Using F1 Impregnated Cleaning Wipes

1. **Pad Assy**
   - Wipe downwards. When cleaning take care to prevent the cleaning wipe from catching on the metal parts.

2. **ADF Glass Surfaces x 2**
   - Located on the ADF cover and opposite side. Clean lightly.

3. **Pick Roller**
   - Clean lightly taking care not to scratch the surface.

4. **Plastic Rollers x 4**
   - Clean lightly while rotating with your finger. Take care not to roughen the surface.

**BEFORE CLEANING**
Open the ADF while pressing the cover open button.

**Turn the Scanner OFF while cleaning the following locations**
Open the ADF only if the Function Number Display is showing “1” through “9”.

Simultaneously hold down the “Send to” and “Scan” buttons on the operator panel. The Feed Rollers will start to rotate slowly.

As a guideline, 7 presses of the “Send to” and “Scan” buttons make the rollers rotate one full turn.

**Feed Rollers x 2**
Clean lightly taking care not to roughen the surface.

**Eject Rollers x 2**
Clean lightly taking care not to roughen the surface.
