

Fujitsu Government Cloud Services

Fujitsu Messaging

Microsoft Exchange is the leading messaging software, with robust and mature features that serve complex organisations well. Hosting and managing such a service, as well as the storage requirements, can become a challenge – and one that detracts from your core activities.

Fujitsu's MaaS-G Service, hosted with Microsoft Exchange 2010 on our secure, UK-based server and storage infrastructure, will meet all your email requirements with economy and flexibility.

What is it?

- Individual mailboxes with 300 Mb storage as standard, expandable to 25 Gb, with group shared mailbox option.
- Easy access from Outlook 2010, 2007, 2003SP2 and Web App.
- All data held in UK to ensure residency compliance.
- Optional archiving for user and audit purposes, legal discovery and hold functions, and Blackberry support.

The benefits of Messaging as a Service for Government

- **Choose from** Gold, Bronze Plus, Bronze and Shared packages.
- **Add and remove** mailboxes simply and efficiently.
- Create inbox **rules** and delegate **access** (automatic forwarding).
- Standard monthly and ad hoc **reporting**.
- Includes second-line **helpdesk** in office hours.
- **Service availability** of 99.9% for single site option, 99.99% for multiple site hosting.
- **Backup and recovery**.

Why Fujitsu?

- Our best-in-class data centres are well established and designed to deliver enterprise-standard services.
- We have highly skilled and dedicated staff who are continuously monitoring and improving the performance of our systems.
- Fujitsu has been reshaping ICT in the public sector for many years, and pioneered the use of shared services in Government.
- As one of the world's most experienced ICT providers, Fujitsu is combining innovation with responsible business practices to transform business and create a better future for everyone.
