FUJITSU Document Scanner

fi-6670/fi-6770

Color Duplex Document Scanners

Intelligent scanning for
an intelligent office.

- Fast scanning — up to 90 ppm/180 ipm in color or monochrome, landscape

- Ultrasonic double-feed detection with advanced control

- Loaded with "intelligent" functions for more efficient scanning

- Automatic Image Cleanup with PaperStream IP drivers (TWAIN & ISIS)

- Advanced PaperStream Capture Software

- Scanner Central Admin Software for fleet management

- Service options to fit specific requirements and budget including Next Business Day, 4-hour or 24/7 contracts available

Color Duplex Document Scanners

Increase efficiency in production environments with advanced scanning intelligence and high reliability.

Designed with outstanding paper handling, fast scan speeds up to 90ppm/180ipm and intelligent productivity enhancement features, the Fujitsu fi-6670 and fi-6770 scanners deliver the automation and dependability needed for mission-critical production scanning applications. In addition, innovative features such as an intelligent multi-feed function drastically improves the batch scanning process by allowing the ultrasonic double-feed detection sensor to be trained to ignore intentional overlapping documents such as photos in insurance, patient label stickers in healthcare and taped-on receipts for accounting expense reports.

The fi-6x70 Series scanners come bundled with an assortment of valuable software tools and applications such as PaperStream Capture as well as PaperStream IP. PaperStream contributes to decreased deployment costs and improved interoperability with complimentary hardware and third party software solutions.

In keeping with the Fujitsu tradition, the fi-6x70 Series is the latest to adhere to the strictest of environmental regulations including Energy Star, Reduction of Hazardous Substances and Volatile Organic Compound to better our environment. Transform your paper documents into useful electronic data in a flash with the intelligent scanning features of the fi-6670 and fi-6770 production scanners.

Fleet Management.

Scanner Central Admin provides IT departments an efficient way to manage medium to large scanner deployments. With remotely accessible fleet information, IT departments can now allocate resources effectively based on scan volume, consumable wear, depreciation schedules and maintenance expiration.

Service and Support programs to fit your needs and budget.

The fi-6670 and fi-6770 scanners include a 90-day on-site, Limited Warranty. For full details on the Limited Warranty and on all service programs, go to www.ImagingService.com or call (800) 301- 9475.
