Features:

ScanSnap
Color Image Scanner

Quickly and easily digitize various document types!

Scan 15 double-sided pages per minute:

In one step, the ScanSnap™ fi-5110EOX digitizes both sides of a document in a single pass, in color, and at an amazing speed of up to 15 pages per minute.

Automatically eliminate blank pages:

Since ScanSnap automatically recognizes and eliminates blank pages, each scanning job progresses smoothly, even when scanning combinations of one-sided and two-sided documents.

Simple installation and operation in a compact design!

Easily install the ScanSnap via its Hi-speed USB 2.0 interface. Furthermore, the small footprint of the scanner is ideal for even the most crowded of desktops.

Data reduction with automatic color detection:

ScanSnap automatically separates color documents from black and white ones and saves this information in highly compressed files, thus saving storage space.

Automatic de-skew, image rotation and paper size detection:

ScanSnap automatically straightens and aligns text and images into their correct orientation and also automatically detects the following paper sizes (A4, B5, A5, B6, A6, Business Card, Legal and Letter).

PDF Thumbnail Application (PDF Thumbnail View):

"PDF Thumbnail View" permits you to view miniature versions of the images you have scanned in Windows Explorer. It enables you to confirm the contents of a PDF image without engaging the Acrobat software.

Advance Exchange maximizes uptime:

The ScanSnap fi-5110EOX is covered by a one-year Limited Warranty. An upgrade to the Advance Exchange program (sold separately) is also available to eligible purchasers. For full details on the Limited Warranty and on all service programs, go to www.ImagingService.com or call (800) 626-4686.
