Make IT Dynamic READY VDI with Hyper-V

Virtual desktop infrastructure (VDI) can revolutionize your company's IT by enabling a virtual desktop to be accessed from any kind of device. However, an appropriate infrastructure may not be in place in all companies. This Fujitsu VDI Bundle makes it easy for you to switch to a virtual desktop infrastructure environment. It is best suited to small and medium-sized offices running a standard application environment and it skips lengthy technical consultations. The server and software are pre-configured and pre-installed; thus they are perfect for you if you do not have the resources for a complicated overhaul of your IT landscape but want to experience the VDI revolution.

Your advantages

- Run the Windows operating systems that best meet your needs
- Connect to your virtual desktop using a thin client, PC or tablet, regardless of its platform, and roam between devices
- Access your individual desktop, wherever you are
- High availability ensures and provides the best user experience
- Scalability and extensibility in small investment steps

Our offer

The Fujitsu Scalable VDI Bundle M for Microsoft Hyper-V offers the VDI revolution in one package. It starts with 14 virtual desktops and can be extended to 42 virtual desktops. This gives you the flexibility to adapt it to your current needs and leaves room for future expansion.

- Start package: 2 Fujitsu PRIMERGY MX130 S2 micro servers providing affordable, uncomplicated, reliable server technology in an ultra-compact housing
- Microsoft Hyper-V Server 2008 R2 SP1 pre-installed, including 5 Client Access Licenses (CALs) per server
- Fujitsu VDI Manager for Fujitsu FUTRO Thin Clients and all other clients capable of RDP
