

Fujitsu Cyber

Proactive, around-the- clock protection

Our **SOC** and **SIEM** services are designed to provide peace of mind, knowing your critical systems are continuously monitored and safeguarded by the best.

24/7 eyes on glass

Continuous threat detection, monitoring, and response with dedicated threat hunting teams.

Advanced detection

Utilising machine learning models and behavioural analytics for precise threat identification and mitigation.

Comprehensive reporting

Monthly, anonymised SIEM reports keep you informed and in control.

- ✓ Endpoint Managed Security
- ✓ WAF and DDoS Protection
- ✓ Managed Detect and Respond
- ✓ Vulnerability Management
- ✓ Managed EDR
- ✓ Managed SIEM
- ✓ Email Protection Services
- ✓ SASE
- ✓ Perimeter Network Security
- ✓ Cloud Access Security Broker (CASB)

Global reach, local expertise

Backed by over 40 years of cybersecurity leadership and a global network of 1000+ experts, we offer tailored solutions that adapt to your specific security needs.

Real-time incident response

87%

Average response times improved by over 87% after partnering with Fujitsu, significantly reducing triage, investigation, and remediation times.

Proven expertise

Our SOC provides 24/7 threat monitoring, real-time incident response, and advanced threat hunting, leveraging AI and automation for faster detection and remediation.

Minimised risk

Our proactive monitoring and threat hunting programs protect against the latest attack techniques and vulnerabilities.

Continuous improvement

We ensure constant enhancement of your security posture through ongoing configuration tuning and intelligence-led insights.

Tailored solutions

From Elastic SIEM to Microsoft Sentinel, our SIEM services are customised to your business needs, offering scalable and high-performance security analytics.

Trusted by government and enterprise customers

Fujitsu is recognised across government panels and supports over 80 global clients from purpose-built facilities.

We recently undertook an analysis of our response time for one of our largest customers.

Pre-Fujitsu

- Average triage **60 mins**
- Average investigation **120 mins**
- Average remediation **360 mins**
