Fujitsu and Showa Denko Conclude Definitive Contract on HDD Media Business Transfer

Tokyo, April 30, 2009—Showa Denko KK (“SDK”) and Fujitsu Limited (“Fujitsu”) today concluded a definitive contract on the transfer of Fujitsu’s hard disk drive (HDD) media business, operated by Fujitsu subsidiary Yamagata Fujitsu Limited (“Yamagata Fujitsu”), to SDK in accordance with the memorandum of understanding signed February 17, 2009.

Based on this definitive transfer contract, Fujitsu will establish a new company that will take over Yamagata Fujitsu’s HDD media business. Fujitsu will then transfer all shares in the new company to SDK by July 1, 2009. SDK and Fujitsu will continue to cooperate in the establishment of the new company and smooth transfer of the HDD media business.

Yamagata Fujitsu manufactures aluminum media for HDDs used in servers, and glass media for compact HDDs used in mobile PCs and car electronics. Through the acquisition of Yamagata Fujitsu’s HDD media business, SDK will step up its development and production of aluminum media for servers. At the same time, SDK will meet the requirements of customers who have been using Yamagata Fujitsu’s HDD media.

SDK will obtain HDD media-related R&D capabilities, manufacturing know-how, and intellectual property owned by Yamagata Fujitsu. SDK will merge these capabilities with its own technologies, aiming to benefit from the synergies.

The HDD and HDD media markets are expected to expand further centering on such applications as notebook PCs and digital electric appliances. Demand for high-capacity HDD media is also expected to grow due to the introduction of digital terrestrial broadcasting and increased sales of high-definition camcorders. Thus, SDK will continue to timely enhance the development of its next-generation magnetic-recording technology for large-capacity HDD media by merging Yamagata Fujitsu’s capabilities, centering on server applications, with its own advanced technologies.

As the world’s largest independent HDD media supplier, SDK will continue developing and supplying large-capacity HDD media to meet customer needs.

1. Overview of New Company (from July 1, 2009)

<table>
<thead>
<tr>
<th>(1) Company Name</th>
<th>Showa Denko HD Yamagata KK (tentative)</th>
</tr>
