Disclaimers:

- 1 Results obtained from BAPCo® MobileMark®2007 (Productivity Workload) performed on systems with maximum battery life settings with power saving utility enabled under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in the real life situation. External ODD Drive or hard drive usage may also have a significant impact on battery life. Note: Battery life is based on Intel® Atom™ Processor N280 on Windows 7 Starter.
- 2 This refers to Windows XP/ Windows 7 hard disk drives C:\ and D:\. 50/50 refer to approximate 50% allocation of user accessible hard disk storage to C:\ and D:\ drives respectively. For hard disk drives, < 10GB will be reserved for internal recovery usage which is not shown.
- 3 BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password at every first startup or all startup sequences. Anti-theft Lock Slot allows the use of a lock to physically secure the LifeBook.
- 4 ThinkFree Mobile is an office productivity suite combining Document, Spreadsheet and Presentation tools. It is compatible with Microsoft® Office 97/2000/XP/2003/2007 and can directly Save-to-PDF format for easy sharing.
- 5 Please check actual bundling with country local distributor.
- 6 UpdateNavi is a Fujitsu Proprietary application that updates LifeBook drivers by connecting automatically to Fujitsu's server. This will help update your LifeBook with the latest software drivers and utilities to ensure compatibility between hardware and software, maintaining smooth operation anytime, anywhere.
- 7 RoHS (Restriction on Hazardous Substances) compliance means the system and its internal components comply with the EU RoHS directive (2002/95/EC) on the restricted use of six hazardous substances in the manufacture of the system and its internal components.
- 8 It is natural for all thin-film transistor (TFT) liquid crystal displays (LCD) to show a small number of missing or discolored dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.
- 9 Weight varies depending on different configurations.
- 10 Some software and device drivers may not work with HT technology. Please contact software vendor or peripheral device manufacture for the compatibility.
- 11 Certain features of other Windows 7 editions, including Windows Aero and the ability to change the desktop background, are not included with Windows 7 Starter.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Ambient temperature: 5° to 35°C / 41 to 95°F (operating), -15° to 60°C / 5 to 140°F (packaged). Relative humidity: 20% to 85% RH (operating), 8% to 85% RH (packaged). Please note that GB = billion bytes, 1GB is equivalent to 1,073,741,824 bytes.
