### FLEXTRONICS RECOGNIZES OUTSTANDING CONTRIBUTIONS BY STRATEGIC SUPPLIERS

**San Jose, CA, July 9, 2014** – Flextronics (NASDAQ: FLEX) announced the recipients of its 2014 Strategic Supplier Awards that were honored last month. The Awards recognize outstanding performance, strategic value-add, excellent service and innovation by suppliers that exemplify what it means to be a strategic supplier at Flextronics.

Suppliers selected for the awards were nominated by employees of Flextronics in various business groups as well as Flextronics procurement professionals. Awards were given to strategic suppliers during the Flextronics Strategic Supplier Summit which was held last month at the Flextronics Customer Innovation Center located in the heart of the Silicon Valley.

“Only 68 out of 14,000 active suppliers were selected and I am very pleased to recognize Flextronics’ strategic suppliers with this meaningful award,” said Tom Linton, chief procurement officer at Flextronics. “On behalf of Flextronics, I would like to congratulate and thank these strategic suppliers for their outstanding performance, collaboration and contributions to our success--they are well-deserving of this recognition.”

### **About Flextronics**

Flextronics is a leading end-to-end supply chain solutions company that delivers design, engineering, manufacturing and logistics services to a range of industries and end-markets, including data networking, telecom, enterprise computing and storage, industrial, capital equipment, appliances, automation, medical, automotive, aerospace and defense, energy, mobile, computing and other electronic product categories. Flextronics is an industry leader with \$26 billion in sales, generated from helping customers design, build, ship, and service their products through an unparalleled network of facilities in approximately 30 countries and across four continents. Flextronics service offerings and vertically integrated component technologies optimize customer supply chains by lowering costs, increasing flexibility, and reducing time-to-market.
