

Fujitsu Group Human Rights Statement

The Fujitsu Group ("FUJITSU") is committed to respecting human rights of all stakeholders related to our business operations, products and services ("activities") in accordance with the FUJITSU Way, which embodies the philosophy of FUJITSU and the values and principles that we follow in our daily activities. This document summarizes FUJITSU's position on key human rights issues based upon the FUJITSU Way's code of conduct statement "We respect human rights."

1.Global Approach

Our business approaches to human rights recognize the importance of international standards, especially the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights, the International Covenant on Economics, Social and Cultural Rights, and the International Labor Organization's Declaration on Fundamental Principles and Rights at Work. We are committed to comply with local laws and regulations protecting human rights in our activities. Where local laws and regulations are not fully consistent with the principles of internationally recognized human rights, we will seek ways to advance those principles in a manner respectful of local requirements.

2.Human Rights Due Diligence

Recognizing the United Nations Guiding Principles of Business and Human Rights, we are striving to conduct human rights due diligence. Considering the impacts human rights violation can cause, we will prioritize appropriate actions to identify, prevent or mitigate those impacts in our value chains. We will regularly review and update the progress on our efforts, and annually communicate the results through our CSR report and other communication tools. Where we identify that we have caused or directly contributed to adverse human rights impacts, we would engage in appropriate remediation processes by ourselves or in cooperation with other stakeholders.

3.Responsibilities as an ICT Company

ICT penetrates into every corner of human society, and can empower people by delivering information that can aid their actions and judgments. As a leading ICT provider, we strive to leverage the power of ICT to have a positive impact on human rights, although we recognize the negative impacts that ICT may cause in our rapidly changing environment. We will engage with our stakeholders on emerging issues, such as data security and privacy, in furtherance of our responsibilities as an ICT provider.

4.Embedding Human Rights

We will continuously conduct awareness-raising efforts about the responsibility to respect human rights within FUJITSU in accordance with the FUJITSU Way. We value stakeholder collaborations and a culture of diversity and inclusion to contribute to the sustainable development of society and to help us promote innovation.
