- A social contribution effort to develop future business leaders in the Asia-Pacific region who aspire to act beyond the boundaries of their country and culture.
Invest in your potential for the betterment of society.

Fujitsu’s Stance on Social Contributions

Ever since its establishment in 1935, Fujitsu has made contributions to the development of social infrastructure with its innovative information and communications technologies. We have a long-term vision of achieving, through the increased use of ICT and computer science, a “Human Centric Intelligent Society” that is both secure and rewarding for people, by making full use of this environment, data can be accumulated from human knowledge and wisdom, changes from behavioral patterns and local situations. By analyzing this data, we hope to identify new needs and existing social challenges. Take transportation, for example. We can acquire information on traffic congestion and road surface conditions using sensors embedded in cars and roads. By monitoring information on the way drivers operate their vehicles, we can relieve traffic congestion and prevent accidents.

Fujitsu Scholarship, a social contribution

In addition to the social contribution efforts through our business activities, to strengthen our CSR activities, Fujitsu established “Fujitsu Scholarship Program” to train the inspired businesspeople who contribute to their society with larger perspectives. Through the program, the scholarship recipients are exposed to the management frameworks in multi-cultural settings with highly motivated business professionals from Asia Pacific. After completion of the program, the scholarship recipients are expected to utilize the knowledge obtained through the program and increased global perspectives for the development of their societies. Since 1985 to date, more than 400 businesspeople have been awarded the Fujitsu scholarship.

Over the past 26 years, the Fujitsu Scholarship program has built a network of Fujitsu scholars in 18 countries and areas in the Asia-Pacific region. Fujitsu Scholarship is a program aimed towards people who want to serve and contribute to the betterment of their communities. Former scholarship recipients have used the knowledge they obtained through this program to bring positive changes to their communities, affecting society as a whole.

Fujitsu Scholarship recipient, JAIMS alumni, Dede Prabowo founded the Alam Aksara scholarship program in 2002 with Jim Wagner to provide financial assistance to disadvantaged Indonesian students. In Indonesia, Alam Aksara translates to “world of letters.” Prabowo recalled how his Fujitsu Scholarship took care of the majority of his educational program expenses. “Ever since I finished the program, it has been my dream to be able to provide opportunities to promising but disadvantaged Indonesian students. In Indonesian, Alam Aksara translates to “world of letters.” Prabowo founded the Alam Aksara scholarship program in 2002 with Jim Wagner to provide financial assistance to disadvantaged Indonesian students.

Program to Participate

Fujitsu Scholarship Program is consisted of the three-month East-West Knowledge Leaders Program offered by JAIMS in Hawaii, U.S.A., and a week-long Japan-Portion Program.

I. JAIMS East-West Knowledge Leaders Program (EWKLP)

EWKLP 2012 Spring.......................... April 9, 2012 – July 5, 2012

The EWKLP is intended to sharpen one’s global business savvy, and build confidence for dealing with global business situations with a solid academic foundation complemented by a practice-based experiential learning environment. The curriculum will challenge you to integrate theory and practice, and provide you with a broad foundation for innovative thinking. The program features a liberal arts component including lectures and field study experiences related to history, philosophy, culture, religion, and cultural anthropology.

For details of EWKLP, refer to www.jaims.org/ewklp.html

II. Japan-Portion Program

Spring Program........................... July 9, 2012 – July 17, 2012

The Fujitsu Scholarship Japan-Portion Program will provide the participants with unique learning opportunities they can only experience in Japan. Learning topics include:

Site Visit:
Visit and learn about examples of innovative management practices or unique Japanese-management cases.

Social Innovation Using ICT:
Learn how ICT can be utilized as a tool to attain a better, more prosperous society.

Understanding Japanese Culture:
Improve your understanding of Japanese management and Japanese management philosophy by learning more about Japanese culture.
