

Europe Procurement Green Procurement Sub-Master Policy

Policy Statement

Fujitsu Group is committed to sustainable growth and taking a systemic and sustained approach to environmental management. The Fujitsu Way clearly commits Fujitsu at a global level through our corporate value: "in all our actions, we protect the environment and contribute to society".

- Procurement will procure environmentally sustainable goods, services, materials while taking into account global, regional and local impacts.
- Subject to criticality, Fujitsu withholds the right to withdraw supplier contracts if a supplier is found to be non-compliant with The Fujitsu Way and/or the Fujitsu Global Business Standards.
- Suppliers must take appropriate actions to avoid or reduce negatively contributing to ethical, social, economic and environmental principles.
- Procurement will encourage our business areas and suppliers to continually improve their responsible engagement.
- Working with the business, Procurement will support the "FUJITSU Climate and Energy Vision," goal of bringing the Fujitsu Group's CO2 emissions to zero by 2030, through provision of technologies and services supporting digital transformation and the reduction of CO2 emissions.
- All activities undertaken must comply with Fujitsu Global Business Standards and all other corporate policies

Scope

This Policy applies to Fujitsu operations in Europe.
