

4. ScanSnap Installation

Installing ScanSnap Hardware

For Windows Vista

- When "Found New Hardware" window appears, Select "Locate and install driver software (recommended)".

- On the "User Account Control" window, click the [Continue] button.

- On the "Windows Security" window, select "Install this driver software anyway".

- The ScanSnap is added to your computer as new hardware.

For Windows XP

- When [Found New Hardware Wizard] window appears, select "No, not this time" and click the [Next >] button. (The window below only appears when the Service Pack 2 is installed.)

- Then select "Install the software automatically" and click the [Next >] button.
- When [Hardware Installation] appears, click the [Continue Anyway] button. The window to notify completion of installation appears.

- Click the [Finish] button when the installation is completed.

Notes:

- Adobe Acrobat 8.0 is supported by Windows XP (Service Pack 2 or higher).
- Adobe Acrobat 8.0 support for Windows Vista. Customers can install and run Acrobat 8 today with some known issues. Adobe expects to release a free patch for Windows Vista support via download in the first half of 2007. (To find out more about these issues, visit www.adobe.com/go/support and search on the keyword Vista in the Adobe knowledgebase).
- Only use the cables supplied with this product. Use only the provided USB cable, AC cable and AC adapter.
- Once the scanner is detected the "ScanSnap Manager" icon in the task tray is displayed as . If the icon remains as , restart the scanner by pressing the [POWER] button on the scanner.
