**Copilot centre of
excellence**

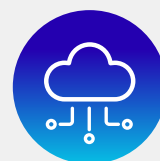

**AI design
expertise**

**Secure cyber
foundation**

**Modern
workplace
end-to-end**

**Rapid Azure
migrations**

Fujitsu Digital Acceleration Services have demonstrable experience in every Microsoft practice. Our solutions are secure and great to use, providing rapid and tangible value to your users and your stakeholders.

Our trusted Microsoft partnership is all about helping businesses make the most of today's digital tools, with expert guidance and support to ensure you get the most from your Microsoft investment.

Azure

Azure is no longer just a platform, it's an entire ecosystem. We help you assess, plan, migrate, manage, and optimise your cloud infrastructure, enabling you to tailor and scale your operations to innovate faster. We measure our deployments in weeks not months. Our Azure experts ensure your cloud environment is secure, efficient, and cost-effective.

Cyber Security

The bad guys don't stop, and neither do we. Our Cyber Security services protect against cyber threats, ensuring your data and systems stay safe. We offer comprehensive security assessments, threat detection, uplift services and incident response services to safeguard your business.

Data & AI

Enhance your operations with Fujitsu Data & AI, accelerators and tailored offerings. We implement and customise services and platforms to meet your unique business requirements, ensuring seamless integration with your existing systems. We also offer ongoing support to maximise efficiency and drive business growth. Make your data work for you.

Modern Workplace

Staying connected and productive is crucial. Empower users with Modern Work solutions leveraging Microsoft 365 to create a seamless and collaborative work environment. From productivity tools to advanced communication platforms, we ensure your team can work securely from anywhere, at any time – whilst enhancing their efficiency with Copilot for 365.

Proven track record of success

Fujitsu has a proven track record of delivering successful outcomes. Our Azure Expert MSP status, independently assessed annually, proves our ability to deliver on a local and global scale. From cyber to Modern Work, Azure to Security services, AI to Business Applications, let us share our experience with you to get what you need from your Microsoft investment, faster.

Experience the synergy of a partnership where your vision is our mission, and your success is our masterpiece. Together, let's accelerate into a future where your potential is unlimited, and every digital aspiration is within reach.
