER HOW WE ENABLE
MORE FLOW WITH LESS WORK

Unifying Digital Experiences

We transform work styles and enable new mobile business models by delivering applications that seamlessly follow users across all of their devices as they go about their day – all accessible via highly customisable Enterprise Process Stores.

Connecting Digital Services

We accelerate business outcomes and improve satisfaction by connecting people, systems and data in real time – all thanks to sophisticated API management and a library of over 2,500 connectors spanning on-premise and cloud environments.

Delivering Digital at Speed

We empower organizations to deliver and adapt their IT systems at the speed of business change, reducing time to value and supporting continuous, data-based improvement – all via the rapid creation, distribution and evolution of agile, connected systems.

Enabling Digital Culture

We accelerate organizational transformation by empowering business users to deliver, test and reshape digital processes at the edge of the organization – all powered by a single governance, development and scaling framework in collaboration with IT.
