

Change up a Gear

Make the shift
to Windows 10 with Fujitsu

FUJITSU

shaping tomorrow with you

 Windows 10

Windows 10 Pro means business.

Invest in the future with Windows 10 on Fujitsu

Enable better protection and simplified IT for your business as Windows 7 and Office 2010 reach end of support starting January 14, 2020. Fujitsu can help you upgrade to Windows 10 and Office 365 ProPlus to be more productive and secure.

Most productive

Deliver the smartest productivity tools

Give users the easy, collaborative, intelligent experiences they want, and deliver rich capabilities across devices.

Lowest TCO

Free up time and gain control

Reduce downtime and increase control over your environment. Spend less time on updates and make data-driven decisions using cloud-based analytics.

Most secure

Provide the most secure experience for users and IT

Protect your devices with built-in security tools that always stay current against the latest threats.

Make the shift with Fujitsu now!

Windows 10 Pro and Fujitsu help you to get more done, and put your business in a position to do great things

Choose Fujitsu to shape your workplace transformation

Our role is to translate innovative features into benefits for our customers.

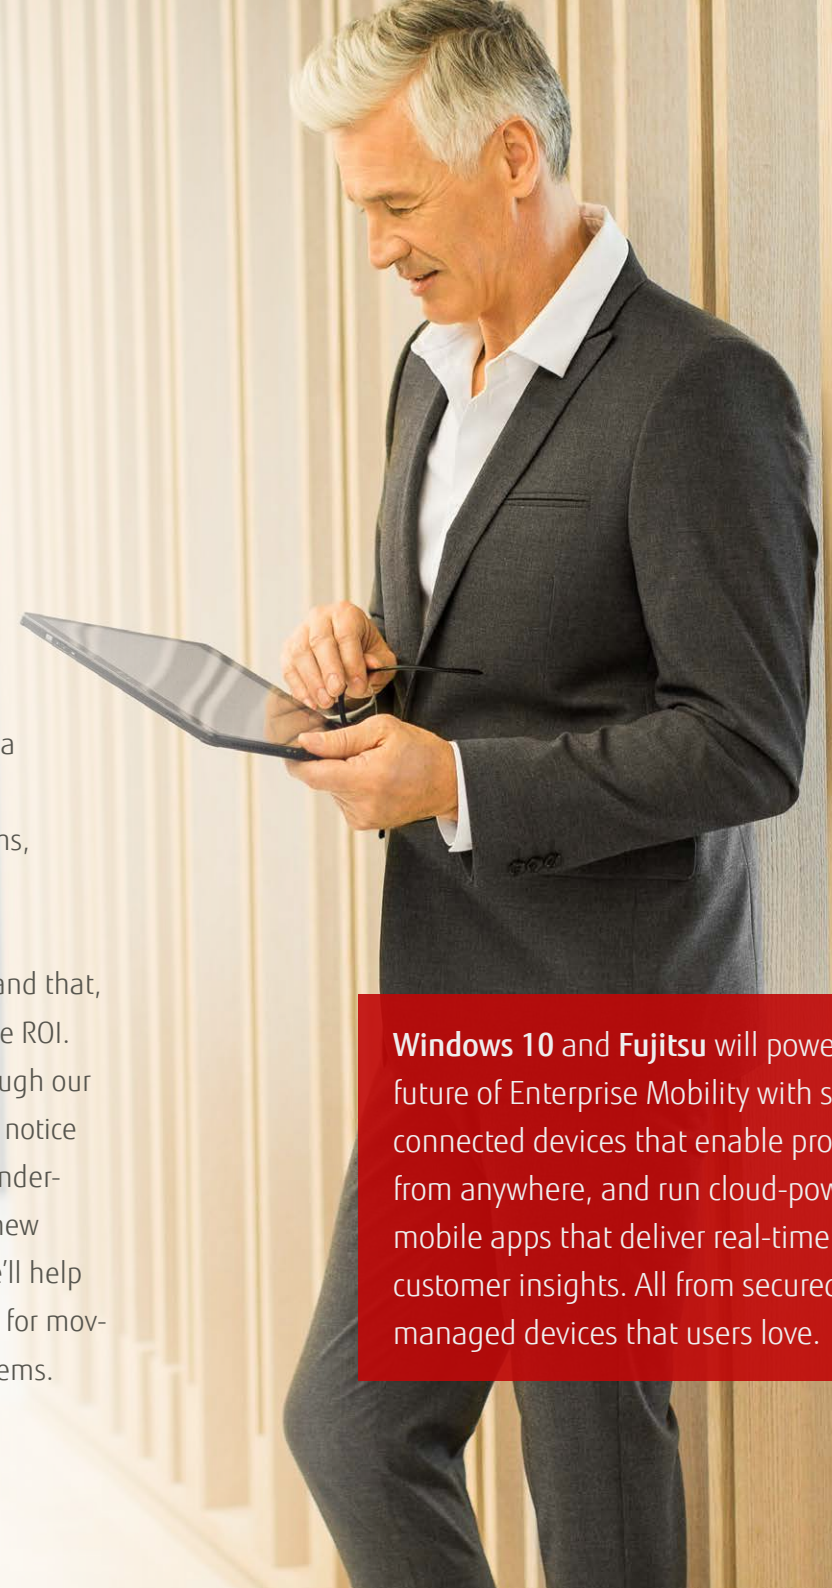

Making the shift to Windows 10 is a great move for your business. It's a big change, and you'll want it to be perfect. While going it alone may seem the best choice if you're trying to reduce costs, it could be a false economy, especially if you encounter problems or don't have close knowledge of everything the new OS can deliver in terms of business benefits. This is particularly the case if you are also planning to use Windows 10 migration as proof of concept for a bigger digital transformation of the business. If you need to move quickly and guarantee an effective delivery, then the best solution is to partner with a business with 20 years of delivering desktop managed services.

Fujitsu is a globally recognized Tier 1 IT services and systems integrator. We deliver complexity at scale.

We operate a world-class technology platform with a long history of working with Microsoft and working with organizations worldwide to roll out new systems, platforms and business development strategies.

We live and breathe IT transformation and understand that, while every organization is unique, all need to prove ROI. Also consider your relationship with Microsoft. Through our close, long-standing partnership, we have advanced notice of Windows 10 roadmaps and have built detailed understanding of how to utilize and get the most out of new features and tools in the new operating system. We'll help you pick the right and most cost-effective approach for moving to Windows 10 and its associated cloud ecosystems.

Windows 10 and **Fujitsu** will power the future of Enterprise Mobility with smart, connected devices that enable productivity from anywhere, and run cloud-powered mobile apps that deliver real-time customer insights. All from secured, well-managed devices that users love.

Let Fujitsu power your shift to Windows 10

Regardless of the size and complexity of your business environment, Fujitsu can help you plan, build, test, and validate your deployment. We can help you find the right balance of performance, cost, flexibility and security.

Skills and experience: we support over 10 million devices globally

We were one of the first to migrate customers to Windows 10 back in 2015. So we have been part of the journey since the start – meaning that you benefit from the learning and insights our specialist teams have acquired.

Your people come first

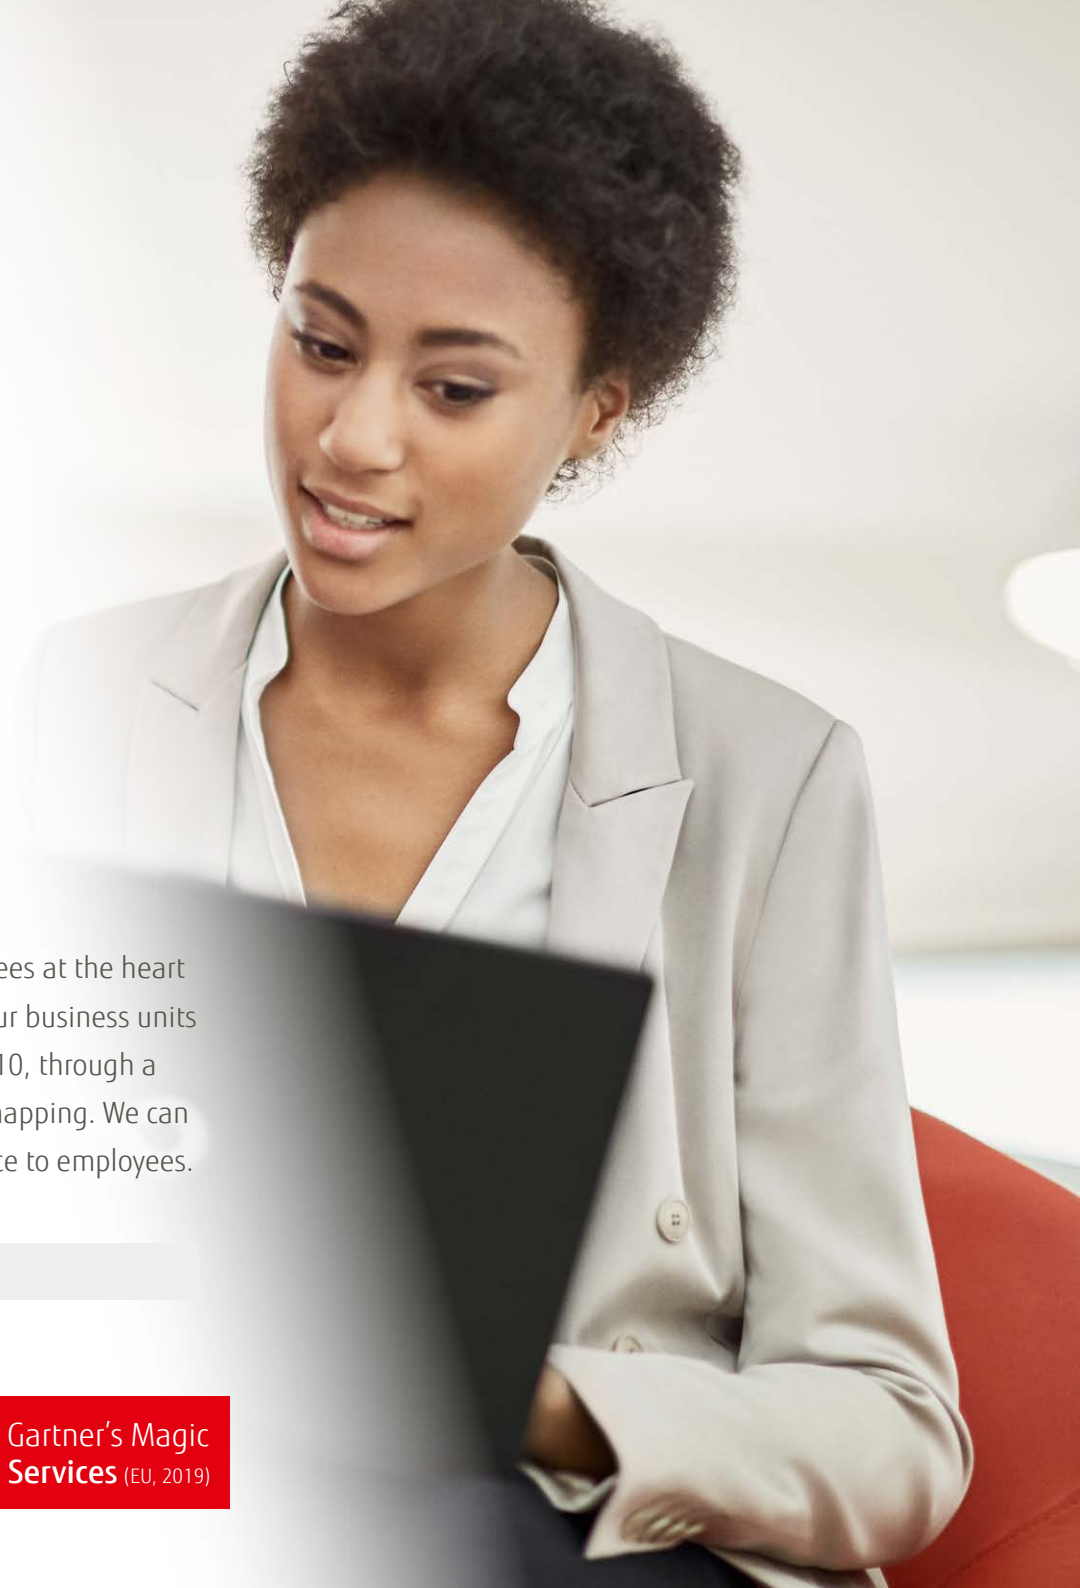

Our consultancy-led approach puts your employees at the heart of the migration plan. We work with you and your business units to ensure a secure, seamless move to Windows 10, through a Workplace Assessment and Colleague Journey mapping. We can even support you on-site with training and advice to employees.
