Reimagine Your Business

The shockwaves of COVID-19 have been felt across the world. Both business and society were unprepared for the crisis, and the pandemic has unearthed fundamental vulnerabilities.

Peoples' health, their daily lives, business activities and entire national economies have been severely impacted.

We are not out of the crisis, and we don't know how long it will take.

But as we recover, our thoughts turn to how the world will look and how we respond as businesses.

The crisis has caused us to question many of the very assumptions that most of our organizations have been built on; for instance, that people must be physically co-located, or that efficiency means centralization.

Businesses need to reimagine how they work. What is the new customer relationship? What is the employee experience? And how does the organization function, from its supply chain to its business model, to how it provides security and wellbeing?

Fujitsu helps you reimagine your business and make it a reality.

Reimagine workplace safety & daily operation: "People Interaction Safety"

Fujitsu believed that people safety is top priority to sustain business to move forward. Thus Fujitsu endeavors to provide People Interaction Safety solutions to assist all our customers in support their business continuity plans. We also understand our customers' key pain points relating to this Covid19 pandemic outbreak as follows::

Key Questions:

- » How to keep workers/visitors social distancing?
- » How to control human density in premises?
- » How can we daily capture our workers health condition?
- » How can we management our visitor?
- » How to improve to contactless operations?
- » How to do contact tracking

New Normal Scenario - People Interaction Safety

Worker Healthcare

- Provide health safety awareness to customer and also employer that the worker is maintain in healthy condition
- Worker would daily report their health situation

Contactless Premises Visitor Check-in

- Every visitor has to register their name, contact and declare no infection contact history
- Every visitor has to do health screening before entering premise such as fever scan, wearing mask

Congestion Management

- To prevent crowded in area and avoid close contact of people, there would be restricted density of people in premise

Physical Distancing

- Each individual have to keep 1 meter distance in door and 1.5 meter distance outdoor

Contact Tracking

- On job worker should remain distance between each other. Worker that has close contact should be traceable
- Premises and business owner should able to provide visitor list for traceability

Fujitsu People Interaction Safety Solutions

Automate Health Screening

To provide contactless and automated screening of human body temperature. At the same time detect proper face mask is on before entering premises.

Virtual Door Assistant

To assist & manage visitor that entering premises. To support social distancing control and contact tracing of visitor & employee in workplace.

Congestion Management in Building

Using AI technology to detect the number of crowd inside building. Real time control the density of people in the area to prevent high volume of close contact people.

End to end support

Solution Overview Structure

How we can help

These services assess your readiness, provide helpful guidance and initiatives, and look at the long term impacts so your workforce can work safely and your organization can thrive.

Our experts assess your workforce, taking into account your work styles, infrastructure, customer needs and culture. We'll look at how work gets done, who does it, where and if this can be done remotely. This will assess your readiness. We'll provide our unique visual map showing the activities needed to address any gaps and a clear plan of action.

 **Rapid Assessment**

We help you see your customers' challenges in a new light. We do this with something we call our Human Experience Design method. It's about finding the most innovative use of technology to serve your customers at this time.

 **Ideation**

 **Rapid Solution Implementation**

We have a range of end to end solutions and fulfill customer needs. These include up skilling, which we can deploy in a matter of days, to improve company's daily operation and workplace safety.

Workforce Enablement

We provide you with a complete assessment of your workforce and help you build a plan for innovation upskill of daily operation. This will help your workforce be more agile, creative and have the right digital skills needed to support your customers in these uncertain times. So they can be their brilliant best.

It's time to change – We are there for you!

Fujitsu is committed to offer more safety, creative, empowered workplace, in which people from all generations can do what they need and want to do how and where they want to do it.

When working with you to transform your business, we wouldn't just look at technology.

We'd look at every core element needed to achieve a successful digital transformation. Taking an outcome-based approach enables us to deliver immediate value and, by providing unbiased and industry - specific guidance, we can advise you on how to optimize your technology investments – whatever your business needs.

If you'd like to talk to us about how we can work together to transform your workforce in this "new normal world" , please contact to [country sales representative](#) anytime.
