Microsoft® Windows® Small Business Server 2003
Microsoft® Windows® 2000 Server
Microsoft® Windows® 2000 Advanced Server

3. Notes

- (1) This download module includes the following components.
 - SNMP agent
 - ServerView (Win32)
 - AlarmService
 - ServerView S2
 - RemoteControlService
- (2) To user ServerView under Windows 2003 R2, do not install "Hardware Management"
- (3) SNMP agent / ServerView (Win32) in V4.11 L55A does not support update installation. Uninstall existing SNMP agent and ServerView (Win32) in advance. For uninstallation procedure, refer to the ServerView User's Guide (B7FH4191.PDF).

Uninstallation of SNMP agent, ServerView (Win32), AlarmService, and ServerView S2 will not inherit their setup data to next installation. Setup data for SNMP agent includes power management shcdedule, ASR. Setup data for erverView (Win32), AlarmService, and ServerView S2 include Server list and Alarm setup. After installation, setup again these values.

4. Change history

- V4.11 L55A
- 1) Support following operating systems.
 - Microsoft® Windows Server™ 2003 R2, Standard Edition
 - Microsoft® Windows Server™ 2003 R2, Enterprise Edition
 - Microsoft® Windows Server™ 2003 R2, Standard x64 Edition
 - Microsoft® Windows Server™ 2003 R2, Enterprise x64 Edition
 - 2) Fixed SNMP following agent problem.
 - System error when SNMP service is not set to Automatic.

5. Installation Procedure

Refer to ServerView User's Guide (B7FH4191.PDF) for details.
It is included the download file.

Note: ServerView User's Guide describes installation procedure from CD-ROM.

To install from a downloaded file, use a folder name of the file as an installation directory.
