

Fujitsu Government Cloud Services Audio Visual Services

> [view on Digital Marketplace](#)

Rich multi-media content and lifelike teleconferencing aid understanding and collaboration, bringing your people together and making them more effective. Finding and running the best equipment and services can be a headache – but not if you let Fujitsu's experienced team take the strain. Our cloud-based AV services come in standard, pay-monthly packages, with full bespoke services available to meet any need.

Fujitsu delivers every kind of AV requirement, from the smallest classroom or meeting room to fully controlled lecture theatres, conference facilities, video walls and boardrooms. We offer a complete solution from project conception through design, project management, installation, commissioning and maintenance. And with remote access flexibility, you can stream any integrated system to multiple AV points.

What is it?

- A **cloud-based Audio Visual service** to a 50 inch 3D Smart TV with built-in WiFi, bringing high quality AV to your premises
- **Five additional solution packages:** Standard Classroom, Advanced Classroom, Interactive Classroom, Conference Room and Lecture
- **Bespoke solutions** for every kind of environment and business activity, from public area displays and content players to digital signage – even specialised furniture built to your needs.

The benefits of Audio Visual Services

- **No cost or commitment** for advice or site surveys
- Our experts are ready to meet **any requirement**, large or small, urgent or scheduled
- **Reduce infrastructure** costs by using one site wide distribution node
- Multi user, **browser-based management** control with ability to limit access to functions by zones and users
- Ideal for sharpening your communications, **encouraging collaboration** and modernising your image
- The very best equipment and services delivered by skilled, experience staff – at a **fixed monthly cost**.

Why Fujitsu?

- Fujitsu has a wealth of knowledge within the Audio Visual industry and consistently supplies state of the art technology to customers of all kinds
- All Fujitsu installations are compliant with British Standards BS 8590:2014 – Code of Practice for the installation of Audio-Visual Equipment (formerly PAS 122:2009 – Specification for installation of audio-visual equipment in classrooms and general publicly accessible areas)
- Fujitsu is an ISO/IEC20000-1 conformant supplier, and deploys, manages and continually improves service management processes underpinned by standard technologies
- All of our customer facing sales and technical employees are security cleared to at least SC level, as are the engineers who will complete the projects.

Pricing

Fixed according to package type – see table below. The minimum service term is two years. All prices exclude any additional expenses and VAT.
