

LifeBook C1211D

- Brilliant SuperFine LCD display for excellent movie-viewing
- Multi interfaces for peripheral connection - four USB 2.0, PS/2, Serial, Parallel and two PC Card slots
- Seamless wireless connection with Super AG™⁶ 802.11a/b/g⁷

C1211D Recommended Configuration	
Platform	Intel® Pentium® M Processor 725 (1.60GHz, 2MB L2 cache, 400MHz FSB)
OS Supported	Microsoft® Windows® XP Home Edition Microsoft® Windows® XP Professional Edition
Display	15" SuperFine XGA TFT, 1024 x 768 pixels
Graphics	Integrated Intel® Extreme Graphics 2 with DVMT ² delivers low-power, high-performance 2D/3D graphics, video, and display capabilities at a maximum shared memory of 64MB.
Fixed Optical Drive	DVD/CD-RW Combo Drive
Memory	256MB
Hard Disk	60/40GB
Battery ⁵	Up to 5hrs ¹ (8-cell Li-Ion 4800mAh) Up to 2hrs ¹ (4-cell Li-Ion 2000mAh)
Weight	Approx. 3.24kg (w/4-cell battery)
Specifications	
Chipset	Intel® 852GM
Secondary Cache	2MB
Max. Memory Supported	1024MB DDR266
Hard Disk Drive	Ultra DMA/100 and S.M.A.R.T support
Audio	RealTek ALC203 AC97 codec with built-in dual Stereo Speakers
Communication	56K V.92 ³ modem, 100/10Mbps ⁴ Fast Ethernet and Super AG™ ⁶ Wireless network connection 802.11a/b/g ⁷ with Dual Antenna. Separate ON/OFF switch for wireless network connection.
User Interface	Keyboard: 84-key, 19mm key pitch, 3mm key stroke Touch Pad with Scroll Buttons
Card Slot	PC Card Type I/II x 2 or Type III x 1
Connector Interface	USB 2.0 x 4, VGA (external display), RJ45 (LAN), RJ11 (modem), PS/2 (keyboard/mouse), Serial, Parallel, Headphone-out, Microphone-in, Power Adapter DC-in
Dimensions	333mm (W) x 285mm (D) x 35.2mm min. (H)
Bundled Accessories	
AC Adapter	Input AC 100 ~ 240V, Output DC 19V 60W
Bundled Software	CyberLink PowerDVD™, Sonic RecordNow™ DX, Sonic DLA, Adobe Acrobat Reader 6.0, Fujitsu Hardware Diagnostic Tool
Software on CD	Norman Virus Control & Norman Personal Firewall

The above information shows the general technical specifications of the product and does not represent actual configuration. For specific configurations and their availability, please check with your local distributors.

- ¹ Results obtained from Ziff Davis (BusinessWinstone 2001) Battery Mark V1.0.1 performed on systems with maximum battery life settings. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences. Modular Bay devices or hard drive usage may also have a significant impact on battery life.
- ² Dynamic Video Memory Technology (DVMT) dynamically responds to application requirement and efficiently allocates the proper amount of memory (max. 64MB) for optimal graphics and system performance. The memory size available to the Operating System will be less than the size of installed memory module.
- ³ Maximum 56Kbps performance varies according to your local service providers' services as well as line condition. V.92 performance is dependent on local service providers' services.
- ⁴ This term does not represent actual data rate of 100/10Mbps and simply indicates compliance with IEEE 802.3 and IEEE 802.3u standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.
- ⁵ Configurations vary from country to country. Please check with your local distributor for the bundling of actual battery capacity.
- ⁶ Super AG™ is a trademark of Atheros® Communications. Super AG™ mode delivers up to 108Mbps raw data rate with typical end user throughput exceeding 60Mbps in a wireless network environment where wirelessly connected equipment are using Atheros Super AG™ enabled chipsets. It is not available in models bundled with Atheros Wireless network connection 802.11b.
- ⁷ Some country configurations may be bundled with Atheros Wireless network connection 802.11b e.g. Thailand. Please check the country configuration with your local distributors.

It is natural for all thin-film transistor (TFT) liquid crystal displays (LCD) to show a small number of missing or discoloured dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Ambient temperature: 5° to 35°C/41 to 95°F (operating), -10° to 60°C/14 to 140°F (non-operating). Relative humidity: 20% to 80% RH (operating and non-operating).
