Clean Desk

Ideal for all sectors

Fujitsu Clean Desk is a modern workplace concept that integrates the latest technologies in a shared desk environment, creating maximum flexibility for employees.

- Classic two screen system with flexible arms and monitors
- Adjustable, versatile monitor arms support 90° of rotation and can be extended to optimize screen positions and save space
- Easily reversible, modular, retrofit table for a perfect flexible workplace
- One cable for both power and data delivery with a vendor independent USB Type-C™

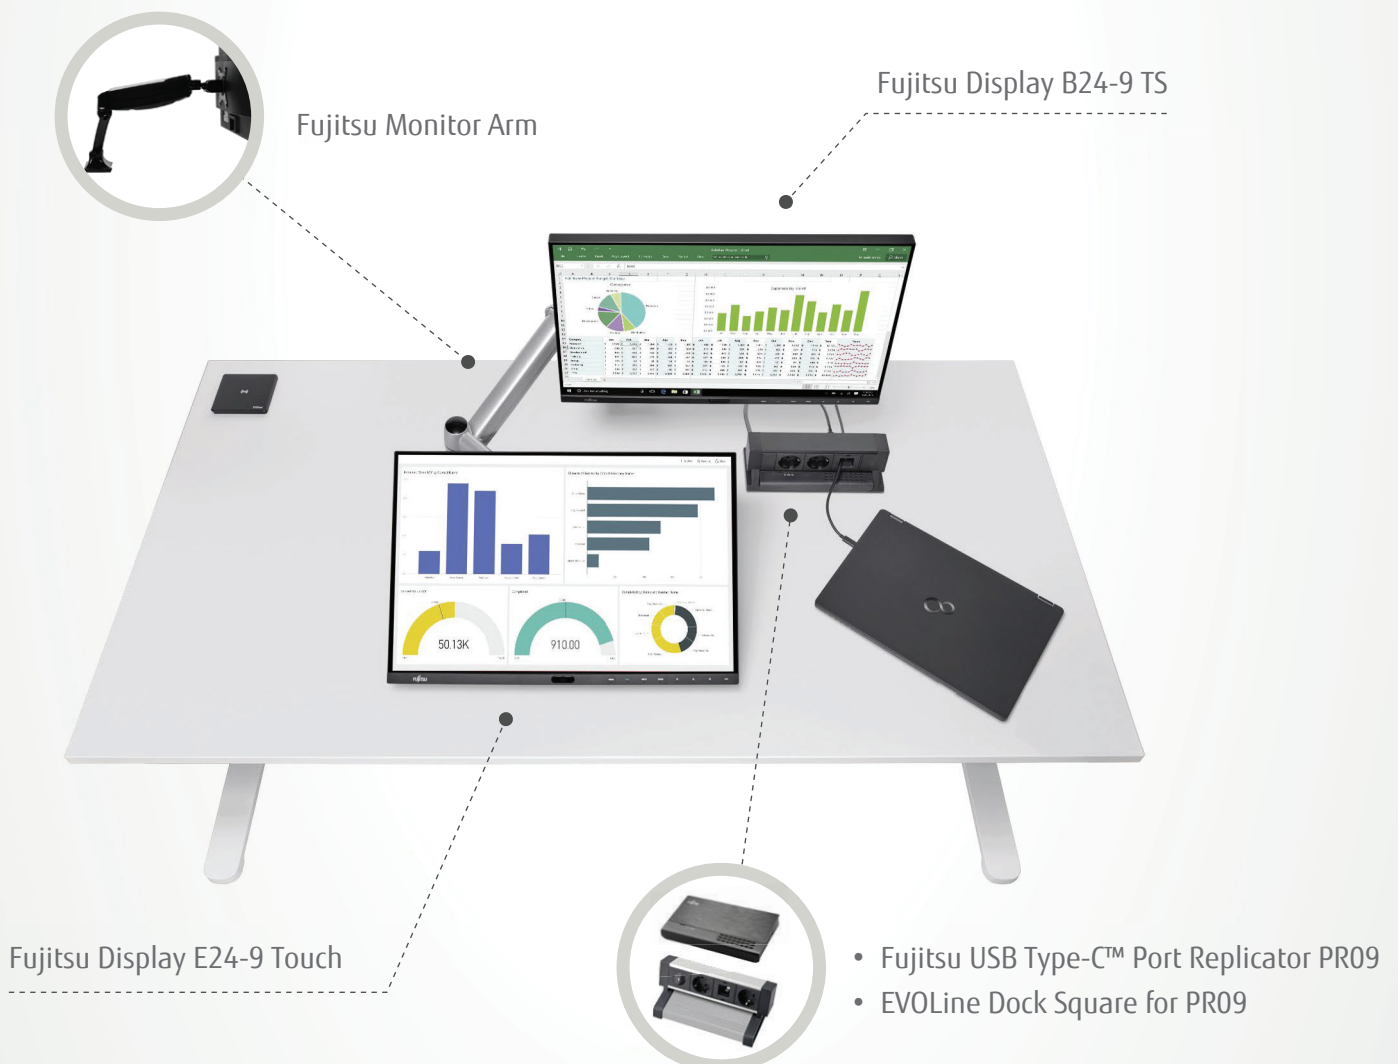

Clean Desk Justice

Flexibility and ergonomics at the highest level

Fujitsu Clean Desk Justice is an efficient and ergonomic workplace solution that facilitates the trend towards modern paperless working styles. Designed and precisely tailored for the legal profession, the solution adopts a touch-based display and ergonomic design with smart variability for dynamic team collaboration. Not only for justice, also perfect for all customers with document handling issues, eg. banking.

- Combination of a standard screen and a touch screen with pull mechanism for a flexible working environment
- Monitor arms can be rotated 90° and extended for smart variability
- Adaptable ergonomic design for easy editing of electronic documents on touch screen
- Perfect for users with substantial document handling requirements

Clean Desk Easy

Highest quality at lowest price level

A flexible and cost-effective approach for modern workplaces that adapts to individual users and new digital working styles.

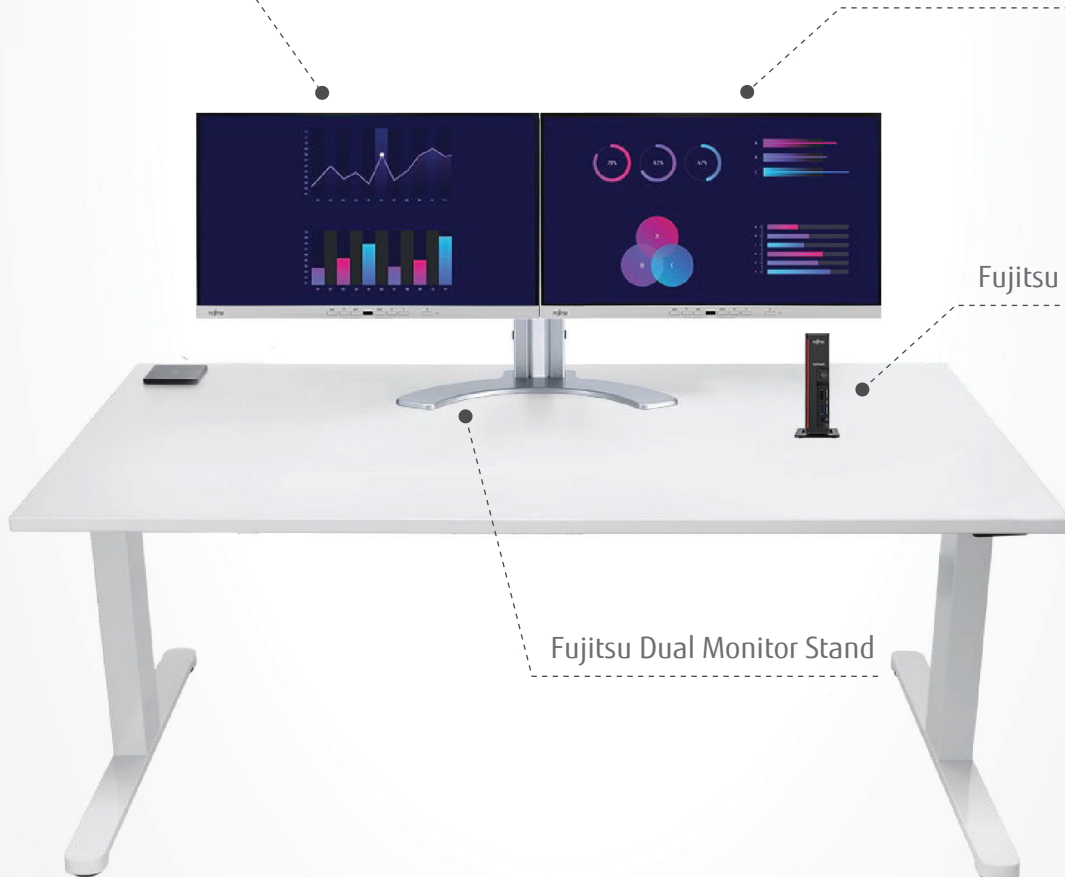

- Two monitor system with significant cost and space savings
- Using a single USB Type-C™ cable to synchronize on/off power between display and the PC
- Simple wiring of components and monitor connections supported through DaisyChain systems
